

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Registration Division (7505T)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

92564-84

Date of Issuance:

1/20/23

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

20NACOM183

Name and Address of Registrant (include ZIP Code):

Michael Barber
SBM Life Science Corp.
1001 Winstead Drive Suite 500
Cary, NC 27513

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Continues page 2

Signature of Approving Official:

Jacquelyn Herrick, Product Manager 03
Invertebrate and Vertebrate Branch 1, Registration Division
(7505P)

Date:

1/20/23

2. You are required to comply with the data requirements described in the generic data call-in (GDCI) identified below:
 - a. Bifenthrin GDCI-128825-902
 - b. Bifenthrin GDCI-128825-1159
 - c. Bifenthrin GDCI-097805-1100

You must comply with all of the data requirements within the established deadlines. If you have questions about the GDCI listed above, you may contact the Chemical Review Manager in the Pesticide Re-Evaluation Division: <http://iaspub.epa.gov/apex/pesticides/f?p=chemicalsearch:1>

3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, “EPA Reg. No. 92564-84.”
4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

The record for this product currently contains the following CSF(s):

- Basic CSF dated 8/15/2022
- Alternate CSF 1 dated 8/16/2022
- Alternate CSF 2 dated 8/17/2022
- Alternate CSF 3 dated 8/18/2022

If you have any questions, please contact Elizabeth Andrews at 202-566-2467 or at Andrews.Elizabeth@epa.gov.

Enclosure

Editorial Notes:

[Bracketed text] is optional language. Any text separated by a backslash “/” and “or” are options. {Braces} indicate notes to reviewers. (Parentheses) indicate text that will not be omitted but will appear in parentheses on the label.

Italicized text is for information and is not part of the label

Claims may be placed anywhere on the label. Optional text located within mandatory sections may be placed anywhere within the section it appears in on the label

Refer to Appendix I for marketing claims.

The term “New[!]” as a claim will only be used for the first 6 months of product on shelf.

The word “and” may be substituted with “&”. Plural words may be used in their singular form or singular words may be used in their plural form unless otherwise specified in 40 CFR.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

- Harmful if swallowed.
- Causes moderate eye irritation.
- Avoid contact with eyes or clothing.
- Wear protective eyewear
- Wear long-sleeved shirt and long pants, socks and shoes
- Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove and wash contaminated clothing before reuse

ENVIRONMENTAL HAZARDS

- This product is toxic to fish and aquatic organisms.
- Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high-water mark.
- To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters.
- Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.
- Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.
- Apply this product only as specified on this label.
- Care should be used when spraying to avoid fish and reptile pets in/around ornamental ponds.
- This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow to drift to blooming plants if bees are foraging in the treatment area.

(BACK PANEL)

{Note to PM: The word "listed" can appear as a footnote with the appropriate phrase, indicated by listed [*] pests/diseases}

{Note to PM: All footnotes will be in close proximity to the claim}

[Insert Claims from APPENDIX I]

OPTION 1

[This product's [Insert ABN] exclusive 3-way formula protects against listed[*] insects, plant mites, and diseases in one easy step. This formula kills listed[*] insects by contact, controls plant mites, controls listed[*] diseases, and keeps on protecting for [up to 2] weeks. This product provides long lasting insect control, plant mite control, and disease protection on rose bushes[†], flower plants[†], houseplants (treated outside), ground covers, vines, ornamentals, shrubs, and trees. Protecting beautiful trees, shrubs, flower plants[†], and rose bushes[†] has never been easier!]

OPTION 2

[This product's [Insert ABN] exclusive formula protects against listed[*] insects, plant mites and diseases in one easy step. It provides up to 2 weeks protection against the major insect and disease problems of rose bushes[†], hibiscus, iris, and other flower plants[†] and shrubs. Protecting beautiful rose bushes[†], flower plants[†], and shrubs has never been easier!]

