Ashwini Kulkarni  
Regulatory Specialist  
SBM Life Science Corp.  
1001 Winstead Drive Suite 500  
Cary, NC 27513

Subject: Notification per PRN 98-10 – Addition of trademarks, fertilizer license number, company internet address, graphics, and correction of typographical errors  
Product Name: 15ESP737 Herbicide Granule  
EPA Registration Number: 92564-3  
Application Date: February 15, 2018  
Decision Number: 543935

Dear Ms. Kulkarni:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you have any questions, you may contact Julia Kerr at 703.347.0386 or via email at [kerr.julia@epa.gov](mailto:kerr.julia@epa.gov).

Sincerely,

A handwritten signature in black ink, reading "Kathryn V. Montague", is positioned above the typed name.

Kathryn Montague, Product Manager 23  
Herbicide Branch  
Registration Division (7505P)  
Office of Pesticide Programs

## NOTIFICATION

92564-3

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

**[Back Panel]**

15ESP737 Herbicide Granule is the [new] weed [and] [&] feed that kills both listed broadleaf lawn weeds plus Crabgrass, while feeding and optimizing your turf's [nutrition] at every level [-- Grass, Roots & Soil]. [Plus] Our [proprietary] [Micro-Feed] [Nutri-Feed] [Action] [formula] [every level] releases [natural] enzymes that unlock the essential micro-nutrients [that] [live] [exist] in your soil to make them more available to your turf roots. So your lawn will be better [nourished] during and between [fertilizer][weed & feed] applications. [It's never been easier to give your lawn [what it needs most] [to achieve its true, beautiful potential [-- and it's all in this one Blue Bag]. [At SBM Life Science Corp, we put the science in your hands to more easily maintain a lawn that grows stronger and more beautiful over time.]

**READ THE LABEL FIRST!**

<b>[QUICK FACTS]</b>	
Read entire directions for use before applying.	
Editorial Note – Marketing Claims Positioned Here [see Appendix]	
<b>[KILLS]</b> <b>[PLUS FEEDS]</b>	Kills [listed] broadleaf weeds including [any applicable weed from weed list] Kills [listed] grassy weeds including [any applicable weed from weed list] Feeds lawn at every level – grass, roots and soil
<b>[WHEN TO-] [APPLY][USE]</b>	[Apply] [Spring] [Summer] [or] [Fall] [when] [listed] [weeds] [are actively growing] [See Directions for Use for further details.]
<b>[WHERE TO USE]</b>	Use only on established lawns of the following turf types: Bermudagrass**, Buffalograss, Kentucky Bluegrass, Ryegrass, Fescue, Seashore Paspalum and Zoysia.  Do not use on Bahiagrass, Carpetgrass, Centipedegrass, St. Augustinegrass (including Floratam) or Dichondra.  **Application to Bermudagrass may cause temporary yellowing or discoloration but full recovery can be expected.

## **PRECAUTIONARY STATEMENTS**

### **HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

#### **CAUTION**

- Harmful if swallowed or absorbed through skin.
- Avoid contact with skin, eyes, or clothing.
- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Wear long-sleeve shirt and long pants, socks, shoes, and gloves. Remove and wash contaminated clothing before reuse.

### **ENVIRONMENTAL HAZARDS**

This pesticide is toxic to fish and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash waters or rinsate.

These chemicals (2,4-D and dicamba) have properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### BEFORE YOU USE

- Use this product only on established lawns listed on this label – new lawns may be treated after the fourth mowing. Do not make sequential applications sooner than 30 days.
- Apply only to actively growing turf.
- Apply in spring after the lawn is actively growing and has been mowed 2 times. [Do not apply while turfgrass is just turning green in early spring.]
- Apply in fall no closer than [2 weeks] [4 weeks] [6 weeks] [2-6 weeks] before the first historical frost date for your area.
- Do not apply this product if the lawn appears unhealthy e.g., due to lack of water.
- Do not allow granules to come into contact with flowers, ornamental shrubs or trees, or other desirable broadleaf plants, as serious plant injury may occur.
- Apply when the air is calm to avoid drift onto desirable plants.
- After application, treated weeds may turn a slight purple color which is an indication that the herbicide is working

### HOW TO USE

- Use rotary or drop type spreader to apply granules evenly over the lawn. To be sure you cover lawn areas uniformly, first treat the border of the lawn then fill in the center. Make parallel passes, walking at a steady pace to ensure even distribution of the granules.
- If using a broadcast or rotary spreader, make sure each strip overlaps the previous strip to ensure complete coverage. (See Fig. A)
- If using a drop spreader, make sure the wheels overlap the wheel marks in the grass from the previous strip to ensure complete coverage. (See Fig B.)
- Sweep, brush, or blow any accidentally applied material off driveways, sidewalks etc. back on to the lawn.
- Do not make more than two applications per site in any 12-month period.
- Do not apply more than 2.4 lbs of this product per 1,000 sq ft per application.

