OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

October 15, 2020

Georgia Anastasiou
Agent for INDUSTRIAS LAFOOD S.A. de CV
c/o Lewis and Harris
2461 South Clark Street, Suite 710
Arlington, Virginia 22202

Subject: Notification per PRN 98-10 – Make Minor Changes to Product Label
Product Name: Cuckol Paste
EPA Registration Number: 94261-1
Application Date: May 22, 2020
Decision Number: 566014

Dear Ms. Anastasiou:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, please contact Melody Banks at (703) 305-5413, or by email at Banks.Melody@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Elizabeth Fertich".

Elizabeth Fertich, PM 4

NOTIFICATION

94261-1

PRODUCT OF EL SALVADOR

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

10/15/2020

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wear long-sleeved shirt and long pants, socks and shoes.

FIRST AID

- If swallowed:**
- Call a poison control center or doctor immediately for treatment advice.
 - Have person sip a glass of water if able to swallow.
 - Do not induce vomiting unless told to do so by a poison control center or doctor.
 - Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

For emergency information on product, use, etc., call the National Pesticides Information Center at 1-800-858-7378, 8:00 AM to 12:00PM Pacific time (PT), Monday-Friday. During other times, call the poison control center 1-800-222-1222.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Keep product in a cool location. Store in original container away from food and feedstuffs and out of reach of children.

Pesticide Disposal: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly empty: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

LIMITED TO CRACK AND CREVICE TREATMENTS ONLY

To apply paste: Remove cap and securely screw in plastic tip. Touch tip to surface and squeeze. Paste can be applied only as a line along cracks or crevices. Apply paste only in areas that are not easily accessible to children and pets. Apply paste at a rate of 3 grams/per square foot. After use, remove plastic tip and recap tube after use. Inspect paste after 14 days and reapply if no longer visible. Paste cleans up with a damp paper towel. Discard towel in trash after use.

FOOD AREAS:

(Restaurants, Food Processing and Food Handling Establishments, Dining Rooms, Kitchens, etc.)

Includes areas where food or feed is received, stored, prepared, served, packaged (canning, boxing, or wrapping), handled in an enclosed system and where edible waste is stored. Do not deposit this product on serving surfaces where food and feed stuff are processed or exposed. Do not contaminate exposed surfaces where food contact can occur. Apply behind and under the following: stoves, ovens, refrigerators, freezers,

dishwashers, sinks, counters, shelving, water pipes, around pipe collars, drains, sewers, cracks and crevices of baseboards, in corners of cupboards, cabinets and closets. Remove drawers from chests and cabinets, apply freely into corners of drawer wells. Reapply as necessary. Pack all visible paste into cracks and crevices. Remove excess paste from exposed surfaces using a damp paper towel and dispose into garbage. Do not contaminate food and feed stuffs.

SERVING AREAS:

(Dining Rooms, Mess Halls and other areas where prepared food is served) Apply paste to surfaces such as baseboards, underneath booths and into crack and crevices. Do not contaminate exposed surfaces where food contact can occur.

NON-FOOD AREAS:

(Garbage Rooms, Rest Rooms, Laboratories, Offices, Locker Rooms, Boiler and Equipment Rooms, Garages, Mop Closets and Storage Areas) Apply to cracks and crevices, around baseboards, water and drainpipes, underneath and around sinks, washing machines, and tubs.

Do not apply paste to areas that have recently been sprayed with insecticide, and do not spray insecticide over paste as it may cause the bait to become repellent.

RESISTANCE MANAGEMENT

For resistance management, CUCKOL contains a Group 8D insecticide. Any insect population may contain individuals naturally resistant to CUCKOL and other Group 8D insecticides. The resistant individuals may dominate the insect population if this group of insecticides are used repeatedly in the same areas. Appropriate resistance-management strategies should be followed. To delay insecticide resistance, take the following steps:

- Rotate the use of CUCKOL or other Group 8D insecticides during the year with different groups that control the same pests.
- Adopt an integrated pest management program for insecticides use that includes scouting, uses historical information related to pesticide use, record keeping, and which considers cultural, biological, and other chemical control practices.
- Monitor after application for unexpected target pesticide survival. If the level of survival suggests the presence of resistance, consult with your local university specialist or certified pest control advisor.
- For further information or to report suspected resistance, contact customer service laforindustrias@gmail.com

Claims for front or back panels:

- Easy to use
- For hard-to-reach places such as cracks and crevices

Graphics:

Text to accompany graphic: Apply behind or under kitchen appliances. Apply inside drawers, pantries, under tables and around doors. Apply underneath kitchen sinks, behind washers, and close to drains and trash bins

Text to accompany graphic: Apply under sinks, behind toilets, around drains.

Text to accompany graphic: Do not apply paste to areas that have recently been sprayed with insecticide, and do not spray insecticide over gel as it may cause the bait to become repellent.

Text to accompany graphic: German Cockroaches

Text to accompany graphic: American Cockroaches

Syringe Label for: CUCKOL PASTE

NOTE: DO NOT REMOVE THIS LABEL.
