Subject: PRIA Label Amendment – Addition of Pathogens
Product Name: DF-PRO PART B
EPA Registration Number: 90606-2
Received Date: 11/24/2021
Action Case Number: 00336840

Dear Matthew Brooks:

The amended label and CSF(s) referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, are acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

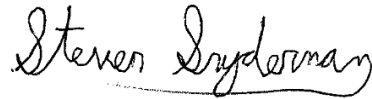

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6), you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

EPA Reg. No. 90606-2
Action Case No. 00336840

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Luisa C. Samalot-Freire at (202) 566-0609 or via email at samalot.luisa@epa.gov.

Sincerely,

A handwritten signature in black ink that reads "Steven Snyderman". The signature is written in a cursive style with a horizontal line underneath the name.

[]- Denotes sections of optional language or instruction

First Aid	
IF IN EYES:	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. • Call a poison control center or doctor for further treatment advice.
IF ON SKIN:	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for further treatment advice.
IF INHALED:	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, if possible. • Call a poison control center (800-222-1222) or doctor for further treatment advice
IF SWALLOWED:	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have a person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
<p>For information on this pesticide product (including general health concerns or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378, Monday through Friday, 8:00 AM to 12:00 PM Pacific Standard Time. In the event of a medical emergency, call your poison control center at 1-800-222-1222.</p>	

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Danger. Corrosive. Causes irreversible eye damage. Causes skin irritation. Harmful if inhaled. Do not get in eyes, on skin, or on clothing. Avoid breathing vapor or spray mist. Wear protective eyewear such as goggles, face shield or safety glasses. Wear chemical resistant gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. The product is designed specifically as a general cleaner and disinfectant for use in homes, hospitals, and commercial facilities. It is formulated for use on hard, non-porous, inanimate environmental surface such as floors, walls, metal surfaces, stainless steel, porcelain, glazed ceramic tile, plastic surfaces, bathrooms, shower stalls, bathtubs, and cabinets. May be used in the kitchen on non-food contact surface. In addition, this product deodorizes areas that are hard to keep fresh smelling including garbage, cans, basements, restrooms and areas prone to odors.

[ATCC numbers may not appear on final labels]

DF-PRO is binary (Two part) system. Before use, mix equal parts of PART A and PART B. Apply the newly mixed solution as a spray onto hard non-porous surfaces as directed below.

Surface Cleaning Procedures: Prior to application of DF-PRO as deodorizing and disinfection agent, visible soil, blood and other bodily fluids must be thoroughly cleaned from surfaces and objects before application of this product. Blood and other bodily fluids should be autoclaved and disposed of according to local regulations and infectious waste disposal. Use appropriate personal protection when handling items exposed to blood and bodily fluids. To preclean a surface, spray the mixture (DF-PRO Part A and Part B) onto the surface and allow to penetrate (about 2 minutes), and then clean thoroughly.

Deodorizing and Disinfection: Follow surface cleaning instructions listed above. To disinfect and deodorize surfaces, spray the mixture (DF-PRO Part A and Part B) at a distance of 6-8 inches and allow surface to remain visibly wet with product for 10 minutes. No scrubbing is necessary. The product will not leave grit.

Contact Time: Allow surface to remain visibly wet for 10 minutes.

When used as directed this product will kill *Pseudomonas aeruginosa* (ATCC 15442), *Salmonella enterica* (ATCC 10708) and *Staphylococcus aureus* (ATCC 6538) on contact.

VIRUCIDAL ACTIVITY – Follow Pre-Cleaning instructions listed above. To kill viruses on hard nonporous surfaces, spray the mixture (DF-PRO Part A and Part B) at a distance of 6-8 inches and allow surface to remain visibly wet for 10 minutes. No scrubbing is necessary. The product will not leave grit.

When used as directed, DF-PRO Part A and Part B mixture has been demonstrated to provide disinfection efficacy on hard non porous surfaces against Norovirus (Feline Calicivirus Surrogate (ATCC VR-782)).

