Subject: Label Amendment – To update label language
Product Name: T99-19 (40%)
EPA Registration Number: 91742-3
Received Date: 5/11/2022
Action Case Number: 00362776

Dear Ms. Sumski:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

EPA Reg. No. 91742-3
Action Case Number 00362776

with FIFRA section 6. If you have any questions, please contact Hebert.John@epa.gov or Oiguenblik.Emilia@epa.gov.

Sincerely,

A handwritten signature in black ink that reads "Kathryn V. Montague". The signature is written in a cursive style with a long horizontal line extending from the top of the "g" in "Montague".

T99-19 (40%)

ACCEPTED

06/01/2022

Under the Federal Insecticide, Fungicide
and Rodenticide Act as amended, for the
pesticide registered under
EPA Reg. No. 91742-3

FOR MANUFACTURING USE ONLY

SANITIZED® is the registered trademark/brandname
of Sanitized (USA) Inc. for its BACTERIOSTATIC Chemicals.

*This product is not registered for use as a sanitizer.

[Brand Bacteriostat]

ANTIMICROBIAL LIQUID FOR TEXTILES[▲]

CONTROL OF ODOR/STAIN-CAUSING MICROBIAL GROWTH, BACTERIA, FUNGI, AND ODORS ON MANY
TEXTILE PRODUCTS: A broad spectrum bacteriostatic, fungistatic and deodorizing agent for textiles to control
microbial growth, deterioration and discoloration in the presence of moisture

ACTIVE INGREDIENT

1-Tetradecanaminium, N, N-dimethyl-N-[3-(trimethoxysilyl)-propyl]-, chloride 40.0%

INERT INGREDIENTS 60.0%

TOTAL 100.0%

KEEP OUT OF REACH OF CHILDREN

DANGER - POISON 

See side panel for additional precautionary statements

STATEMENT OF PRACTICAL TREATMENT – FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going to treatment.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

**PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS
DANGER**

Corrosive. Causes irreversible eye damage and skin burns. Fatal if inhaled or absorbed through skin. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Do not breathe vapor or spray mist. Wear protective eyewear such as goggles, or, face shield. Wear coveralls worn over long-sleeved shirt and long pants, socks, chemical resistant footwear and chemical-resistant gloves. Wear a minimum of an NIOSH-approved elastomeric half mask respirator with organic vapor (OV) cartridges and a combination N1, R, or P filter; OR a NIOSH-approved gas mask with OV canisters; OR a NIOSH-approved powered air purifying respirator with OV cartridges and combination HE filters. Wash thoroughly with soap and water after handling, before eating, drinking, chewing gum, using tobacco or using restroom. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE

Store in original containers and place in locked storage area. Keep from freezing. Moisture sensitive. Keep container closed until ready for use and after use.

SPILL OR LEAK PROCEDURES

Small spills may be mopped up on some absorbent material and incinerated.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your State Pesticide or Environmental Control Agency, or the hazardous waste representative at the nearest EPA regional Office for guidance.

CONTAINER DISPOSAL

Nonrefillable container. Do not reuse or refill this container. Offer recycling if available. Triple rinse (or equivalent) promptly after emptying.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

USE, BLENDING AND FORMULATING INSTRUCTIONS FOR THE LISTED MATERIALS

This product is an antimicrobial formulation designed to be incorporated at various stages of their manufacturing process to preserve the integrity of the manufactured material identified on this label. Using the conventional methods of application deposit 0.0005% to 1.0 % active ingredient based on the weight of the material being treated. For example, to deposit 0.1 % active ingredient based on the weight of the fabric, add 0.23 lbs. of product per 100 lbs. of fabric. Predilute the predetermined amount of the product in water and mix thoroughly. Disperse that amount in the treating bath and thoroughly mix the solution. Run the bath for 15 to 30 minutes. Dry the treated material in the usual manner.

USES: Shoes, Draperies, Polyurethane Mattress Foam, Mattress Ticking, Mattress Pads, Sheets/Towels, Shower Curtains, Tenting, Industrial Tarpaulins, Awnings, Carpet/Rugs, Sleeping Bags, Socks, Hosiery, Underwear, Upholstery, Air Filters, Films, Film Coatings for e.g. Textiles, Plastics, and Glass Displays.

TREATED PRODUCTS ARE: Bacteriostatic, Fungistatic, Deodorizer; inhibit the growth of odor causing bacteria; fabric resists perspiration odors; odor resistant; resist the development of bacterial and fungal odors; controls odors washing after washing; chemically treated to control odors; inhibits deterioration and discoloration caused by fungus; resist the growth of mold and mildew; for lasting freshness; durable; will prolong the life of the treated products; wash resistant; lasts through repeated washings, cleanings and shampoos; treatment is not destroyed by repeated washings.

Contact us for specific information regarding use rates within the ranges specified on this label for particular applications.

Do not use for the production of baby diapers or fibers for the production of baby diapers.

▲No finished product incorporating T99-19 may make any public health claims relating to antimicrobial activity without first obtaining an EPA registration for the finished product which permits such claims, and without a tolerance or exemption from the requirement of a tolerance. When incorporating into treated articles, this product does not protect users of any such treated article or others against food borne or disease causing bacteria, viruses, germs or other disease causing organisms.
