OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

May 17, 2018

Ashwini Kulkarni Regulatory Specialist SBM Life Science Corp. 1001 Winstead Drive, Suite 500 Cary, NC 27513

Subject: Notification per PRN 98-10 – Minor label changes and clarification to not use on lawns

Product Name: Imidacloprid + Tau-Fluvalinate + Tebuconazole Ready-to-Use

Insecticide, Miticide and Fungicide EPA Registration Number: 92564-29 Application Date: February 20, 2018

Decision Number: 538938

Dear Ms. Kulkarni:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you have any questions, you may contact Fatima Sow at (703) 347-8308 or via email at sow.fatima@epa.gov.

Sincerely,

Hope Johnson, Product Manager 21 Fungicide Branch Registration Division (7505P) Office of Pesticide Programs

EPA Reg. No. 92564-29

EPA Est. No. XXXX-AA-1

FOR RESIDENTIAL USE ONLY

◆ FIRST AID		
If swallowed:	Call a poison control center or doctor immediately for treatment advice.	
	Have person sip a glass of water if able to swallow.	
	Do not induce vomiting unless told so by a poison control center or doctor.	
	Do not give anything to an unconscious person.	
If on skin or clothing:	Take off contaminated clothing.	
	Rinse skin immediately with plenty of water for 15-20 minutes.	
	Call a poison control center or doctor for treatment advice.	
NOTE: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For medical emergency information, you may call toll-free 1-877-229-3763.		

Active Ingredients: Imidacloprid (CAS # 138261-41-3), Tau-fluvalinate (CAS #102851-06-9), Tebuconazole (CAS #107534-96-3)

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

- Harmful if swallowed.
- · Harmful if absorbed through skin.
- Avoid contact with skin, eyes, or clothing.
- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- · Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic organisms.

Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark.

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

This pesticide is toxic to bees.

Do not apply this product when bees are foraging.

Apply this product only as specified on this label.

PROTECTION OF POLLINATORS

APPLICATION RESTRICTIONS EXIST FOR THIS PRODUCT BECAUSE OF RISK TO BEES AND OTHER INSECT POLLINATORS.

FOLLOW APPLICATION RESTRICTIONS FOUND IN THE DIRECTIONS FOR USE TO PROTECT POLLINATORS.

This product can kill bees and other insect pollinators.

Bees and other insect pollinators will forage on plants when they flower, shed pollen, or produce nectar. Bees and other insect pollinators can be exposed to this pesticide from:

- Direct contact during foliar applications, or contact with residues on plant surfaces after foliar applications
- Ingestion of residues in nectar and pollen when the pesticide is applied as a seed treatment, soil, tree injection, as well as foliar applications.

When Using This Product Take Steps To:

- Minimize exposure of this product to bees and other insect pollinators when they are foraging on pollinator attractive plants around the application site.
- Minimize drift of this product on to beehives or to off-site pollinator attractive habitat. Drift of this product onto beehives or off-site to pollinator attractive habitat can result in bee kills.

Information on protecting bees and other insect pollinators may be found at the Pesticide Environmental Stewardship website at: http://pesticidestewardship.org/PollinatorProtection/Pages/default.aspx.

Pesticide incidents (for example, bee kills) should immediately be reported to the state/tribal lead agency. For contact information for your state, go to: www.aapco.org/officials.html. Pesticide incidents should also be reported to the National Pesticide Information Center at: www.npic.orst.edu or directly to EPA at: beekill@epa.gov

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product while bees are foraging. Do not apply this product to plants that are flowering. Only apply after all flower petals have fallen off.

Read and follow all label restrictions and directions when using this product.

BEFORE YOU USE

RESTRICTIONS:

- For houseplants, move them outside, treat, let dry, and bring back indoors.
- · Do not water the treated area to the point of run-off
- Do not make applications during rain.
- All outdoor applications must be limited to spot or crack and crevice treatment only, except for the following permitted uses:
 - (1) Treatment to soil or vegetation around structures;
 - (2) Applications to lawns, turf, and other vegetation;
- Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
- Do not wet the foliage within one hour after applying.
- Do not spray the product into fish pools, ponds, streams, or lakes.
- Remove animal feeding dishes prior to application.
- Do not use in small, enclosed areas where spray may be inhaled.
- Do not apply to fruits or vegetables used for food.
- Do not apply this product, by any application method, to linden, basswood, or other Tilia species.
- Do not apply to areas which are water logged or saturated, which will not allow penetration into the root zone of the plant.
- Maximum application rate is 0.4 lb imidacloprid [X bottles] per acre per year. This bottle contains [X] [lbs] of imidacloprid.

WHEN TO USE

When listed [*] insects, mites, or disease first appear.

To avoid serious damage, eliminate pests and diseases early in the season before they multiply.

