Cary, NC 27513

Subject: Notification per PRN 98-10 – addition of similar methods/types of sprayers
Product Name: Beta-Cyfluthrin 0.05% Ant & Roach Killer Pump Spray
EPA Registration Number: 92564-10
Application Date: 3/27/2018
Decision Number: 539949

Dear Dr. Pangilinan:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10. The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, you may contact Autumn Metzger at 703-305-5314 or via email at Metzger.autumn@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "M. Ondish", followed by the word "for" written in a smaller, simpler script.

Mindy Ondish, Acting Product Manager 03
Invertebrate & Vertebrate Branch 1
Registration Division (7505P)
Office of Pesticide Programs

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION:

- Harmful if swallowed or inhaled.
- Causes eye irritation.
- Avoid contact with skin, eyes, or clothing.
- Wash thoroughly with soap and water after handling.
- Avoid breathing vapors or spray mist.
- Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS

- This pesticide is highly toxic to aquatic invertebrates and fish. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.
- This product is not intended for application to plants or lawns.
- Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For best results, read and follow all label directions.

BEFORE YOU USE

Read and follow directions when using.

- Do not spray into fish pools, ponds, streams, or lakes.
- Indoors, do not use as a space spray (do not spray into the air).
- Remove animal feeding dishes before spraying.
- Keep children and pets away from treated areas until spray has dried.
- Do not use on surfaces where food is prepared or where food is exposed.
- Before spraying indoors, remove birds from area and tightly cover or remove fish bowls and aquariums.

RESTRICTIONS

- Do not water the treated area to the point of run-off.
- Do not make applications during rain.
- All outdoor applications must be limited to spot or crack-and-crevice treatment only, except for the following permitted uses:
 - (1) Treatment to soil or vegetation around structures;
 - (2) Applications to building foundations, up to a maximum height of 3 feet.
- Other than applications to building foundations, all outdoor applications to impervious surfaces (sidewalks, driveways, patios, porches, structural surfaces, windows, doors, eaves) are limited to spot and crack and crevice applications only.
- Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

HOW TO USE

Shake Well Before Use

INDOOR USE

- Hold container upright while spraying. Direct nozzle about 12 inches from surface to be treated.
- Spray around baseboards, into cracks and crevices and other places where insects live and hide (under sinks, cabinets, refrigerators, damp areas, etc.) until surfaces are wet. Avoid excessive wetting of linoleum, asphalt tiles or plastic.
- For long lasting residual action leave spray undisturbed. The product will keep on killing for up to 12 months (1 year) indoors for German cockroaches, black carpenter ants and house crickets on non-porous surfaces.
- For hidden areas try BioAdvanced™ Science-Based Solutions Roach Pen.

OUTDOOR USE

- Apply to exterior surfaces of the home.
- Spray a band 3 to 4 feet wide around and alongside the foundation and porches of the house.
- Treat soil, turf or walkways adjacent to foundation and porches. Also treat 1 to 2 feet up along the side of the dwelling.
- For more serious problems, a wider band of treatment, up to 10 feet, may be necessary.
- Spray with the wind to avoid drifting of the spray onto skin or clothing.
- Treat where dissimilar building materials meet: where brick meets wood trim, where siding meets window edges, where cracks are visible or around and into any openings where utilities enter the home. Spray around doors and window frames.

HOW TO USE
Shake Well Before Use

- Treat outside surfaces of garages, carports, patios, driveways and sidewalks if listed [*] insects are present.
- Treat other problem areas around wood piles, and storage sheds. Spray on ant trails and ant hills.
- For wasps, hornets, yellow jackets: Application to nests should be made late in evening when listed [*] insects are at rest.
- To aid in control of **fire ants** in lawns and other outdoor home recreation areas, thoroughly drench the entire mound area. Spray provides contact activity and residual in the active mound. Use a coarse spray and apply gently to avoid disturbing fire ants.

Note: For best results apply in cool weather 65 to 80° F, or in early morning or late evening hours. Treat new mounds as they appear.

WOOD INFESTING PESTS

- For control of **termites and wood-infesting beetles** found above ground, apply to voids and holes in damaged wood, and in spaces between wooden structures and between the sill plate and foundation where wood is exposed.
- Apply spray to exposed worker and winged reproductive forms of termites. This type of application is intended to be a supplemental treatment for control of drywood and above-ground subterranean termites and other wood-infesting insects. It is not intended as a substitute for soil treatments for termite control.
 - For control of **swarming or reproductive stages of termites**, apply a coarse spray to the swarm or area on which they collect.
 - For control of **carpenter ants** around houses and other structures, apply around doors and windows where carpenter ants may enter the premises. Spray into cracks and crevices or voids where these ants or their nests are present. Use a sufficient amount of coarse spray to cover the area.
 - For control of **carpenter bees in structures**, spray the liquid directly into bee entrance holes. Leave the entrance holes open for 24 hours to be certain that returning adult bees are killed. When there is no activity, the hole may be sealed with a suitable sealant.

Re-enter when spray is dry.

[Option 1]

ATTACH SPRAYER

- Remove sprayer from bottle **and extend hose.**
- **- Remove twist tie.**
- **Pull down and extend hose.**
- Open flip-cap on bottle.
- Insert hose and plug into flip-cap opening until it snaps into place.
- **Move tab to open position.**

SPRAY

- Adjust nozzle to stream or spray position.
- Point sprayer downward and squeeze trigger repeatedly until liquid is released.

