OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

February 17, 2017

Ronald W. Clawson, Jr. Kop-Coat, Inc. 3040 William Pitt Way Pittsburgh, PA 15238

Subject: Notification per PRN 98-10 – Updating Product Number

Product Name: True-Core Millwork Preservative Concentrate

EPA Registration Number: 92617-19 Application Date: January 18, 2017

Decision Number: 525721

Dear Mr. Clawson:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you have any questions, please contact me by phone at 703.305.6440, or via email at grigsby.stacey@epa.gov.

Sincerely,

Stacey Grapy

Stacey Grigsby, Acting Product Manager, 34 Regulatory Management Branch II
