

U.S. ENVIRONMENTAL PROTECTION AGENCY  
 Office of Pesticide Programs  
 Antimicrobials Division (7510P)  
 1200 Pennsylvania Ave., N.W.  
 Washington, D.C. 20460

EPA Reg. Number:

90714-1

Date of Issuance:

8/11/15

NOTICE OF PESTICIDE:

Registration  
 Reregistration  
 (under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Clear Choice Liquid Shock  
 Treatment

Name and Address of Registrant (include ZIP Code):

Double B Services LLC  
 12 Eastern Park Road  
 East Hartford, CT 06108

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Demson Fuller, Product Manager 32  
 Regulatory Management Branch II  
 Antimicrobials Division (7510P)

Date:

8/11/15

2. Make the following label changes before you release the product for shipment:
  - Revise the EPA Registration Number to read, “EPA Reg. No. 90714-1.”
3. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated April 25, 2015

If you have any questions, please contact Killian Swift by phone at 703-308-6346, or via email at [Swift.Killian@epa.gov](mailto:Swift.Killian@epa.gov).

Sincerely,

Demson Fuller

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER KEEP OUT OF REACH OF CHILDREN:**

**Corrosive:** Causes irreversible eye damage and skin burns to broken skin. Do not get in eyes, on skin or on clothing. Wear safety glasses, goggles or face shield and protective clothing when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated. Remove contaminated clothing and wash before reuse.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT:**

Mix only with water according to label directions. Mixing this product with chemical (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release chlorine gas which is irritating to eyes, lungs, and mucous membranes.

This product is a strong bleaching agent. Do not spill on clothing, carpet or other fabric. Store containers upright and secure in transit to prevent upset. Caps can loosen in storage. Tighten before moving. Closures also are vented to release pressure build-up, and can leak in transit. If accidentally spilled, rinse immediately with plenty of water. Do not transfer contents to any metal container for storage.

**HYPOCHLORITE SOLUTIONS, 8, UN 1791, PG III  
CAS# 7681-52-9**

A DISINFECTANT FOR CONTROLLING BACTERIA & ALGAE IN SWIMMING POOLS

ACTIVE INGREDIENT:  
SODIUM HYPOCHLORITE 12.5%  
INERT INGREDIENTS 87.5%  
TOTAL 100.0%

**ACCEPTED**  
08/11/2015

Under the Federal Insecticide, Fungicide  
and Rodenticide Act as amended, for the  
pesticide registered under  
EPA Reg. No. 90714-1

**KEEP OUT OF REACH OF CHILDREN  
DANGER**

**FIRST AID:**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**NOTE TO PHYSICIAN:** Probable Mucosal damage may contraindicate the use of gastric lavage.

- **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
- **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
- **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth (or mouth, if possible). Call a poison control center or doctor for further treatment advice.
- **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

#### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Approximate water dilution table for this product  
1 fluid oz. In 1000 gallons of water = 1 ppm  
1 fluid oz. In 100 gallons of water = 10 ppm  
1 fluid oz. In 10 gallons of water = 100 ppm  
1 fluid oz. In 1 gallon of water = 1000 ppm

Note: This product degrades with age. Use a chlorine test kit and increase or decrease dosage, as necessary, to obtain the desired level of available chlorine.

#### SWIMMING POOL WATER DISINFECTION

Swimming pool water should contain proper amounts of chlorine to kill bacteria and prevent the formation of algae and cloudy water.

For a new pool or spring start-up, superchlorinate with 52 to 104 oz. of product for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. Check the level of available chlorine with a test kit. Adjust and maintain pool water pH to between 7.2 to 7.6. Adjust and maintain the alkalinity of the pool to between 50 to 100 ppm.

To maintain the pool, add manually or by a feeder device 11 oz. of this product for each 10,000 gallons of water to yield an available chlorine residual between 0.6 to 1.0 ppm by weight. Stabilized pools should maintain a residual of 1.0 to 1.5 ppm available chlorine. Test the pH, available chlorine residual and alkalinity of the water frequently with appropriate test kits. Frequency of water treatment will depend upon temperature and number of swimmers.

Every 7 days, or as necessary, superchlorinate the pool with 52 to 104 oz. of product for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. Check the level of available chlorine with a test kit. Re-entry into treated pools is prohibited above levels of 4 ppm due to risk of bodily harm. Do not re-enter the pool until the chlorine residual is between 1.0 and 3.0 ppm.

At the end of the swimming pool season or when water is to be drained from the pool, chlorine must be allowed to dissipate from treated pool water before discharge. Do not chlorinate the pool within 24 hours prior to discharge.

#### STORAGE AND DISPOSAL

Do not contaminate food or feed by storage, disposal or cleaning of equipment.

**Pesticide Storage:** Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration. Always store pesticides in the original container. If a leaky container must be contained within another, mark the outer container to identify the contents.

**Spill or Leak Procedure:** In case of spill, flood area with large amounts of water. Product or rinsates that cannot be used should be diluted with water before disposal in a sanitary sewer.

#### Pesticide Disposal:

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or Hazardous Waste Representative at the EPA Regional Office for guidance.

**For Household/Residential Products (for rigid, nonrefillable containers - 5 gallons or smaller) Container Handling:** Nonrefillable rigid container. Do not reuse or refill this container. Triple rinse (or equivalent), promptly after emptying. Offer for recycling, if available, or throw in trash.

**For Commercial/Industrial/Institutional Products (for rigid, nonrefillable containers - 5 gallons or smaller) Container Handling:** Nonrefillable rigid container. Do not reuse or refill this container.

**No Deposit Container:** Cleaning the container before final disposal is the responsibility of the person disposing of the container. To clean the container before final disposal triple rinse, then offer for recycling if available.
