

OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

WASHINGTON, D.C. 20460

June 12, 2024

Michael Barber Regulatory Affairs Specialist SBM Life Science Corp. 11000 Weston Pkwy, Suite 150 Cary, NC 27513

Subject: Label Amendment - Registration Review Mitigation for isoxaben & mecoprop-p

Product Name: Lawn 3iP Herbicide Concentrate/Ready-To-Spray

EPA Registration Number: 92564-43

Application Dates April 1, 2022, December 16, 2020

Decision Numbers: 583010, 586580

Dear Michael Barber:

The Agency, in accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, has completed reviewing all the information submitted with your application to support the Registration Review of the above referenced product in connection with the isoxaben and mecoprop-p Interim Decisions, and has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling and must be used at your next label printing. You must submit one copy of the final printed labeling before you release the product for

Page 2 of 2 EPA Reg. No. 92564-43 Decision No. 583010, 586580

shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

If you have any questions about this letter, please contact Concepción Rodríguez by phone at 202-566-0820, or via email at rodriguez.concepcion@epa.gov.

Sincerely,

Linda Arrington, Branch Chief

Risk Management and Implementation Branch 4 Pesticide Re-Evaluation Division

Office of Pesticide Programs

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

- Harmful if absorbed through skin or if swallowed.
- Causes moderate eye irritation.
- · Avoid contact with skin, eyes, or clothing.
- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

- This product is toxic to fish and aquatic invertebrates. Do not apply directly to water.
- Drift or runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment washwaters or rinsate.
- To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.
- This pesticide may impact surface water quality due to runoff of rain water. This is especially true for poorly draining soil and soils with shallow ground water. This product is classified as having a high potential for reaching surface water via runoff for several months or more after application. A level, well-maintained vegetative buffer strip between areas to which this product is applied and surface water features such as ponds, streams, and springs will reduce the potential loading of isoxaben from runoff water and sediment.
- NON-TARGET ORGANISM ADVISORY: This product is toxic to plants and may adversely impact the forage and habitat of non-target organisms, including pollinators, in areas adjacent to the treated site. Protect the forage and habitat of non-target organisms by following label directions intended to minimize spray drift.
- **Ground Water Advisory:** This pesticide has properties and characteristics associated with chemicals detected in ground water. This chemical may leach into ground water if used in areas where soils are permeable, particularly where the water table is shallow.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

BEFORE YOU USE

- Use this product only on established lawns.
- Apply when the air is calm to avoid spray drift onto desirable plants.
- Do not apply by air.
- Do not apply this product to turfgrass grown for seed.

HOW MUCH TO USE

- Measure area to be sprayed. Calculate 'square feet' by multiplying length times width.
- For best results, use spray solution immediately. If it is necessary to store, shake vigorously before use. Do not store for more than 3 days.

Bermudagrass, Buffalograss, Fescue, Kentucky Bluegrass, Perennial Ryegrass, Zoysiagrass 3.2 fl. oz. (6½ TBS) in [1] [1-2] [2] gallons of water treats 500 sq. ft.

Bahiagrass, Centipedegrass, St. Augustinegrass (not for use on improved varieties of St. Augustinegrass, such as Floratam) or mixtures containing one or more of these grasses 1.6 fl. oz. (3 ¼ TBS) in [1] [1-2] [2] gallons of water treats 500 sq. ft. [or 3.2 fl. oz. (6½ TBS) in [1] [1-2] [2] gallons of water treats 1,000 sq. ft.]

Food utensils, such as tablespoons and measuring cups, must not be used for food purposes after use with any pesticide.

The maximum application rate of this product is 6.4 fl. oz. per 1,000 sq. ft. per application per site. The maximum number of broadcast applications per treatment site is 2 per year.

HOW TO USE

- Shake bottle well before use.
- To prevent new weeds from growing, you must spray the entire area you want protected, not just the emerged weeds.
- Wait at least 1 hour after applying, then activate preventative weed barrier by watering with ½ - ½" of irrigation.

[Optional graphic images:]

PUMP STYLE TANK SPRAYERS

Best for spraying individual weeds & small areas.

Add appropriate

1. Add appropriate amounts of water & product to sprayer tank.

[For 3.2 fl. oz. container: Pour entire contents [(3.2 fl. oz.)] into spray tank and fill with water to [1] [2] gallon mark [(treats 500 sq. ft.)]]

For 6.4 fl. oz. container: Pour entire contents [(6.4 fl. oz).] into spray tank and fill with water to 2 gallon mark [(treats 1,000 sq. ft.)]]