{Note to reviewer: Directions for Use table may be depicted with columns side-by-side in any order}

DIRECTIONS FOR USE	
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.	
Read and follow all label restrictions and directions when using this product.	
BEFORE YOU APPLY/USE RESTRICTIONS	<p>To protect pollinators when blooms are present, apply the product during early morning or late evening, when bees are not foraging.</p> <p>If applied prior to bloom, or blooms are removed or petal fall is complete, applications may be made during the day.</p> <p>[List of restrictions from either option below]</p>

[OPTION 1]

	<p>Restrictions:</p> <ul style="list-style-type: none"> • Do not make applications during rain. • Avoid making applications when rainfall is expected before the product has sufficient time to dry (minimum 4 hours). • Rainfall within 24 hours after application may cause unintended runoff of pesticide application. • Do not apply when the wind speed is greater than 15 mph. • Do not spray the product into fish pools, ponds, streams, or lakes. • Do not apply directly to sewers or storm drains, or to any area like a drain or gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. • Do not allow the product to enter any drain during or after application. • Do not apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios. • Do not apply or irrigate to the point of runoff. • Remove animal feeding dishes prior to application. • Do not use in small, enclosed areas where spray may be inhaled. • Do not apply to fruits or vegetables used for food. • Do not use indoors - for houseplants, move them outside, treat, let dry and bring back indoors. • For outdoor residential use only. • Do not apply to areas which are waterlogged or saturated, which will not allow penetration into the root zone of the plant. • Do not apply this product while bees are foraging. • Do not treat or apply to lawns or turf • Do not apply more than 13 treatments per year. In Nassau and Suffolk Counties in New York State, do not apply more than 3 times per given area per year. • Do not treat plants during periods of stress, i.e. heat, drought, flooding, insects, excessive fertilizer, herbicides or pesticide use, etc. • Do not apply when temperatures are above 85°F. • For application to individual plants only use conventional pump up sprayers at labeled rates. • If disease is already present, this product will not eliminate it. • Not for use on plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes. For use on plants intended only for aesthetic purposes or climatic modifications and being grown in interior landscapes, ornamental gardens or parks, or lawn and grounds. Only use this product on plants being grown for aesthetic or climatic purposes and in interior and exterior sites, such as, gardens, parks, lawns, and grounds, and other ornamental sites. Do not use on vegetation intended for sale or other commercial uses. Do not use on plants grown for seed production or research purposes. • Spot treatments must not exceed two square feet in size (for example, 2 ft. by 1 ft. or 4 ft. by 0.5 ft.). • For foliar applications, do not apply by ground within 25 feet of lakes, reservoirs, rivers, permanent streams, marshes or natural ponds, estuaries and commercial fish farm ponds.
--	---

[OPTION 2]

	<p>Restrictions</p> <ul style="list-style-type: none"> • For outdoor residential use only. • Remove animal feeding dishes prior to application. • Avoid making applications when rainfall is expected before the product has sufficient time to dry (minimum 4 hours). • Rainfall within 24 hours after application may cause unintended runoff of pesticide application. • For application to individual plants only use conventional pump up sprayers at labeled rates.

HOW IT /THIS [PRODUCT] WORKS	<p>[This product provides 3 way action: kills existing pests, forms protective barrier on outside of plant and is absorbed into the plant regardless of weather conditions.] [This product provides 3 way action: kills listed[*] insects on contact, controls plant mites, and controls listed[*] diseases, and keeps on protecting for up to 2 weeks.]</p> <p>[This product kills existing pests by contact or ingestion.] [This product kills listed[*] insects on contact, controls plant mites, and controls listed[*] diseases, and keeps on protecting for up to 2 weeks.]</p> <p>The maximum application rate for Bifenthrin is 0.114 lbs ai/A. The maximum application rate for Myclobutanil is 0.105 lbs ai/A.</p>