DEODORIZING – DF-Pro Part B is an effective deodorizer when applied to areas affected with:

- Pet odors
- Food odors
- Putrefying odors
- Smoke odors

Always check fabric surfaces for colorfastness when applying. Remove visible soil. Mix equal parts of PART A and PART B and apply to surfaces until they appear wet to eliminate odors. Allow product to air dry or surface to remain wet for at least 10 minutes.

SWIMMING POOL APPLICATIONS - When used as directed, this product may be used as an algaecide to treat walls of swimming pools.

ALGAECIDE USE - After draining or before filling pool, spray and scrub walls with product. Allow to remain on surface for 30 minutes prior to rinsing.

REMOVES STAINS FROM SURFACES – DF-PRO Part A and Part B mixture may be used to clean surfaces. Mix 4 ounces of DF-PRO PART A and Part B into one gallon of water. Apply liberally to coat surfaces and allow to remain visibly wet for 30 minutes. Scrub surface with sponge to remove stains. Also for outdoors on cement, aluminum and wood siding, wood decks and metal roofs to remove stains caused by mold and mildew.

SPRAYING – Mix equal parts of PART A and PART B directly into ULV spray equipment. Apply mixed product at a rate of no less than 1 ounce to 100-sq. ft. of surface area. Allow surface to air dry or remain visibly wet for at least 30 minutes.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE – Store in a dry place. Do not allow product to freeze.

PESTICIDE DISPOSAL- To avoid wastes, use all material in this container by application, according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry).

CONTAINER DISPOSAL –

Nonrefillable Container (five gallons or less): Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

Nonrefillable Container (greater than five gallons): Nonrefillable container. Do not reuse or refill container. Offer for recycling, if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

WARRANTY STATEMENT

Decon Formulas LLC warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on such label only when used in accordance with directions under normal use conditions. It is impossible to eliminate all risks inherently associated with use of this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of Decon Formulas LLC. To the extent consistent with applicable law, Decon Formulas LLC shall not be liable for consequential, special or indirect damages resulting from the use or handling of this product. All such risks shall be assumed by the Buyer. To the extent consistent with applicable law, the exclusive remedy of any buyer or user of this product for any and all losses, injuries, or damages resulting from or in any way arising from the use, handling, or application of this product, whether in contract, warranty, tort, negligence, strict liability, or otherwise, shall not exceed the purchase price paid for this product or at Decon Formulas LLC's election, the replacement of this product. DECON FORMULA LLC MAKES NO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.

Additional Terms of Registration-

Statement below may be contained in technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, 1-800 consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped Viruses
- Large Non-Enveloped Viruses

<i>For an emerging viral pathogen that is a/an...</i>	<i>...follow the directions for use for the following organisms on the label:</i>
Enveloped virus	Norovirus (Feline Calicivirus Surrogate (ATCC VR-782))
Large, non-enveloped virus	Norovirus (Feline Calicivirus Surrogate(ATCC VR-782))

DF-PRO Part B, EPA Reg. No. 90606-2, when mixed at equal part with **DF-PRO Part A, EPA Reg. No. 90606-1** has demonstrated effectiveness against viruses similar to **[name of emerging virus]** on hard, non-porous surfaces. Therefore, **DF-PRO Part B, EPA Reg. No. 90606-2**, when mixed at equal part with **DF-PRO Part A, EPA Reg. No. 90606-1** can be used against **[name of emerging virus]** when used in accordance with the directions for use against **[name of supporting virus(es)]** on hard, non-porous surfaces. Refer to the **[CDC or OIE]** website at **[pathogen-specific website address]** for additional information. **[Name of illness/outbreak]** is caused by **[name of emerging virus]**. **DF-PRO Part B, EPA Reg. No. 90606-2**, when mixed at equal part with **DF-PRO Part A, EPA Reg. No. 90606-1** kills similar viruses and therefore can be used against **[name of emerging virus]** when used in accordance with the directions for use against **[name of supporting virus(es)]** on hard, non-porous surfaces. Refer to the **[CDC or OIE]** website at **[website address]** for additional information.”