2. Close sprayer, shake well and pressurize. Adjust nozzle to a coarse spray.

Individual weeds – Hold tip of wand about 12" from weed, aim at center of weed & spray. Also spray the area underneath & around the weed to prevent new weeds from growing.

Small areas – apply evenly over area.

3. Occasionally re-pressurize sprayer as needed to maintain a good spray pattern.

DIAL-STYLE HOSE-END SPRAYERS

- 1. Fill sprayer jar with enough product for the area to be treated. DO NOT ADD WATER.
- Close sprayer and set dial as recommended below:
 - Ortho Dial 'N Spray Settings:

- 2.5 OZ for Bermudagrass, Buffalograss, Fescue, Kentucky Bluegrass, Perennial Ryegrass, Zoysiagrass
- 1.0 OZ for Bahiagrass, Centipedegrass, St. Augustinegrass (not for use on improved varieties of St. Augustinegrass, such as Floratam) or mixtures containing one or more of these grasses.
 - Chameleon Hose-End Sprayer Settings
- 1.5 OZ for Bermudagrass, Buffalograss, Fescue, Kentucky Bluegrass, Perennial Ryegrass, Zoysiagrass
- 4 TSP for Bahiagrass, Centipedegrass, St. Augustinegrass (not for use on improved varieties of St. Augustinegrass, such as Floratam) or mixtures containing one or more of these grasses

TIP: The numbers on dial indicate amount of concentrate per gallon of spray.

- 3. Hook to garden hose and apply. To avoid contact with the treated area, begin by spraying area farthest from faucet walking backwards as you spray.
- 4. Pour any unused product back into this original container.

Best for spraying large areas such as the entire lawn.

- 1. Pour product into sprayer jar to the required 'Fluid Ounce' level.
- 2. Add the appropriate amount of water to the 'Gallons' level.

Close sprayer, hook to garden hose, shake well & apply. To avoid contact with the treated area, begin by spraying area farthest form faucet walking backwards as you spray.

CONCENTRATE **PLUS WATER HOSE-END SPRAYERS**

[FOR BEST

RESULTS]

[WHEN TO APPLY]

- [Spray when
 - weeds are small and actively growing
 - temperatures are between 50 90°F]
- [Do not apply while grass is emerging from dormancy.]
- [This product also prevents crabgrass, barnyardgrass, and yellow foxtail when applied early spring before the fourth mowing or before the temperatures are regularly in the 80's.]
- [This product also prevents annual bluegrass (Poa annua) when applied August December.]
- [Certain hard-to-kill weeds may be retreated in 2 weeks if necessary.] [Spray individual weeds using this product in a tank sprayer or with Lawn 3iP Herbicide Ready-to-Use.]
- [Heavy raking will disturb the weed preventative barrier and reduce the effectiveness of this product.1
- [Newly seeded lawn may be sprayed after fourth mowing.]
- [Bare spots may be seeded 60 [or X] days after application.]

[MOWING]

[Do not mow for 1 to 2 days after spraying.]

[Clippings from the first three mowings should be left on the treated area. Do not use the clip from the treated areas as mulch or compost around flowers, ornamentals, trees, or in vegetab gardens.]	
	 [WATERING] [If lawn is dry, water 1 to 2 days before using this product.] [Rain or watering 1 hour after application will not wash away effectiveness.]
HOW IT WORKS This product contains a proven blend of three weed killers to kill existing weeds Plus a residence of the herbicide to keep them from coming back for up to 6 months. Weeds begin to wilt & die with hours [and are completely dead in 14 – 28 days]. And, it won't harm your lawn when used a	

KILLS & PREVENTS [or KILLS (a "1" indicates Kills & Prevents)]

[Weeds presented here to be chosen from Appendix 1.]

and other broadleaf & grass weeds

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application. Do not allow people or pets to enter the treated area until sprays have dried.

STORAGE AND DISPOSAL		
Pesticide Storage	Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet. Protect from freezing.	
Container Handling	If empty: Non-refillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or toll free 1-877-229-3724 for disposal instructions. Never place unused product down any indoor or outdoor drain.	

NOTICE: Research and testing have determined that the "Directions for Use" are appropriate for the proper use of this product under expected conditions. To the extent consistent with applicable law, the Buyer assumes responsibility for lack of performance or safety if not used according to the directions.

