Subject: Notification per PRN 98-10 – Change primary brand name, medical emergency contact, company info, and EPA Reg. No. due to registration transfer
Product Name: ZSCHEM Bentazon Technical
EPA Registration Number: 93653-2
Application Date: November 17, 2022
Decision Number: 589076

Dear Katy DeGroot:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10. The label submitted with the application has been stamped “NOTIFICATION” and placed in our records.

The primary brand name has been changed from “INMES Bentazon Technical” to “**ZSCHEM Bentazon Technical**” and updated in the product record.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance. If you have any questions, please contact me at ondish.mindy@epa.gov or at (202)566-2857.

Sincerely,
