Managing Director
Evergreen Animal Health, LLC
22655 Centennial Road
Gretna, Nebraska 68028

Subject: Extension of Time-Limited Conditional Registration and Label Amendment to revise label language
Product Name: Evergreen II Spot On for Dogs
EPA Registration Number: 92334-1
Application Date: November 9, 2018
Decision Number: 546982

Dear Mr. Scharf:

The application referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable under FIFRA Section 3(c)(7)(A), subject to the following conditions:

1. You must submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.
2. This registration is time-limited and expires on February 2, 2021.
3. You must submit quarterly enhanced incident reports and quarterly sales information in doses sold for this product beginning within 3 months of the date the product is first released for shipment, on the first day of the quarter (i.e., January 1, April 1, July 1, or October 1). Please flag any Confidential Business Information as such. Submit enhanced incident reporting and quarterly sales information to the Product Manager's attention. The following is a list of information that must be included in the quarterly reports for each incident:
 - EPA Registration Number
 - Product name (brand name)
 - Lot #
 - Where purchased: internet, store, veterinarian
 - Active Ingredient(s)
 - Weight range for product
 - Date on which incident occurred. (mm/dd/yyyy)

- State in which the incident occurred. (standard 2 letter abbreviation)
 - Registrant case #
 - Species: dog, cat, other (specify)
 - Breed: (as reported by pet owner)
 - Age: months or years
 - Sex: M, F, or neutered
 - Weight: pounds
 - Primary Route of Exposure: dermal, oral, other animal, inhalation, other
 - Body System: neurological, dermatological, GI, respiratory, ocular, other
 - Major signs noted with separate column for each sign, using standard terminology
 - Time to Onset: (hours, days)
 - Treated by veterinarian: yes or no
 - First time product used: yes or no
 - Misuse: use on incorrect species, overdose, too frequent dosing, other (describe)
 - Any known precondition
 - EPA Severity Code: death, major, moderate, minor
 - Outcome: died, recovered, still treated, unknown
4. Along with the enhanced incident reporting, you must submit an analysis of the incidents seen, to include the following details:
- All incidents should be reported including all minor dermal and ocular irritation reports.
 - Summary table for dogs showing number of incidents of each severity code for each route of exposure. Each incident should only be reported once. If one incident has several routes of exposure, the order should be ocular > oral > dermal. In other words, an incident with both oral and dermal exposure would be reported as oral exposure, and an incident with both ocular and oral exposure would be reported as ocular exposure.
 - A similar summary table for cats (misuse or secondary exposure) showing number of incidents of each severity code for each route of exposure.
 - Summary table for cats and table for dogs showing number of incidents that are believed due to secondary exposure (e.g., multi-pet households).
 - A summary table for dogs showing number of incidents for each severity code for these age ranges: <3 months, 3-6 months, 6-9 months, 9-12 months, 1 yr, 2 yr, 3 yr, 4 yr, 5 yr, 6 yr, 7 yr, 8 yr, 9 yr, 10 yr, 11 yr, 12 yr, 13 yr, 14 yr, 15 yr, >15 yr.
 - A summary table showing the number of dogs incidents for each severity code for each pet weight range on the product label, as applicable.
 - A summary table for dog weight showing number of incidents for each product weight range. This table should show number of incidents in dogs weighing less than that product weight range, number of incidents in dogs in lower half of weight range, number of incidents in dogs in upper half of weight range, and dogs weighing more than the product weight range, as applicable.
 - Table showing number of incidents for each dog breed, where provided.

- Table showing number of incidents in dogs for each clinical sign.
- Table showing number of incidents in dogs for each organ system.
- Report aggregate incidents, but do not combine moderate and minor incidents.

If EPA determines that future mitigation measures are necessary for all pet spot-ons, the Agency will inform registrants. If mitigation measures are necessary, EPA may take regulatory action.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one (1) copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). If you have any questions, please contact Vanessa Emerson by phone at 703-347-0360, or via email at emerson.vanessa@epa.gov.

Sincerely,

Elizabeth Fertich

{Back Panel of the Carton}**PRECAUTIONARY STATEMENTS****HAZARDS TO HUMANS**

WARNING: Causes substantial but temporary eye injury. Do not get in eyes or on skin or clothing. Harmful if swallowed. Harmful if absorbed through skin. Avoid contact with skin. Wash thoroughly with soap and water after handling and before eating, drinking, and chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

HAZARDS TO DOMESTIC ANIMALS

For external use on dogs only. Do not use on animals other than dogs. Do not use on dogs or puppies under seven weeks of age or weighing less than [4 lbs] [11 lbs] [21 lbs] [55 lbs]. Do not get this product in dog's eyes or mouth. As with any product, consult your veterinarian before using this product on debilitated, aged, pregnant or nursing dogs. Individual sensitivities may occur after using **ANY** pesticide product for dogs. If signs persist, or become more severe, consult a veterinarian immediately. If your dog is on medication, consult your veterinarian before using this or any other product. This product is not a substitute for prescribed Heartworm preventative.