HOW TO USE

[Option 1]

[Shake well before using. Adjust nozzle to desired spray pattern.

Hold sprayer about 12 inches from foliage.

Spray leaves, stems and tender new shoots.

(ART: of steps above)

Apply until both sides of the leaves are evenly coated with spray, but not dripping.

(ART: spraying top and undersides of leaves)]

[Option 2]

[How To Use Your Sprayer:

- 1. Remove ErgoRGO-GripRIP™ spray wand from pocket
 - Remove wrap from coiled hose
 - Remove protective battery strip from sprayer handle

2. REMOVE STICKER & CAP COVER

3. CONNECT HOSE TO CAP

Insert plug at end of coiled hose into hole on cap and push firmly until secure.

Remove sticker and cap cover before inserting hose plug.

4 AA Batteries Included For important battery information — see booklet.

4. OPEN SPRAY WAND

- Unfold spray wand until it snaps into place
- Point spray nozzle away from body.
- Adjust spray nozzle to desired setting.

5. TURN POWER ON

Slide OFF-ON switch to ON position.

6. SQUEEZE

- Squeeze trigger to dispense product. Sprayer may require several seconds to prime before product is released.
- Release trigger to stop spraying.

Storage

- Slide OFF-ON switch to OFF position.
- Do not unplug hose. Leave connected to cap.
- Turn spray nozzle to the off position.
- Fold spray wand down against sprayer handle.
- Return ErgoRGO GripRIP™ spray wand to pocket for storage.

To Replace Batteries

- Open battery compartment [with a small screwdriver].
- Remove used batteries and replace with new batteries in correct position as indicated inside battery compartment.
- Securely close battery compartment door [and screw closed].

Proper use of Batteries

- Never mix old batteries with new.
- Do Not mix Alkaline with Standard (carbon zinc) or Rechargeable (nickel cadmium) batteries.
- When storing sprayer for long periods, remove batteries to prevent leakage.
- Dispose of used batteries according to manufacturer's instructions or in household trash.]

HOW OFTEN Kills listed [*] insects on contact and keeps on killing for up to 30 days. For diseases, repeat every 7 to 14 days as necessary. [Refilling the 1.33 gallon sprayer from the [X] gallon [X] Imidacloprid + Tau-fluvalinate +Tebuconazole Ready-to-Use package: 1. Open the refill port cap 2. Fill bottle with the Ready-to-Use product refill.

	3. Replace refill port cap, tighten and shake well.]
HOW IT WORKS	This product provides 3 way action: kills existing listed [*] pests, forms protective barrier on outside of plant and is absorbed into the plant regardless of weather conditions. [*This product provides 4 way action: kills listed [*] insects on contact, controls mites, controls diseases, and keeps on protecting for up to 4 weeks (provides long lasting protection).

Kills.	Addride Arbide American Democratic Development Development Control Control	
Kills:	Adelgids, Aphids, Armyworms, Bagworms, Beetles, Boxelder bugs, Budworms, Cankerworms, Caterpillars Chinch bugs, Clover mites, Crickets, Cucumber beetles, Cutworms, Earwigs, Elm leaf beetles, Flea

Leaf Spot Powdery Mildew	Houseplants (treated outdoors)

Restrictions

Do not apply this product while bees are foraging. Do not apply this product to flowers that are flowering. Only apply after all flower petals have fallen off.

Application Instructions

Use prior to bloom or after petal fall is complete. To treat existing disease: apply at least 3 times, every 7-14 days apart beginning at the first sign of disease.

To prevent diseases: apply at least 3 times, every 7-14 days apart during the growing season, starting when new leaves first appear.

FOR BEST RESULTS

To avoid serious damage to plants, eliminate pests and disease early in the season before they multiply.

Children and pets may re-enter the treated area after spray has dried.

STORAGE AND DISPOSAL		
Do not contaminate water, food, or feed by storage or disposal.		
Pesticide Storage	Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet.	
Container Handling	Non-refillable container. Do not reuse or refill this container, EXCEPT to refill with another Imidacloprid + Tau-fluvalinate +Tebuconazole Ready-to-Use Insecticide, Miticide, and Fungicide [or Alternate Brand Name]. Place empty container in trash or offer for recycling if available.	
	If partly filled:	
	 Call your local solid waste agency or toll free 1-877-229-3724 for disposal instructions. 	
	Never place unused product down any indoor or outdoor drain.	

NOTICE

Research and testing have determined that the "Directions for Use" are appropriate for the proper use of Imidacloprid + Tau-fluvalinate + Tebuconazole Ready-to-Use Insecticide under expected conditions. To the extent consistent with applicable law, the Buyer assumes responsibility for lack of performance or safety if not used according to the directions.
