Subject: Notification per PRN 98-10 – additional language for directions on the refill labels
Product Name: Bona STL Disinfecting Cleaner
Administration Number- 91861-2
Application Date: December 21, 2020
Action Code Case: 00216863

Dear Lisa King:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Assurance.

If you have any questions, you may contact Zebora Johnson at (703) 308-7080 or via email at johnson.zebor@epa.gov.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE AND DISPOSAL – Residential – Trigger Bottle

Storage:

Store in original container, in a cool and well-ventilated area, inaccessible to children. Keep securely closed.

Pesticide Disposal:

To avoid waste, use all material in this container according to label directions.

Container Handling:

Refillable container. Refill trigger bottle only with this product. Do not reuse this container for any other purpose. If not refilling, discard empty bottle in trash or offer for recycling, if available. If partly filled: call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

STORAGE AND DISPOSAL – Residential – Pourable bottle

Storage:

Store in original container, in a cool and well-ventilated area, inaccessible to children. Keep securely closed.

Pesticide Disposal:

To avoid waste, use all material in this container according to label directions.

NOTE: Bracketed information is denoted as: <<directive>>, {insert as noted}, (optional text), [required qualifier]. The term “this product” used throughout this document may be replaced with the marketed product name.

First Aid:

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

GENERAL INFORMATION: Have the product container or label with you when calling a poison control center or doctor or going for treatment. For non-emergency and general information on product use, etc., information pertaining to this product, call the National Pesticides Information Center at 1-800-858-7378 (NPIC web site: www.npic.orst.edu). For emergencies, call the poison control center 1-800-222-1222.

(ADVISORY STATEMENTS)

Bona Floor Cleaner is for use on unwaxed, polyurethane finished wood, ceramic tile with sealed grout lines, sealed granite, or laminate flooring. Use of this product on unsealed surfaces may cause staining.

Regular cleaning with the Bona family of Floor Cleaners is safe for all urethane finished hardwood and sealed hard-surface floors when used as directed.

This product is not recommended for use on unfinished, oiled, or waxed wood floors, non-sealed tiles, carpet floor, or marble.

It is not recommended to follow the disinfect directions for an entire wood or laminate floor due to excess moisture being introduced, which could cause damage. Treating spots, spill or small areas will minimize the risk of water damage. Regular cleaning with the Bona family of Hardwood Floor Cleaners is safe for all (sealed wood) (finished wood) and laminate floors.

For Spanish instructions visit our website at Bona.com.

Emerging Viral Pathogen Claims

“This product qualifies for emerging viral pathogen claims per the EPA’s ‘Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels’ when used in accordance with the appropriate use directions indicated below.”

-Enveloped Viruses

-Large Non-Enveloped Viruses

<i>For an emerging viral pathogen that is a/an...</i>	<i>...follow the directions for use for the following organisms on the label:</i>
Enveloped virus	Rhinovirus
Large, non-enveloped virus	Rhinovirus

[Bona STL Disinfecting Cleaner] has demonstrated effectiveness against viruses similar to **[name of emerging virus]** on hard, non-porous surfaces. Therefore, **[Bona STL Disinfecting Cleaner]** can be used against **[name of emerging virus]** when used in accordance with the directions for use against Rhinovirus on hard, non-porous surfaces. Refer to the **[CDC or OIE]** website at **[pathogen-specific website address]** for additional information.

[Name of illness/outbreak] is caused by **[name of emerging virus]**. **[Bona STL Disinfecting Cleaner]** kills similar viruses and therefore can be used against **[name of emerging virus]** when used in accordance with the directions for use against Rhinovirus on hard, non-porous surfaces.

Refer to the **[CDC or OIE]** website at **[website address]** for additional information.