{The age of the dog and the lowest weight of the dog for the product inside the carton will be stated together in all places on the label.}

ENVIRONMENTAL HAZARDS

This product is extremely toxic to aquatic organisms, including fish and invertebrates. Do not add directly to water. Do not contaminate water when disposing of product packaging.

FIRST AID	
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for further treatment advice.
If swallowed	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For more information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-XXX-XXXX.	
NOTE TO PHYSICIAN OR VETERINARIAN	
Treat patient symptomatically	

Side Effects: Monitor your dog after application. Side effects may include signs of skin irritation such as redness, scratching, or other signs of discomfort. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects occur, consult your veterinarian or call 1-800-xxx-xxxx.

{Note to reviewer: A box labeled “Side Effects” will be placed immediately above the cat warning text box on the back panel of the carton.}

{Note to reviewer: A [1.5 cm x 1.5 cm] cat prohibition icon and warning text box will be located at the lower right hand corner of the back panel of the carton in yellow with black images and text.}

PRODUCT INFORMATION

Evergreen II Spot On for Dogs kills fleas that may be a source of flea allergy dermatitis (FAD), a hypersensitivity skin disorder which may be induced by the feeding activity of fleas. Evergreen II Spot On for Dogs kills existing fleas on dogs within 12 hours. Any other fleas that jump on the dog are killed within 2 hours. Protection against flea infestation lasts [four (4) weeks] [one (1) month]. Pre-existing pupae may continue to emerge for six (6) weeks or longer depending upon the climate.

{The time frame selected (i.e., weeks or month) will be used throughout the label and not alternate in order to maintain consistency.}

All life stages of fleas present on the dog are killed following contact with an Evergreen II Spot On for Dogs treatment. Evergreen II Spot On for Dogs is waterproof and will remain effective even after a shampoo treatment, after swimming or after exposure to rain or sunlight. Use monthly treatments for flea and tick control.

Monthly Topical Treatment of Fleas, Ticks, Mosquitoes, Biting Flies and Lice for Dogs

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. **DO NOT ALLOW CHILDREN TO APPLY PRODUCT.**

READ ENTIRE LABEL BEFORE EACH USE. USE ONLY ON DOGS.

RESTRICTIONS

Do not use on cats.

Do not allow your dog to ingest this product.

Do not get this product in your dog's eyes.

Do not bathe dog for 24 hours after application.

Do not allow adults, children, or pets to touch the treated dog until liquid has dried.

Do not use on dogs under seven weeks of age or weighing less than [4 lbs] [11 lbs] [21 lbs] [55 lbs].

Do not apply more than 1 tube per treatment for one dog regardless of the dog's weight [, including dogs over 55 lbs.]. {the bracketed text will appear only on the package for dogs over 55 lbs.}

{Note to reviewer: either a plastic tube or aluminum tube will be chosen to use for the final product package}

{How to apply directions for plastic tube container:}**How to Apply**

Dog must be dry at time of application and remain dry for 24 hours. The dog should be standing for the application. Remove tube from the package. Hold tube in a vertical upright position. Cut off top of tube with scissors. Part the hair at each spot until the skin is visible. Invert tube and place the open end of the tube on the skin of the dog. Squeeze tube to expel the entire content of liquid and apply the product evenly along the dog's back in 3 to 4 spots from the base of the skull to the base of the tail. Take care that liquid does not run off the dog. Avoid contact with treated area until dry.

{This icon will only be used for the spot application.}

{How to apply direction for aluminum/plastic tube container:}**How to Apply**

Dog must be dry at time of application and remain dry for 24 hours. The dog should be standing for the application. Remove tube from the package. Hold tube in a vertical upright position. Screw [Pull] cap off of tube. While maintaining the tube in upright position, turn cap and puncture end of tube. Invert tube and apply the entire content of liquid to the skin of the dog evenly along the dog's back as a line from the base of the skull to the base of the tail. Take care that liquid does not run off the dog. Avoid contact with treated area until dry.

{Note to reviewer: A dog icon that shows the application may be added to this section "how to Apply"}

[
{This icon will only be used for the line application.}

Discard empty tube as described in Storage and Disposal. In case of severe pest infestations, you are able to retreat your dog earlier than [four (4) weeks] [one (1) month]. If infestation is severe at the initiation of treatment, once a week treatment is permitted not to exceed more than 4 consecutive weeks. Such a retreatment regimen should occur only at the **initiation** of treatment with the product if infestation is severe. After pest control has been successful, please return to a monthly retreatment schedule.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a cool, dry place inaccessible to children and pets. Protect from freezing.