AFTER USE

- Turn sprayer nozzle to X (off) position.
- Do not unplug hose.
- Return sprayer to bottle. Sprayer will snap into place.

[Option 2]

How To Use Your Sprayer:

1. **Remove ERGO-GRIP spray wand from pocket**
 - Remove wrap from coiled hose
 - Remove protective battery strip from sprayer handle

2. REMOVE STICKER & CAP COVER

3. CONNECT HOSE TO CAP

Insert plug at end of coiled hose into hole on cap and push firmly until secure.

Remove sticker and cap cover before inserting hose plug.

4. OPEN SPRAY WAND

- Unfold spray wand until it snaps into place
- Point spray nozzle away from body.
- Adjust spray nozzle to desired setting.

5. TURN POWER ON

- Slide OFF-ON switch to ON position.

6. SQUEEZE

- Squeeze trigger to dispense product. Sprayer may require several seconds to prime before product is released.
- Release trigger to stop spraying.

4 AA Batteries Included
For important battery information – see booklet.

Storage

- Slide OFF-ON switch to OFF position.
- Do not unplug hose. Leave connected to cap.
- Turn spray nozzle to the off position.
- Fold spray wand down against sprayer handle.
- Return ERGO-GRIP spray wand to pocket for storage.

To Replace Batteries

- Open battery compartment [with a small screwdriver].
- Remove used batteries and replace with new batteries in correct position as indicated inside battery compartment.
- Securely close battery compartment door [and screw closed].

Proper use of Batteries

- Never mix old batteries with new.
- Do Not mix Alkaline with Standard (carbon zinc) or Rechargeable (nickel cadmium) batteries.
- When storing sprayer for long periods, remove batteries to prevent leakage.
- Dispose of used batteries according to manufacturer's instructions or in household trash.

REFILL [Optional graphic image]

Refilling the [1.3 gallon] sprayer from the [1 gallon] [or] [1.3 gallon size]

Beta-cyfluthrin 0.05% Ant & Roach Killer Pump Spray package:

1. Open refill port cap
2. Fill bottle with desired amount, using the Ready-to-Use product
3. Replace refill port cap, tighten and shake well

Option 3/HUDSON SPRAYER (GUN DESIGN)

HOW TO ATTACH SPRAYER TO BOTTLE

- Remove Power Sprayer and hose from side carrier.
- Replace bottle cap with cap attached to Power Sprayer hose.

PREPARE TO SPRAY

- Point Sprayer away from body.
- Adjust nozzle to desired setting.
- Slide safety switch to ON position.

SPRAY

- Squeeze trigger to dispense product. Sprayer may require several seconds to prime before spraying.

AFTER USE

- Slide safety switch to LOCK position
- Return Power Sprayer to side carrier for storage.]

Option 4/PROPOSED GENERIC WAND-STYLE SPRAYERS]

PREPARE TO SPRAY

- Remove spray wand from carrier. Extend hose to full length.
- Remove safety tab to activate batteries.
- [Connect hose to bottle by removing cap cover and inserting hose plug into cap, pushing firmly until secure.]
- [Connect hose to bottle by removing existing cap and applying hose-end cap, turning until secure.]

SPRAY

- Unfold spray wand until it snaps into place.
 - Point spray nozzle away from body.
 - [Unlock trigger.]
 - Squeeze to spray. Sprayer may require several seconds to prime before spraying begins.
- [If necessary, adjust nozzle to desired setting.]

AFTER USE

- [Move trigger lock to CLOSED position.]
- Fold wand down against handle.
- Return sprayer to carrier for storage.

Option 5/PROPOSED GENERIC GUN-STYLE SPRAYERS]

PREPARE TO SPRAY

- Remove sprayer from carrier. Extend hose to full length.
- Remove safety tab to activate batteries.
- [Connect hose to bottle by removing cap cover and inserting hose plug into cap, pushing firmly until secure.]
- [Connect hose to bottle by removing existing cap and applying hose-end cap, turning until secure.]

SPRAY

- Point spray nozzle away from body.
 - [Unlock trigger.]
 - Squeeze to spray. Sprayer may require several seconds to prime before spraying begins.
- [If necessary, adjust nozzle to desired setting.]

AFTER USE

- [Move trigger lock to CLOSED position.]
- Return sprayer to carrier for storage.

STORAGE AND DISPOSAL

Pesticide Storage:	Store in an area out of reach of children, preferably a locked storage cabinet. Protect from freezing.
Container Handling: 	If empty: <ul style="list-style-type: none">• Non-refillable container. Do not refill or reuse this container. [Do not reuse or refill this container, EXCEPT to refill with another product referenced on this label.]• Place in trash or offer for recycling if available. If partly filled: <ul style="list-style-type: none">• Call your local solid waste agency or toll free 1-877-229-3724 for disposal instructions.• Never place unused product down any indoor or outdoor drain.

NOTICE

Research and testing have determined that the "Directions for Use" are appropriate for the proper use of Beta-cyfluthrin 0.05% Ant & Roach Killer Pump Spray under expected conditions. The Buyer assumes responsibility for lack of performance or safety if not used according to the directions.

Money Back Guarantee: If you are not satisfied with this product, we will gladly refund your original purchase price.
