	<p>Term of Issuance:</p> <p>Conditional, Time-Limited Expires: 11/9/18</p>	
	<p>Name of Pesticide Product:</p> <p>Neove Spot On #2 for Dogs</p>	
<p>Name and Address of Registrant (include ZIP Code):</p> <p>Shanghai Neway Animal Health Co., Ltd. c/o Mary Hunt Exponent, Inc. 1150 Connecticut Ave., N.W., Suite 1100 Washington, D.C. 20036</p>		
<p>Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.</p>		
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.</p> <p>Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:</p> <ol style="list-style-type: none">1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.		
<p>Signature of Approving Official:</p>  <p>Venus Eagle, Product Manager 01 Invertebrate & Vertebrate Branch 3 Registration Division (7505P) Office of Pesticide Programs</p>	<p>Date:</p> <p>11/9/16</p>	

2. This registration is time-limited and expires 11/9/18.
3. You must submit quarterly enhanced incident reports and quarterly sales information in doses sold for this product beginning within 3 months of the date the product is first released for shipment, on the first day of the quarter (i.e., January 1, April 1, July 1, or October 1). Please flag any Confidential Business Information as such. Submit enhanced incident reporting and quarterly sales information to the Product Manager's attention. The following is a list of information that must be included in the quarterly reports for each incident:
 - EPA Registration Number
 - Product name (brand name)
 - Lot #
 - Where purchased: internet, store, veterinarian
 - Active Ingredient(s)
 - Weight range for product
 - Date on which incident occurred (mm/dd/yyyy)
 - State in which the incident occurred (standard 2 letter abbreviation)
 - Registrant case #
 - Species: dog, cat, other (specify)
 - Breed: (as reported by pet owner)
 - Age: months or years
 - Sex: M, F, or neutered
 - Weight: pounds
 - Primary Route of Exposure: dermal, oral, other animal, inhalation, other
 - Body System: neurological, dermatological, GI, respiratory, ocular, other
 - Major signs noted with separate column for each sign, using standard terminology
 - Time to Onset: (hours, days)
 - Treated by veterinarian: yes or no
 - First time product used: yes or no
 - Misuse: use on incorrect species, overdose, too frequent dosing, other (describe)
 - Any known precondition
 - EPA Severity Code: death, major, moderate, minor
 - Outcome: died, recovered, still treated, unknown
4. Along with the enhanced incident reporting, you must submit an analysis of the incidents seen, to include the following details:
 - All incidents should be reported including all minor dermal and ocular irritation reports.
 - Summary table for dogs showing number of incidents of each severity code for each route of exposure. Each incident should only be reported once. If one incident has several routes of exposure, the order should be ocular > oral > dermal. In other words, an incident with both oral and dermal exposure would be reported as oral exposure, and an incident with both ocular and oral exposure would be reported as ocular exposure.

- A similar summary table for cats (misuse or secondary exposure) showing number of incidents of each severity code for each route of exposure.
- Summary table for cats and table for dogs showing number of incidents that are believed due to secondary exposure (e.g., multi-pet households).
- A summary table for dogs showing number of incidents for each severity code for these age ranges: <3 months, 3-6 months, 6-9 months, 9-12 months, 1 yr, 2 yr, 3 yr, 4 yr, 5 yr, 6 yr, 7 yr, 8 yr, 9 yr, 10 yr, 11 yr, 12 yr, 13 yr, 14 yr, 15 yr, >15 yr.
- A summary table showing the number of dog incidents for each severity code for each pet weight range on the product label, as applicable.
- A summary table for dog weight showing number of incidents for each product weight range. This table should show number of incidents in dogs weighing less than that product weight range, number of incidents in dogs in lower half of weight range, number of incidents in dogs in upper half of weight range, and dogs weighing more than the product weight range, as applicable.
- Table showing number of incidents for each dog breed, where provided.
- Table showing number of incidents in dogs for each clinical sign.
- Table showing number of incidents in dogs for each organ system.
- Report aggregate incidents, but do not combine moderate and minor incidents.

If EPA determines that future mitigation measures are necessary for all pet spot-ons, the Agency will inform registrants. If mitigation measures are necessary, EPA may take regulatory action.