Pesticide Disposal and Container Handling: Nonrefillable container.

If empty: Do not reuse this container.

Place in trash or offer for recycling, if available.

If partly filled: Call your local solid waste agency or 1-800-XXX-XXXX for disposal instructions. Never place unused product down any indoor or outdoor drain.

{Optional/Alternate Claims, which may appear on carton}

- 1) For the prevention and treatment of Ticks, Fleas, Mosquitoes, Biting Flies and Lice on Dogs
- 2) Topical prevention and treatment of ticks, fleas and mosquitoes for dogs and puppies 7 weeks of age and older weighing [4-10 lbs] [11-20 lbs] [21-55 lbs] [over 55 lbs]
- 3) Preventative [treatment][control] of [ticks],[fleas], [mosquitoes][biting flies],and[lice] for monthly use on dogs and puppies 7 weeks of age and older weighing [4-10 lbs] [11-20 lbs] [21-55 lbs] [over 55 lbs]
- 4) Repels and kills [Kills and repels] ticks including Deer ticks [vector of Lyme disease], Brown dog ticks [vector of Ehrlichiosis], American dog ticks [vector of Rocky Mountain spotted fever], and Lone Star ticks [vector of Ehrlichiosis] for up to [four (4) weeks] [one month]
- 5) Evergreen II Spot On for Dogs contains imidacloprid, permethrin, and [an/the] [insect growth regulator] [IGR] pyriproxyfen
- 6) Evergreen II Spot On for Dogs contains [an] [the] [insect growth regulator] [IGR] [pyriproxyfen]
- 7) [One] [A] [single] [topical] application remains effective [for] [a month][four [4] weeks]
- 8) [One] [A] [single] [topical] application is effective [for] [a month][four [4] weeks]
- 9) Convenient [and easy] to [use] [apply] [Spot on [solution]] [topical [solution]]
- 10) Easy to [use] [apply] [Spot on [solution]] [topical [solution]]
- 11) [One] [A] [single] [topical] [application] prevents fleas [and flea [re-]infestations] [for] [a month][four [4] weeks]

EPA Reg. No. 92334-1

- 12) [One] [A] [single] [topical] [application] prevents [fleas and] flea [re-]infestations [for] [a month][four [4] weeks]
- 13) [One] [A] [single] [topical] [application] prevents ticks [and tick [re-]infestations] [for] [a month][four [4] weeks]
- 14) [One] [A] [single] [topical] [application] prevents [ticks and] tick [re-]infestations [for] [a month][four [4] weeks]
- 15) Dead fleas don't bite
- 16) [Kills] [and] [repels] fleas before they lay eggs
- 17) Dead fleas don't lay eggs
- 18) Prevents flea egg hatching
- 19) [Flea adulticide] [Flea larvicide] [and] [Flea ovicide]
- 20) Flea adulticide, larvicide and ovicide
- 21) [Repels] [Inhibits] [annoying] [bothersome] nuisance biting flies [and] [fleas] [and] [ticks]
- 22) [Still] [Remains] effective after swimming [and] [shampooing]
- 23) [Kills] [and] [prevents] [biting] [chewing] lice
- 24) Prevents further infestations of [biting] [chewing] lice
- 25) Fragrance free
- 26) [Contains] no Fragrance
- 27) Monthly topical treatment kills and repels fleas, ticks and mosquitoes
- 28) Kills and repels all life stages of fleas
- 29) Repels and kills all stages of fleas
- 30) Kills and Repels Fleas, Ticks & Mosquitoes [for one month] [for [four] [4] weeks]
- 31) Repels and Kills Ticks, Fleas & Mosquitoes [for one month] [for [four] [4] weeks]
- 32) Kills fleas on dogs within 12 hours and continues to prevent infestations for [a month] [for [four] [4] weeks]
- 33) Controls flea infestation for [one month] [for [four] [4] weeks]
- 34) Prevents development of fleas, flea eggs, larvae and pupae for [one month] [for [four] [4] weeks]
- 35) Prevents development of fleas for [one month] [[four] [4] weeks]
- 36) Breaks flea life cycle for [one month] [[four] [4] weeks]
- 37) Repels and kills mosquitoes for [four (4) weeks] [one month]
- 38) Repels biting flies and prevents blood-feeding by biting flies
- 39) Water-proof
- 40) 5-way protection: Fleas, Ticks, Mosquitoes, Biting flies and Lice [insect icons may be used]
- 41) Kills chewing lice
- 42) Kills chewing lice & repels biting flies
- 43) Breaks the flea life cycle [graphic icon]
