PRONATURAL BRANDS, INC.

Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 - Minor Labeling  
Revisions per PR Notice 98-10  
Product Name: LEXX RTU LIQUID CONTACT SURFACE DISINFECTANT & CLEANER  
Admin Number: 91452-6  
EPA Receipt Date: 03/25/2025  
Action Case Number: 00650073

Dear Katie Woodall:

The U.S. Environmental Protection Agency is in receipt of your application for notification under Pesticide Registration Notice 98-10 for the above referenced product. The EPA has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have questions, please contact Terria Northern via email at [northern.terria@epa.gov](mailto:northern.terria@epa.gov).

Sincerely,

Terria Northern, RM Team 34

FIRST AID	
<b>If in eyes:</b>	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice.
<b>If on skin or clothing:</b>	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15--20 minutes. Call poison control center or doctor for treatment advice.
<b>FOR MEDICAL EMERGENCY INFORMATION CALL A POISON CONTROL CENTER OR 1-80044-836635-38568816.</b>	
<b>Have the product container or label with you when calling a poison control center or doctor, or going for treatment.</b>	

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**Caution:** Can cause eye and skin irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or ~~using tobacco~~ or using the toilet.

### PHYSICAL AND CHEMICALS HAZARDS

Do not use in combinations with soaps, other detergents or chemicals. Do not use on electrical equipment.

**DIRECTIONS FOR USE**

{Note to reviewer: [Text] in brackets denotes optional text.} Notes to reviewer are bracketed {}

Notification to add additional company logos and

revise minor typographical errors.

**It is a violation of Federal Law to use this product in a manner that is inconsistent with labeling. ~~[AND/OR]~~****[Directions for LEXX® RTU Liquid Contact Surface Disinfectant & Cleaner]****Cleaning Non-Food Contact Surfaces**

1. Use this container of LEXX® RTU Liquid Contact Surface Disinfectant & Cleaner.
2. Clean surfaces by applying solution to surface via various means such as low-pressure spray, wiping, brushing or dipping.
3. Rinse surfaces with a potable water.

**Disinfecting Non-Food Contact Surfaces**

1. Thoroughly preclean all hard, non-porous surfaces prior to disinfection
2. Use this bottle of LEXX® RTU Liquid Contact Surface Disinfectant & Cleaner solution to disinfect Non-Food hard non-porous contact surfaces.
3. Disinfect surfaces by applying solution to surface via various means such as low-pressure spray, wiping, brushing, or dipping.
4. Allow disinfectant to completely wet surfaces and stay visibly wet for at least ten minutes.
5. When disinfecting for Coronavirus (SARS-CoV-2) COVID-19 virus<sup>3</sup>, surfaces must remain visibly wet for at least one minute.
6. Drain, wipe, or remove any excess product and allow disinfected surfaces to air dry. **DO NOT RINSE.**

**{The following statement only to be used on labels with medical use sites, medical devices and/or bloodborne pathogens:}**

{[LEXX® RTU Liquid Contact Surface Disinfectant & Cleaner is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the **blood barrier or otherwise enter normally sterile areas of the body**. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.]}

**{To Preclean Instruments Prior to Terminal Sterilization/High Level Disinfection:**

As a precleaning spray - Place instruments into a suitable container. Spray LEXX® RTU Liquid Contact Surface Disinfectant & Cleaner solution onto instruments to thoroughly and visibly wet all surfaces and let stand for up to 10 minutes. Rinse instruments. As a manual instrument cleaner - Thoroughly pre-rinse dirty instruments under running water to remove visible, gross debris. Pour this complete bottle of LEXX® RTU Liquid Contact Surface Disinfectant & Cleaner into a container and immerse pre-rinsed instruments in the solution. Scrub instruments using a stiff bristle brush until visibly clean. Submerge instruments while scrubbing. Rinse instruments thoroughly. Change solution daily. Follow with an appropriate disinfection process. Cleaning of critical and semi-critical devices must be followed by an appropriate terminal sterilization/high-level disinfection process.}]