COVERAGE	Treats [Protects] up to 3 rose bushes [†] (81 sq. ft, each bush 5 ft by 5 ft) {24 oz. size} Treats [Protects] up to 4 rose bushes [†] (109 sq. ft, each bush 5 ft by 5 ft) {32 oz. size} Treats [Protects] up to 16 rose bushes [†] (436 sq. ft, each bush 5 ft by 5 ft) {1 gal. size} Treats [Protects] up to 20 rose bushes [†] (545 sq. ft, each bush 5 ft by 5 ft) {1.3 gal size} Apply at a rate of 3 fl oz per 10 sq. ft {Note to reviewer: Coverage size will vary depending on the size of the bottle @ 3 fl oz per 10 sq. ft, ranging from 16 to 170 fl oz}
HOW TO USE/APPLY	<ul style="list-style-type: none"> • Shake well before using • [Adjust nozzle to desired spray pattern.] • Hold sprayer about 12 inches from foliage. • Spray leaves, stems, and tender new shoots. • To kill insects that may hide, spray the underside of the leaves. Apply until leaves are evenly coated with spray, but not dripping (3 fl oz per 10 sq. ft). <p>[Additional sprayer-specific instructions below]</p>

[Option 1]

[Nested Sprayer Directions for Use:]

Attach Sprayer

- Remove sprayer from bottle and extend hose.
- Open flip-cap on bottle.
- Insert hose and plug into flip-cap opening until it snaps into place.

Spray

- Adjust nozzle to stream or spray position.
- Point sprayer downward and squeeze trigger repeatedly until liquid is released.

After Use

- Turn sprayer nozzle to X (off) position. Do not unplug hose.
- Return sprayer to bottle. Sprayer will snap into place.

[Option 2]

[Directions for Use for 1 Gallon Nested Sprayer]

Attach Sprayer

- Remove sprayer from bottle.
- Remove twist tie.
- Pull down and extend hose.
- Open flip-cap on bottle.
- Insert hose and plug into flip-cap opening until it snaps into place.
- [Move tab to open position.]

Spray

- Adjust nozzle to stream or spray position.
- Point sprayer downward and squeeze trigger repeatedly until liquid is released.

After Use

- Turn sprayer nozzle to X (off) position. Do not unplug hose.
- Return sprayer to bottle. Sprayer will snap into place.

[Option 3]

[Alternate Directions for Use for 1 Gallon Sprayer]

- 1. Remove sprayer**
[Pull cord/tubing all the way out]
- 2. Insert plug into [spout/knob/opening on] cap [until it clicks]**
- 3. [Flip up spout.] [Adjust nozzle to desired spray setting [(mist or spray)]]. Spray.**

[Option 4]

[1.3 Gallon ERGO-GRIP™ Sprayer Directions for Use:]

Remove ERGO-GRIP™ spray wand from pocket.
Remove protective battery strip from sprayer handle.

CONNECT HOSE TO CAP

- Remove wrap from coiled hose.
- In down position, insert plug at end of hose into flip-spout opening on the cap until it snaps into place.
- Flip up spout until full upright. Spout must remain upright while spraying.

OPEN SPRAY WAND

- Unfold spray wand until it snaps into place
- Point spray nozzle away from body.
- Adjust spray nozzle to desired setting.

TURN POWER ON

- Slide OFF-ON switch to ON position.

SQUEEZE

- Squeeze trigger to dispense product. Sprayer may require several seconds to prime before product is released.
- Release trigger to stop spraying.

Storage

- Slide OFF-ON switch to OFF position.
- Return flip spout on cap to the down position. Do not unplug hose. Turn spray nozzle to the off position.
- Fold spray wand down against sprayer handle.
- Return ERGO-GRIP™ spray wand to pocket for storage.

4 AA Batteries Included

For important battery information – see booklet.

To Replace Batteries

- Open battery compartment [with a small screwdriver].
- Remove used batteries and replace with new batteries in correct position as indicated inside battery compartment.
- Securely close battery compartment door [and screw closed].

Proper use of Batteries

- Never mix old batteries with new.
- Do Not mix Alkaline with Standard (carbon zinc) or Rechargeable (nickel cadmium) batteries.
- When storing sprayer for long periods, remove batteries to prevent leakage. Dispose of used batteries according to manufacturer's instructions or in household trash.

[Option 5]

[Alternate Directions for Use for 1.3 Gallon Sprayer]

1. Remove wand

Pull connector by slightly twisting from holder and unwrap hose completely. Remove protective strip from battery compartment to activate batteries.

