AUTOM RIVER INC.

Subject: Non-PRIA (Pesticide Registration Improvement Act) Labeling Amendment - Addition of Environmental Hazard Statement per California request
Product Name: Aedes Mosquito Killers
Admin Number: 92949-1
EPA Receipt Date: 07/28/2025
Action Case Number: 00665520

Dear Wendy McCombie:

The amended labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable.

This approval does not affect any terms or conditions that were previously imposed on this registration. You continue to be subject to existing terms or conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one (1) copy of the final printed labeling before you release this product for shipment with the new labeling. In accordance with 40 CFR § 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR § 152.3.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6.

If you have questions, please contact Autumn Metzger via email at metzger.autumn@epa.gov.

Sincerely,

AUTUMN

You may also contact the National Pesticide Information Center at 1-xxx-xxx-xxxx for non-emergency information about this product.	

{Reviewer: First Aid may appear in table or paragraph form, depending on space available}

Environmental Hazards

This pesticide is toxic to fish, aquatic invertebrates, and bees.

Product Information

Aedes Mosquito Killers are a proven [targeted and] effective method to kill Aedes mosquitoes [that may transmit illnesses such as Dengue Fever [Chikungunya] [Zika] [Viruses].

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

- 1- Look for and eliminate all standing water around your home. Standing water can be found in places such as bird baths, flowerpots, toys and gutters.
- 2- Aedes Mosquito Killers should be spaced 35 feet apart in shaded areas around the property to reduce Aedes mosquitoes. Do not exceed 10 units [pots] [containers] [Aedes Mosquito Killers] per acre. [Each unit [pot] [container] [Aedes Mosquito Killer] contains 0.1 g of permethrin. Do not exceed 1.0 g permethrin per acre.]
- 3- [Pour] Add [118 oz] water into each Aedes Mosquito Killer. Do not exceed the height of the overflow hole. Add water to Aedes Mosquito Killers as necessary if evaporation occurs.
- 4- Replace Aedes Mosquito Killers once a month [every 4 weeks] [if needed]. Aedes Mosquito Killers will no longer hold water when they are ready to be replaced.

{Reviewer: this list may be converted to paragraph depending on space available}

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage and disposal. PESTICIDE STORAGE: Store in original container in a cool, dry place, inaccessible to children and pets. PESTICIDE DISPOSAL AND CONTAINER HANDLING: Product can be allowed to disintegrate in place, or can be disposed of in the trash.