**{To Disinfect Non-Critical, Precleaned Instruments:**

Instruments must be thoroughly precleaned to remove excess organic debris, rinsed, and rough dried. Clean and rinse lumens of hollow instruments. Spray visible surfaces of lumens with this product. Only clearly visible surfaces of instruments can be pre-cleaned with LEXX® RTU Liquid Contact Surface Disinfectant & Cleaner. Spray all surfaces of instruments with a fresh solution of LEXX® RTU Liquid Contact Surface Disinfectant & Cleaner until thoroughly and visibly wet. Let stand for 10 Minutes. Wipe with a clean, damp cloth or paper towel and allow to air dry.}]

**{Hospitals/Healthcare Facilities:**

LEXX® RTU Liquid Contact Surface Disinfectant & Cleaner cleans, disinfects and deodorizes hard, nonporous {[hospital]} {[and/or- medical]} surfaces. When used as directed, this LEXX® RTU Liquid Contact Surface Disinfectant & Cleaner is effective as a disinfectant and a cleaner on hard, nonporous surfaces, when surfaces remain visibly wet during the contact time. Removes dirt, grime, fungus, mold, food residue, blood and other organic matter commonly found in hospitals {[in - and/or- health care facilities]} {[on medical surfaces]}. All visible soil must be removed prior to disinfection. It {[also]} eliminates odors leaving surfaces smelling clean and fresh. Use where odors are a problem. LEXX® RTU Liquid Contact Surface Disinfectant & Cleaner is a {[broad spectrum]} {[disinfectant]} designed for disinfecting {[of]} hard, nonporous surfaces, when surfaces remain visibly wet during the contact time. LEXX® RTU Liquid Contact Surface Disinfectant & Cleaner also is designed for general cleaning {[and]} {[deodorizing]} {[of]} hard, nonporous surfaces, keeping your home smelling fresh and clean.}]

### Emerging Pathogens Statement

{The following statements shall be made only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels. }

[This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped Viruses
- Large Non-Enveloped Viruses

For an emerging viral pathogen that is a/an ...	..follow the directions for use for the following organisms on the label:
Enveloped virus	Feline calicivirus <sup>2</sup> (Norovirus surrogate)
Large, non-enveloped virus	Feline calicivirus <sup>2</sup> (Norovirus surrogate)

LEXX® RTU Liquid Contact Surface Disinfectant & Cleaner has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, non-porous surfaces. Therefore, LEXX® RTU Liquid Contact Surface Disinfectant & Cleaner can be used against [name of emerging virus] when used in accordance with the directions for use against Feline calicivirus<sup>2</sup>, Strain F-9 (norovirus surrogate) on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

[Name of illness/outbreak] is caused by [-name of emerging virus]. LEXX® RTU Liquid Contact Surface Disinfectant & Cleaner kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with the directions for use against Feline calicivirus<sup>2</sup>, Strain F-9 (norovirus surrogate) on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [website address] for additional information.]

### [Footnotes

<sup>1</sup> Kills tested bacteria killed in 10-minutes on hard non-porous surfaces, when used as directed

<sup>2</sup> Kills Feline calicivirus (Norovirus surrogate) in 10-minutes on hard non-porous surfaces, when used as directed

<sup>3</sup> Kills Coronavirus 2 (SARS-CoV-2) (COVID-19 Virus) in 1-minute (60-seconds) on hard non-porous surfaces, when used as directed]

### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

**PESTICIDE STORAGE:** Do not use or store near heat or open flame. Store in cool, dry (, )(well- ventilated area) ([- or- )(place)]. Keep product container closed and tightly capped when not in use.

{Note to reviewer: [Text] in brackets denotes optional text.} Notes-to-reviewer-are-bracketed[-]

Notification to add additional company logos and

revise minor typographical errors.

**PESTICIDE DISPOSAL:** Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER HANDLING:** [Outside carton] {Carton:-} Offer for recycling, if available, or discard in trash. [1 gal. plastic bottle] {Bottle:-} Nonrefillable container. Do not reuse or refill this container. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Follow Pesticide Disposal instructions for rinse disposal. Repeat this procedure two more times. Offer for recycling, if available, or discard in trash.