2. Connect

Insert plug at end of hose into opening on cap until it clicks.

3. Extend

Flip open wand until it clicks and locks into position.

4. Turn to "On"

Slide trigger lock on wand handle to the unlocked position.

5. Spray

Twist nozzle to desired spray pattern. Point nozzle away from body and hold trigger for continuous spray.

Important Use Information: **DO NOT** submerge in water. When storing sprayer for long periods, remove batteries.

To Replace Batteries: Open battery compartment at bottom of wand with a small screwdriver.

Remove used batteries and replace with new batteries.

Securely close battery compartment door and screw closed firmly. Always use a complete set of the same type when replacing batteries. Best performance is achieved with alkaline batteries. Never mix alkaline, carbon-zinc or rechargeable batteries. Dispose of used batteries according to manufacturer's instructions or in household trash.

[Option 6]

[Power Sprayer]

TO USE – before first use, pull tab activate batteries

{Note to PM: The below is draft artwork which will be revised with color}

Screw cap on bottle

Unfold wand, turn "on" to spray

Rotate nozzle for "mist" or "stream" spray

[Option 7]

[PROPOSED GENERIC WAND-STYLE SPRAYERS]

PREPARE TO SPRAY

- Remove spray wand from carrier. Extend hose to full length.
- Remove safety tab to activate batteries.
- [Connect hose to bottle by removing cap cover and inserting hose plug into cap, pushing firmly until secure.]
- [Connect hose to bottle by removing existing cap and applying hose-end cap, turning until secure.]

SPRAY

- Unfold spray wand until it snaps into place.
- Point spray nozzle away from body.
- [Unlock trigger.]
- Squeeze to spray. Sprayer may require several seconds to prime before spraying begins. [If necessary, adjust nozzle to desired setting.]

AFTER USE

- [Move trigger lock to CLOSED position.]
- Fold wand down against handle.
- Return sprayer to carrier for storage.

[PROPOSED GENERIC GUN-STYLE SPRAYERS]

PREPARE TO SPRAY

- Remove sprayer from carrier. Extend hose to full length.
- Remove safety tab to activate batteries.
- [Connect hose to bottle by removing cap cover and inserting hose plug into cap, pushing firmly until secure.]
- [Connect hose to bottle by removing existing cap and applying hose-end cap, turning until secure.]

SPRAY

- Point spray nozzle away from body.
- [Unlock trigger.]
- Squeeze to spray. Sprayer may require several seconds to prime before spraying begins. [If necessary, adjust nozzle to desired setting.]

AFTER USE

- [Move trigger lock to CLOSED position.]
- Return sprayer to carrier for storage.

[Option 8]

Prime trigger by pumping a few times before first use. [Pull trigger all the way back to release mist.] Pump once for a little, three times for a continuous spray.

[Option 9]

Squeeze trigger for targeted coverage. Keep pumping for continuous spray.

[Option 10 [How to] Refill]

[If your starter kit is running low, it might be time for a refill.]

1. Remove the sprayer from the empty bottle [by turning counter- clockwise to release]
2. Remove and discard disposable cap from refill bottle.
3. Place the sprayer on the full refill bottle [and turn clockwise to secure.]

{Note to PM: The lists of insects and diseases may appear elsewhere on the label and be referenced in the Directions for Use}

<p>Restrictions</p> <p>Do not apply this product while bees are foraging.</p> <p>Do not wet the foliage within four hours after applying.</p>				

Application Instructions

Apply until both sides of the leaves are evenly coated with spray, but not dripping, at a rate of 3 fl oz per 10 sq. ft. One 32 fl. oz bottle should cover 109 sq. ft. or approximately 4 rose bushes† (each 5 ft by 5 ft). {Note to PM: The area in square feet and the # of rose bushes may be scaled in proportion to the size of the bottle, for example 436 sq. ft and 16 rose bushes for a 1 gal bottle. Per the current range of 16-170 fl oz the coverage can vary from 54 to 580 sq. ft.}

To treat existing disease: apply at least 3 times, every 14 days apart beginning at the first sign of disease.

