

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Antimicrobials Division (7510P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

93100-1

Date of Issuance:

8/29/18

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Cu Preserve

Name and Address of Registrant (include ZIP Code):

Abigail Wacek
Consultant for
Ideavillage Products Corporation
155 Route 46 West
Wayne, NJ 07470

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.
2. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No. 93100-1."

Signature of Approving Official:

Eric Miederhoff, Product Manager 31
Regulatory Management Branch I
Antimicrobials Division (7510P)
Office of Pesticide Programs

Date:

8/29/18

3. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 9/22/2017

If you have any questions, please contact Tara Flint via email at flint.tara@epa.gov or Eric Miederhoff at Miederhoff.eric@epa.gov.

PRECAUTIONARY STATEMENTS

WARNING. Hazards to Humans and Domestic Animals. Causes substantial but temporary eye injury. Harmful if swallowed, absorbed through skin, or inhaled. Do not get in eyes or on clothing. Avoid breathing dust. Wear appropriate protective eyewear such as goggles, face shield, or safety glasses. Wear long-sleeved shirt and long pants, socks, shoes and chemical resistant gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Not harmful to septic tanks. Contains no phosphorus.

STORAGE AND DISPOSAL

Do not contaminate food or feed by storage or disposal or cleaning of equipment.

STORAGE: Products must be stored dry at a minimum temperature of 45°F (7°C). Store away from children. Reclose cap tightly after use. Store this product upright in a cool dry area away from direct sunlight and heat to avoid deterioration. In case of spill, sweep spilled material and flood areas with large quantities of water.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Non-refillable container. Do not reuse or refill container. Offer for recycling if available or reconditioning if appropriate or place in trash.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

USE INFORMATION FOR YARNS AND TEXTILES

Cu Preserve is a masterbatch used in the formation of yarns and textiles to impart antimicrobial properties. The Cu Preserve masterbatch may be extruded directly into fibers or mixed with other polymeric materials and then extruded into fibers. Fibers may then be spun into yarn or mixed with other fibers to create a yarn, which may then be knit, woven, or otherwise formed into textile products. No finished product incorporating Cu Preserve may make public health claims related to antimicrobial activity without first obtaining an independent EPA registration of the product for which the claims pertain. When incorporated into treated articles, this product does not protect users of such treated articles, or others, against any disease-causing bacteria, viruses or other disease-causing organisms.

Types of finished products

Final articles may contain Cu Preserve at up to 100% by weight or at least 0.1% by weight when mixed with other fibers.

Household items, towels, sheets, pillow cases, mattress pads, blankets, quilts, bedding, table coverings, napkins, cushion pads, sleeping bags, curtains, draperies, upholstery, wall covering fabrics, automotive and truck upholstery, automotive and truck carpeting, interior liners, garment bags, backpacks, pocketbooks, tote bags, luggage, clothes baskets, laundry bags, storage bags, apparel, support braces, orthotics, joint sleeves (knee, elbow, wrist, foot, ankle, calf, thigh, forearm, upper arm, back), leggings, pants, shirts, shoes, boots, insoles, gloves, belts, outerwear, jackets, coats, aprons, sportswear, sleepwear, stockings, socks, hosiery, caps, robes, undergarments, underwear, bras, thermal underwear, sporting goods textiles, tents, tarps, canvas, ducking, awnings, umbrellas, outdoor upholstery, pool covers, boat covers, RV and auto covers.
