

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Biopesticides and Pollution Prevention Division (7511P)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

EPA Reg. Number:

92504-1

Date of Issuance:

12/23/2016

NOTICE OF PESTICIDE:

Registration
 Reregistration
 (under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Quick Clone Gel

Name and Address of Registrant (include ZIP Code):

Element Nutrients
 P.O. Box 2331
 Lynnwood, WA 98036

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product, always refer to the above EPA Registration Number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA or the Act).

Registration is in no way to be construed as an endorsement or recommendation of this product by the U.S. Environmental Protection Agency (EPA). In order to protect health and the environment, the Administrator, on his or her motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under the Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration or registration review of your product when the EPA requires all registrants of similar products to submit such data.

Signature of Approving Official:

Andrew Bryceland, Team Leader
 Biochemical Pesticides Branch
 Biopesticides and Pollution Prevention Division (7511P)
 Office of Pesticide Programs

Date:

12/23/2016

2. Submit storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) data as these data requirements are not satisfied. A one-year study is required to satisfy these data requirements. You have 18 months from the date of this registration to provide these data to the EPA.
3. Make the following labeling change before you release this product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No. 92504-1."
4. Submit one (1) copy of the final printed labeling for the record before you release this product for shipment.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6. A stamped copy of the labeling is enclosed for your records. Please also note that the record for this product currently contains the following acceptable Confidential Statement of Formula (CSF):

- Basic CSF dated 12/22/2016

Any CSFs other than that listed above are superseded.

If you have any questions, please contact Cheryl Greene of my team by phone at (703) 308-0352 or via email at greene.cheryl@epa.gov.

Sincerely,

Andrew Bryceland, Team Leader

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency medical assistance, call the National Poison Control Center at 1-800-222-1222, 24 hours a day, 7 days a week.	

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when disposing of equipment wash waters or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Quick Clone Gel is a thick gel used to propagate new plants from stem and leaf cuttings. Quick Clone Gel is formulated with an essential hormone that promotes rapid root generation and growth. Quick Clone Gel may be used on any type of cutting, including woody, herbaceous, and flowering ornamental species, vegetables, fruit trees, and small fruits.

TAKING CUTTINGS:

Take cuttings only from new growth on healthy plants. Make cuts at a 45-degree angle. Immediately dip into Quick Clone, or immerse in water until ready to be dipped. The cuttings can also be re-cut prior to dipping. Spray cuttings frequently, and use a humidity dome to prevent excessive wilting during the rooting phase.

APPLICATION INSTRUCTIONS:

First empty a small amount of Quick Clone into a separate container. **DO NOT DIP PLANTS DIRECTLY INTO THE BOTTLE.**

Dip the cut end of the stem into Quick Clone Gel to desired depth. After Quick Clone Gel has been applied, place cuttings into the rooting medium. Depending on the species, rooting will take place in days, weeks, or months under optimal environments. Transplanting may be performed once the cuttings have rooted.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal

Pesticide Storage: Store only in original container, in a cool dry place out of the reach of children and out of direct sunlight.

Pesticide Disposal:

- **If empty:** Do not reuse this container. Place in trash or offer for recycling if available.
- **If partially filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
- **Product remaining in dipping container:** Triple rinse container (or equivalent) promptly after using. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water and cover. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

Container Disposal: Non-refillable container. Do not reuse or refill this container. If empty: Offer for recycling if available or put in trash or in a sanitary landfill. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY

The manufacturer warrants that this product conforms to the chemical description on the label and that this product is reasonably fit for the purposes set forth in the directions for use subject to the inherent risks referred to herein when used in accordance with such directions and that the directions, warnings, and other statements are based upon tests believed to be reliable. Tests have not been made on all varieties of food crops or in all states or under all conditions. To the extent consistent with the applicable law, there are no express warranties other than those set forth herein and the manufacturer expressly excludes and disclaims all implied warranties of merchantability of fitness for a particular purpose, or any warranty of quality or performance.
