Registration Division (7505T)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

vania Ave., N.W.

92953-1

EPA Reg. Number:

Date of Issuance:

5/15/25

NOTICE OF PESTICIDE:

X Registration

___ Reregistration (under FIFRA, as amended)

Term of Issuance: Conditional

Name of Pesticide Product:

Callington Pre-Spray Aircraft

Insecticide

Name and Address of Registrant (include ZIP Code):

Callington, Inc. 1170 Tree Swallow Drive Suite 402 Winter Springs, FL 32708

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(B). You must comply with the following conditions:

 Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

- 2. You are required to comply with the data requirements described in the generic data call-in (GDCI) identified below:
 - a. Permethrin GDCI-109701-1113

You must comply with all of the data requirements within the established deadlines. If you have questions about the GDCI listed above, you may contact the Chemical Review Manager in the Pesticide Re-Evaluation Division: http://iaspub.epa.gov/apex/pesticides/f?p=chemicalsearch:1

- 3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No. 92953-1."
- 4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance. If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

The record for this product currently contains the following CSF(s):

Basic CSF dated 05/08/2024

If you have any questions, please contact Kaitlin Saunders at 202-566-2890 or at Saunders. Kaitlin@epa.gov.

Enclosure

Callington® Pre-Spray Aircraft Insecticide

Aerosol insecticide for aircraft pre-embarkation use only. For indoor use only.

ACTIVE INGREDIENT:

*Permethrin 2.0%	
INERT INGREDIENTS 98.0%	
Total 100.0%	

* cis/trans ratio: Min 25% (±) cis and Max 75% (±) trans

ACCEPTED

05/15/2025

Under the Federal Insecticide, Fungicide and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 2005.2.4

92953-1

KEEP OUT OF REACH OF CHILDREN

CAUTION

EPA Reg. No. 92953--*

EPA Est. No. [as indicated on the container]

Manufactured by:

Callington Inc.

1170 Tree Swallow Drive, STE 402 Winter Springs

Florida 32708, United States

Net Contents: 3.38 fl oz (100 g)

Read entire label before each use.

FIRST AID		
If on skin or clothing:	 Take off contaminated clothing and wash it before reuse. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. 	
HOT LINE NUMBER		

Have the product container or label with you when calling a poison control center or doctor, or when going for treatment. In case of medical emergencies or health and safety inquiries or in case of fire, leaking or damaged containers, information may be obtained by calling 1-800-222-1222.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals - CAUTION

Harmful if absorbed through the skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gums, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Wear the following Personal Protective Equipment (PPE): long sleeved shirt and long pants, socks, shoes, and chemical resistant gloves (such as Barrier Laminate, Butyl Rubber ≥ 14 mils, Nitrile Rubber ≥ 14 mils, Neoprene Rubber \geq 14 mils, Polyvinyl Chloride (PVC) \geq 14 mils, and Viton \geq 14 mils.).

User Safety Requirements

- Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.
- Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

User Safety Recommendations

- Users should remove clothing/PPE immediately if pesticide gets inside. Wash the outside of gloves before removing. Then wash thoroughly and put on clean clothing.
- Users should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

Physical or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 122°F may cause bursting. Do not apply this product around electrical equipment due to the possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labelling.

Use Restrictions

- For indoor use in unoccupied aircraft cabin, crew, and cargo areas only; for use in all types of aircraft. Do not apply to occupied aircraft.
- Applications must be performed by airline personnel who have received proper training in the disinsection procedure. Only protected handlers may be in the area during application.
- The application must be conducted after the aircraft has been fully catered, and before passengers board the aircraft (pre-embarkation).
- Do not contaminate food, feed, cooking utensils or drinking water. Do not spray directly on exposed food, food preparation areas or food utensils.
- Do not apply this product in a way that will contact workers or other persons, either directly or through drift.
- Do not enter or allow others to enter treated area until sprays have dried.

Do not enter or allow others to enter until vapors, mists, and aerosols have dispersed, and the treated areas have been thoroughly ventilated.

For use in unoccupied aircraft only, for control of mosquitoes, house flies, and gnats present in aircraft cabin, crew area, lavatories and flight deck of aircraft. Application is to be made by aerosol delivery from pressurized cans. Use while the aircraft is on the ground and empty of flight crew or passengers prior to embarkation (pre-flight). Before take-off and after loading of all cargo is complete, close all doors, hatches and ventilation openings. Turn off ventilation system.

During application of spray and for 20 minutes after completion of spraying, the aircraft's airconditioning must be switched off. Recirculation fans may be left on if they are essential for operation of the aircraft but should be set at the lowest flow rate.

Overhead and sidewall lockers should be kept open during spraying. Apply at a rate of 35g of product per 100m³ (0.00441 lb. permethrin/can). Spray at arm's length, direct the can towards the open overhead lockers and ceiling, keeping a steady walking pace, no more than one step or one row per second.

Spray all galleys, including those on lower levels, and the lift access. Spray all coat lockers and toilets for 2 seconds each - ensure that toilet seats and baby changing tables are up and not sprayed. Spray the flight deck and all crew rest areas, avoiding bedding, for 3 seconds each. After application, allow the product to dry for a minimum of 10 minutes and then allow the aircraft to ventilate for a minimum of 10 minutes, prior to passengers and crew boarding the aircraft.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Do not store near heat or open flame. Store in cool dry area, away from children.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Handling: Do not puncture or incinerate!

If Empty: This container may be recycled in aerosol recycling centers. At present, there are only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label (DO NOT PUNCTURE!). If recycling option is not available, discard in the trash. If partly filled: Call your local solid waste agency for disposal instructions.