### FOR BEST RESULTS

#### WHEN TO APPLY

- Apply when
  - Listed weeds are small and actively growing
  - when Crabgrass is emerging and is visible in thin turf areas
  - temperatures are between 50–90°F, and not above 85°F on Bermudagrass .
- For best results apply to dew-wetted lawn.
- Lawns may be seeded 4 weeks after applying this product.

#### [MOWING]

- If the lawn needs mowing, do it 1 to 2 days before (for best results) or 2 days after applying this product.
- Clippings from the first three mowings should be left on the treated area. Do not use the clippings from the treated areas as mulch or compost around flowers, ornamentals, trees, or in vegetable gardens.

#### [WATERING]

- If lawn is dry, water 1 to 2 days before using this product.
- Do not water for at least 24 hours after application or apply if rain is expected within 24 hours.

### HOW IT WORKS

This product contains three proven weed killers to control lawn listed weeds & crabgrass, roots and all. And it won't harm your lawn when used as directed. Listed weeds begin to die in hours and are completely dead within 14-28 days. Plus, the

	[proprietary] [Micro-Feed] [Nutri-Feed] [Action], combined with fertilizer, feeds your lawn at [every level] – grass, roots and soil – for quick greening and long-lasting feeding.
	Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application. Do not allow people or pets to enter the treated area until dusts have settled.

<b>WEEDS Kills Over 200 Listed Weeds including:</b>

## [Pesticide Marketing Claims]

### Appendix-

#### Optional Weed Control Advertising Claims

- One step kills both [listed] broadleaf weeds plus Crabgrass
- One treatment kills both kinds [listed] of weeds
- One step kills both [Dandelions] [Chickweed] [Clover] [Plus Crabgrass]
- One step kills [Dandelions] [Crabgrass] [Chickweed][Clover] [and 200+ other listed weeds]
- Kills tough [listed] weeds[\*] like[insert any weed from table of listed weeds[\*]] [and 200+ other listed weeds]
- You'll see weeds die in (range) days/hours
- One step kills[listed]broadleaf weeds plus grassy weeds, including Crabgrass
- Listed weeds
- Kills [listed] grassy weeds including Crabgrass,
- Treated Crabgrass starts to purple in 3 days – that's the sign that it's working.
- One easy application does it all - kills over 200 [Listed] broadleaf weeds [As Listed], tough to kill weeds including dandelion, chickweed, thistle, crabgrass, henbit, even clover.
- Kills [existing] [listed] weeds, [including Crabgrass][and feeds your lawn] in one step
- Especially effective on hard-to-kill listed weeds like [insert any listed weed from table here]
- Consistently fast on tough weeds like [insert any listed weed from table here]
- Forgot to apply Crabgrass preventer? It's not too late [with All-in-One Weed & Feed]
- [All-in-One Weed & Feed] Kills Crabgrass that your crabgrass preventer missed
- Treat tough-to-control weeds in the Fall to kill to the root
- Apply in Fall, for fewer weeds next Spring
- Treat weeds in Fall, for better control of weeds next Spring
- Kills [Tough][Broadleaf] [listed] [Lawn] Weeds Including Dandelion, Clover & Chickweed
- Feeds [&] Greens [&] [Strengthens] [Your Lawn]
- Kills Crabgrass Plus Other [listed]Grassy Weeds