To prevent diseases: apply at least 3 times, every 14 days apart during the growing season, starting when new leaves first appear.

+ Not for use in California

† Apply when pollinators are not present

[FOR BEST RESULTS]

To avoid serious damage to plants, treat pests early in the season before they multiply.

[For optimum bagworm control, treat when larvae have started to hatch, directing spray to contact as many larvae as possible.]

 []	<p>People & pets may enter the area after the spray has dried.</p>

Appendix I: Marketing Claims

{General Claims}

1. [For] use on: Rose Bushes[†], Flower Plants[†], Houseplants (treated outside), Ground Covers, Vines, Ornamentals, Shrubs, and Trees
2. [For] use on [insert listed use sites]
3. [For] Use on Flower Plants[†] [Rose Bushes[†], [Ornamentals,] [Shrubs,] [Ground Covers,] [Trees,] [Vines,] [and] [Houseplants (treated outside)]]
4. Plant protection - Protects listed[*] plants leaves/branches [top to bottom]
5. 3 Benefits in One: Listed [*] Insect Protection, [Spider] Mite Protection, and Disease Protection
6. One application, three/3 benefits: Listed[*] Insect Protection, Spider Mite Protection, and Disease Protection
7. All-in-One, three benefits: listed[*] insect, disease, and spider mite protection.
8. Premium care – 3 in 1 formula – controls listed[*] insect, plant mites, and diseases
9. 3 in 1 formula – kills listed[*] insects on contact, controls plant mites, controls listed[*] diseases, and keeps on protecting for [up to 2] weeks [provides long lasting protection]
10. [All-in-one] Protection Formula – Kills listed[*] insects, plant mites and diseases on contact, and keeps onprotecting for [up to 2] weeks.
11. Exclusive [Proprietary] Formula – Three way control – controls listed[*] insects, plant mites, and diseases.
12. Three benefits in one package: listed[*] insect, disease and plant mite control.
13. One application with three/3 benefits: controls listed[*] insects, plant mites and diseases.
14. Systemic disease three/3-way action [control]: listed[*] insect control, disease control and plant mite control.
15. Fast, easy, & efficient
16. Prevents [insect] [plant mite] [and] [disease] damage.
17. Three/3 garden products in one/1: listed[*] insect control, disease control and plant mite control.
18. Proven three way control - listed[*] insect control, disease control and plant mite control.
19. The Rose Bush[†] and Flower Plant[†] defender [guardian] [protector]
20. 3 Benefits in 1
21. 3 in 1 Formula - Insecticide, Fungicide, Miticide[^]
22. 3 Garden Products in 1- Insecticide, Fungicide, Miticide[^]
23. Insecticide, Fungicide, Miticide[^]
24. Kills listed insects [for] up to 2 weeks.
25. Kills listed insects
26. Kills listed diseases [for] up to 2 weeks.
27. Kills listed diseases
28. Kills listed insects & diseases [for] up to 2 weeks
29. Effective Against a Broad Range of listed* Insects, Plant Mites, and Diseases
30. 3 Benefits in One/1: Insect Control, Plant Mite Control and Disease Control
31. Protects against listed[*] Insects & Diseases [for] up to 2 weeks.
32. Made/Packaged in [the] USA.
33. Eliminates the need for multiple products.
34. Protects the plant from listed[*] insects and diseases.
35. Rainproof [protection] in 4 hours [illustration from art table]
36. Do not apply when rainfall is expected within 4 hours of application.
37. Repeat every 14 days as necessary[#]
38. Systemic disease control
39. Systemic insect control
40. Systemic Insect & disease control
41. New [formula] .
42. All in one [rose/and /flower] plant[†] care
43. 3 in 1 insect, disease, plant mite control
44. Before/After [Illustration]

45. Solves 3 problems with one/1 bottle

† Apply when pollinators are not present

^ Against plant mites

Up to 13 treatments/year

{Packaging Claims for RTU Label}

1. Bonus size...X% more
2. Easy hold Sprayer
3. EZ Spray
4. One-touch sprayer
5. EZ-Grip One Touch Sprayer™