*Money Back Guarantee: If you are not satisfied with this product, we will gladly refund your original purchase price.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

- Harmful if absorbed through skin or if swallowed.
- Causes moderate eye irritation.
- · Avoid contact with skin, eyes, or clothing.
- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

- This product is toxic to fish and aquatic invertebrates. Do not apply directly to water.
- Drift or runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment washwaters or rinsate.
- To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface
 waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind
 or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will
 help avoid run off to water bodies or drainage systems.
- This pesticide may impact surface water quality due to runoff of rain water. This is especially true for poorly draining soil and soils with shallow ground water. This product is classified as having a high potential for reaching surface water via runoff for several months or more after application. A level, well-maintained vegetative buffer strip between areas to which this product is applied and surface water features such as ponds, streams, and springs will reduce the potential loading of isoxaben from runoff water and sediment.
- NON-TARGET ORGANISM ADVISORY: This product is toxic to plants and may adversely impact the forage and habitat
 of non-target organisms, including pollinators, in areas adjacent to the treated site. Protect the forage and habitat of nontarget organisms by following label directions intended to minimize spray drift.
- Ground Water Advisory: This pesticide has properties and characteristics associated with chemicals detected in ground
 water. This chemical may leach into ground water if used in areas where soils are permeable, particularly where the water
 table is shallow.

DIRECTIONS FOR USE			
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.			
BEFORE YOU USE	Use this product only on established lawns. Apply when the air is calm to avoid spray drift onto desirable plants. Do not apply by air. Do not apply this product to turfgrass grown for seed.		
HOW MUCH TO USE	Measure area to be sprayed. Calculate 'square feet' by multiplying length times width. [In order to gauge how quickly you should walk [to cover] [5,000 sq. ft.] [10,000 sq. ft.] this bottle will empty in approximately [XX] minutes]. [Packaging-related note: Adjust sq. ft. coverage proportionately for sizes other than 32 fl. oz.] Bermudagrass, Buffalograss, Fescue, Kentucky Bluegrass, Perennial Ryegrass, Zoysiagrass – this bottle (32 fl. oz.) treats 5,000 sq. ft. [Packaging-related note: Adjust sq. ft. coverage proportionately for sizes other than 32 fl. oz.]		
	Bahiagrass, Centipedegrass, St. Augustinegrass (not for use on improved varieties of St. Augustinegrass, such as Floratam) or mixtures containing one or more of these grasses – this bottle (32 fl. oz.) treats 10,000 sq. ft. [Packaging-related note: Adjust sq. ft. coverage proportionately for sizes other than 32 fl. oz.] The maximum application rate of this product is 32 fl. oz. per 5,000 sq. ft. per application		
9	per site. The maximum number of broadcast applications per treatment site is 2 per year.		
HOW TO USE Shake Well Before Use	 To prevent new weeds from growing, you must spray the entire area you want protected, not just the emerged weeds. Wait at least 1 hour after applying then activate preventative weed barrier by watering with ¼ - ½" of irrigation. [Optional graphic images:] 		
	WAIT Editorial Note – Either the Single Rate Sprayer or the Dual Rate Sprayer directions for		
[Optional images]:	use will appear on the commercial package but not both. [Optional Sprayer Directions 1] [For single rate sprayer] CONNECT		
	SPRAY 1. Extend hose to farthest area to be treated, point sprayer nozzle in direction to be sprayed. 2. Begin spraying – Push & hold lock tab away from knob, use other hand to turn knob [counter-]clockwise to ON position. 3. Walk at a steady pace while spraying, using an even sweeping motion, and slightly overlap the treated areas. Work back toward the faucet to avoid walking over wet, treated grass.		
OFF I	FINISH 1. To stop spraying, push & hold lock tab away from knob and use other hand to turn knob [counter-]clockwise to OFF position. 2. Turn off water at faucet. 3. Relieve water pressure in hose by turning sprayer to [ON] [WATER] position until water slows to a drip then turn sprayer OFF. 4. Disconnect sprayer from hose. [Optional Sprayer Directions 2]		
	[For dual rate sprayer]		
	Connect your garden hose to the bottle. Be sure the blue water control valve on top of the spray nozzle is in the OFF position. Turn on water at faucet.		

2. To apply high rate (treats 5,000 sq. ft. [Packaging-related note: Adjust sq. ft. coverage proportionately for sizes other than 32 fl. oz.]): Pull the small star-shaped blue product-control button out until it stops, Twist the blue product-control button so that the 'L' on the product-control button is at the top of the control valve AND the product control valve is aligned with the flat portion of the lock tab. Push the button in to open. Proceed to step #3.