#### Fertilizer -Claims

- Feeds greens and thickens for X months
- [Plus] improves turf nutrition during and between feedings
- Feeds lawn, helping turf to fill in where weeds once were
- Feeds/thickens/provides nutrients to grass to crowd out new/future weeds.
- Feeds/thickens/provides nutrients to grass to fill in bare spots.
- Apply in Fall [to kill weeds][and][ help][helps] your lawn [survive][prepare] for the [winter] [stress][cold], [and wear and tear!]
- Apply in Spring [to kill weeds][and][ help][helps] your lawn [survive][prepare] for the [summer] [stress] [and wear and tear!]
- [Product Name] includes/contains slow release nitrogen that releases gradually over time to help reduce nitrogen loss [into our waterways] [to protect [our/the] ecosystem/environment/water quality]
- Green up after summer in [as quick as] X days/hours
- Green up after winter in [as quick as] X days
- [Deep] Greens/feeds in [X] hours/days, lasts for weeks/months
- Deep] Greens/feeds in [X] days /hours
- [Deep] Greens/feeds [in] as fast as X days/hours
- Feeds/greens lawns/grass for [up to] X days/weeks/months [without burning your lawn]
- Deep greening/feeding for X months/ weeks/days
- Feeds at every level– Grass, Roots, [and][&] Soil
- You'll see visible greening in (range) X days
- Grass will look thicker in (range)- days

Triple Action [Feeding] [Fertilizer] [Improves] [Supports] [Optimal] Turf Nutrition at Every Level up to 3 Months

- Grass – Greens, Thickens Lawn
- Roots – Builds Strong Roots
- Soil – [Enriches & Fortifies Soil] [Micro-Feed action] [Nutri-Feed action] [unlocks soil micro-nutrients below to better nourish turf above]

[Triple] [3-in-1] Action [Feeding] [Fertilizer]

1. FEEDS up to X Months
  2. SHIELDS roots from heat, drought & traffic stress
  3. IMPROVES turf nutrition during & between feedings
- Supports optimal turf nutrition – Spring or Fall
  - [Use] [Apply] [anytime] [Spring or Fall]
  - [Provides] quick greening [in just X days]
  - Feeds [greens] [&] [thickens] up to X months
  - Feeds up to X months
  - [PLUS] improves turf nutrition during & between feedings
  - [Proprietary] [formula] unlocks [essential nutrients that [live] [exist] in the soil below] [to better nourish the turf above]
  - [PLUS] releases soil-acting enzymes to improve nutrient availability during & between feedings
  - [PLUS] releases soil-acting enzymes that help make the nutrients that [already] [live] [exist] in your soil more available to your turf [during & between feedings] [Contains] [Proprietary] [MICRO-FEED] [NUTRI-FEED] [Action]
  - [Natural] [biologic] [produces enzymes that] colonize[s] turf roots to improve turf access to nutrition, thus increasing strength and resilience
  - [Proprietary] [MICRO-FEED] [NUTRI-FEED] [Action] creates a more nutritious, resilient root zone environment
  - [Proprietary] [MICRO-FEED] [NUTRI-FEED] [Action] -produces natural enzymes that work with turf roots to improve turf nutrition, strength and resilience
  - [Proprietary] [MICRO-FEED] [NUTRI-FEED] [Action] -releases soil-acting enzymes to improve nutrient availability during and between feedings
  - Does more than meet your turf's basic nutritional needs
  - Offers a more [sustainable][responsible] way to [nourish][fertilize][feed] your lawn

- [Proprietary] [biological] [biologic] formula works with the fertilizer to [support more efficient feeding] [improve turf nutrition] during [and] [&] between applications
- [Micro-Feed][Nutri-Feed] [Action] [uses][introduces][utilizes] natural enzymes to unlock essential nutrients that live in your soil, so your turf will be better nourished during and between [feedings] [fertilizer] [applications].
- [XX%][Bonus] [Size][Bag]
- XX% Bonus [vs. xx lb. size]
- XX% More [vs. xx lb. size]
- Guaranteed not to burn
- Contains 50% slow-release fertilizer
- Does not contain phosphorous
- Phosphorous-free
- Slow-release fertilizer is a [responsible] way to feed your lawn because it releases gradually over time to help reduce nitrogen loss
- 100% Satisfaction Guarantee\*
- [\*Money Back Guarantee: If you are not satisfied with this product, we will gladly refund your original purchase price.]
- Get More from the Blue Bag
- Let Us Customize A [Simple] [Effective][Lawn] Care Plan For You  
Regular fertilizing [and listed weed control] is essential to building a thick, green lawn [that lasts]. We're here to make sure you're feeding your lawn [and controlling listed weeds] when it's most beneficial.