5. You are required to comply with the data requirements described in the DCI or EDSP Order identified below:
 - a. Imidacloprid GDCI-071503-1243
 - b. Pyriproxfen GDCI-129032-1299
 - c. Imidacloprid EDSP-129099-179

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI or EDSP Order listed above, you may contact the Chemical Review Manager in the Pesticide Reevaluation Division:

<http://iaspub.epa.gov/apex/pesticides/f?p=chemicalsearch:1>

6. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No. 91090-7."
7. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples

Page 4 of 4
EPA Reg. No. 91090-7
Decision No. 512074

of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

Please note that the record for this product currently contains the following CSFs:

- Basic CSF dated 12/5/2015

If you have any questions, please contact Marianne Lewis by phone at (703) 308-8043, or via email at lewis.marianne@epa.gov.

FIRST AID

If Swallowed	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
If in Eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. • Call a poison control center or doctor for treatment advice
If on Skin	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
Hotline Number: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Call 1-XXX-XXX-XXXX for emergency treatment information.	

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

Caution. Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

HAZARDS TO DOMESTIC ANIMALS

For External Use Only. Do NOT use on puppies under seven weeks of age or weighing less than [3 lbs][11 lbs][21 lbs][55 lbs]. Do NOT use on cats, rabbits or any other animals. As with any product, consult your veterinarian before using this product on debilitated, aged, pregnant or nursing dogs. Individual sensitivities, may occur after using ANY pesticide product for dogs. If signs persist or become more severe, consult a veterinarian immediately. If your dog is on medication, consult your veterinarian before using this or any other product.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not allow children to apply product. READ ENTIRE LABEL AND PACKAGE INSERT BEFORE EACH USE. USE ON DOGS ONLY AND DO NOT ALLOW YOUR DOG TO INGEST THIS PRODUCT. DO NOT USE ON CATS, RABBITS OR ANY OTHER ANIMALS.

HOW TO APPLY

- REMOVE and OPEN the child resistant package according to the instructions on package insert.
- For dogs and puppies 7 weeks and older and weighing [3-10 lbs][11-20 lbs] To APPLY Neove Spot On #002 for Dogs: Part the dog's hair and place the tip of the tube through the dog's hair to the skin level between the shoulder blades. Squeeze the tube thoroughly to ensure the entire contents are applied in a single spot on the dog's skin. Do not apply the product superficially to the hair coat and avoid contact with the treated area until dry.
- For dogs and puppies 7 weeks and older and weighing [21-55 lbs][55 lbs and over] To APPLY Neove Spot On #002 for Dogs: Apply the entire contents evenly to three to four spots on the top of the back from the shoulder to the base of the tail. At each spot, place the tip of the tube through the dog's hair to the skin level. Gently squeeze the tube to expel a portion of the solution on the dog's skin. Do not apply excessive amount at any one spot and avoid contact with the treated area until dry.

Side Effects: Monitor your dog after application. Side effects may include signs of skin irritation such as redness, scratching, or other signs of discomfort such as hypersalivation. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects such as lethargy occur, consult your veterinarian.

**FOR USE ON DOGS ONLY
DO NOT USE ON CATS**

Keep cats away from treated dogs for 24 hours.

If applied to a cat or ingested by a cat, contact your veterinarian immediately.

{Note to Reviewer: Cat prohibition icon will be 1.5 cm x 1.5 cm and will appear in the lower right hand corner of the panel/insert}

Neove Spot On #002 for Dogs contains imidacloprid and an insect growth regulator, pyriproxyfen, that effectively kill multiple stages of flea life cycle (flea eggs, flea larvae and adult fleas) within 12 hours and prevents further infestation, which may reduce the incidence of Flea Allergy Dermatitis (FAD) or Flea Bite Hypersensitivity (FBH).

Neove Spot On #002 for Dogs remains effective after bathing. Monthly treatments are recommended for control and prevention of fleas.

[For package insert of 0.4 ml (0.014 fl oz) and 1.0 ml (0.034 fl oz) tubes]

HOW TO REMOVE AND OPEN THE CHILD RESISTANT PACKAGE

1. Snap off **ONE** blister pack along the segment line.

2. Use scissors to cut across the top bubble section (Do not harm the tube inside).