To apply low rate (treats 10,000 sq. ft. [Packaging-related note: Adjust sq. ft. coverage proportionately for sizes other than 32 fl. oz.]): Pull the small starshaped, blue product-control button out until it stops. Twist the product-control button so that the 'G' on the product-control button is at the top of the control valve AND the product control valve is aligned with the flat portion of the lock tab. Push the button in to open (The button will only go half way in for this setting). Proceed to step #3.

3. Extend hose to farthest area to be treated, point sprayer nozzle in direction to be sprayed. To begin spraying, point nozzle toward the area to be treated and turn the blue water control valve to the ON position. Tab will be horizontal. Walk at a steady pace while spraying, using an even sweeping motion, and slightly overlap the treated areas. Work back toward the faucet to avoid walking over wet, treated grass.

- 4. To stop spraying, turn the blue water control valve on top of the spray nozzle to OFF. To close, push in the small round button opposite the star-shaped product-control button. Turn off faucet,
 - Relieve water pressure by turning blue water control valve to the ON position until water slows to a drip. Turn blue water control valve back to OFF. Disconnect garden hose from bottle.]

[Optional Sprayer Directions 3]

CONNECT

- Shake well before use.
- 2. Securely Connect sprayer to garden hose.
- 3. Be sure that ON/OFF Switch is in OFF position, toward hose end of sprayer.
- 4. Turn on water at faucet.
- 5. For first time use, remove plastic shipping lock from beneath switch.

SPRAY

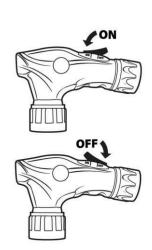

- 1. Extend hose to farthest area to be treated, point sprayer nozzle in direction to be sprayed.
- 2. Begin spraying Push ON/OFF Switch forward into ON position.
- 3. Walk at a steady pace while spraying, using an even sweeping motion, and slightly overlap treated areas. Work back toward faucet to avoid walking over wet, treated grass.

FINISH

- 1. To stop spraying, push ON/OFF Switch to OFF position.
- 2. Turn off water at faucet.
- 3. Relieve water pressure in hose by turning ON/OFF Switch back to ON position until water slows to a drip, then return ON/OFF switch to OFF position.
- 4. Disconnect sprayer from hose.]

[WHEN TO APPLY]

- [Spray when
 - weeds are small and actively growing
 - temperatures are between 50 90°F1
- [Do not apply while grass is emerging from dormancy.]
- [This product also prevents crabgrass, barnyardgrass, and yellow foxtail when applied early spring before the fourth mowing or before the temperatures are

[FOR BEST RESULTS]	regularly in the 80's.]	
	[This product also prevents annual bluegrass (Poa annua) when applied August – December.]	
	[Certain hard-to-kill weeds may be retreated in 2 weeks if necessary.] [Spray individual weeds using this product in a tank sprayer or with Lawn 3iP Herbicide	
	Ready-to-Use.]	
	• [Heavy raking will disturb the weed preventative barrier and reduce the effectiveness of this product.]	
	[Newly seeded lawn may be sprayed after fourth mowing.]	
	[Bare spots may be seeded 60 [or X] days after application.]	
	[MOWING]	
	[Do not mow for 1 to 2 days after spraying.]	
	 [Clippings from the first three mowings should be left on the treated area. Do not use the clippings from the treated areas as mulch or compost around flowers, ornamentals, trees, or in vegetable gardens.] 	
	[WATERING]	
	[If lawn is dry, water 1 to 2 days before using this product.]	
	[Rain or watering 1 hour after application will not wash away effectiveness.]	
HOW IT WORKS	This product contains a proven blend of three weed killers to kill existing weeds Plus a residual herbicide to keep them from coming back for up to 6 months. Weeds begin to wilt & die within [24] hours and are completely dead in 14 – 28 days. And, it won't harm	
	your lawn when used as directed.	

KILLS & PREVENTS [or KILLS (a "1" indicates Kills & Prevents)]

[Weeds presented here to be chosen from Appendix 1.]

and other broadleaf & grass weeds

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application. Do not allow people or pets to enter the treated area until sprays have dried.

STORAGE AND DISPOSAL		
Pesticide Storage Conditions	Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet. Protect from freezing.	
Container Handling	If empty: Non-refillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or toll free 1-877-229-3724 for disposal instructions. Never place unused product down any indoor or outdoor drain.	

NOTICE: Research and testing have determined that the "Directions for Use" are appropriate for the proper use of this product under expected conditions. To the extent consistent with applicable law, the Buyer assumes responsibility for lack of performance or safety if not used according to the directions.

*Money Back Guarantee: If you are not satisfied with this product, we will gladly refund your original purchase price.
