Office of Pesticide Programs
Antimicrobials Division (7510P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

NOTICE OF PESTICIDE:

☒ Registration

☐ Reregistration

(under FIFRA, as amended)

EPA Reg. Number:

94602-54

Date of Issuance:

10/7/25

Term of Issuance:

Conditional

Name of Pesticide Product:

GBS RTU Concentrate

Name and Address of Registrant (include ZIP Code):

Natasha Hall
Gray Beard, LLC
Electronic Transmittal: natasha.hall@greybeardllc.com

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Luisa Samalot, Product Manager 31
RMBI, Antimicrobials Division (7510P)

Date:

10/7/25

2. You are required to comply with the data requirements described in the DCI or EDSP Order identified below:

- a. Didecyl dimethyl ammonium chloride - GDCI-0069149-30869 and GDCI-069149-0681
- b. Alkyl (40% C12, 50% C14, 10% C16) dimethyl benzyl ammonium chlorides - GDCI-069105-30882 and GDCI-069105-1679

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI or EDSP Order listed above, you may contact the Reevaluation Team Leader (Team 36): <https://www.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobials-division>

3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No. 94602-54."
4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 02/20/2025
- Alternate CSF 1 dated 02/20/2025
- Alternate CSF 2 dated 02/20/2025
- Alternate CSF 3 dated 02/20/2025
- Alternate CSF 4 dated 02/20/2025
- Alternate CSF 5 dated 02/20/2025
- Alternate CSF 6 dated 02/20/2025

GBS RTU Concentrate

EPA Reg. No. 94602-
EPA Est. No

(Note to Reviewer: Marketing claims may be used on the front panel.)

ACTIVE INGREDIENTS:

Didecyl dimethyl ammonium chloride 1.568%
Alkyl (40% C12, 50% C14, 10% C16)
dimethyl benzyl ammonium chlorides 1.045%

OTHER INGREDIENTS: 97.387%

TOTAL: 100.000%

{Weight Approx. 8.68 lbs./gallon}

KEEP OUT OF REACH OF CHILDREN DANGER {PELIGRO}

{See [{left} {back} {side} {right} {insert} {panel} {of label}] {below}} for {additional}
{precautionary statements}}.

(Note to Reviewer: In accordance with 40 CFR 156.68(d), all first aid statements, as prescribed, will appear on the front panel of the product label.)

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

GENERAL INFORMATION: Have the product container or label with you when calling a poison control center or doctor or going for treatment. For non-emergency and general information on product use, etc., information pertaining to this product, call the National Pesticides Information Center (NPIC) at 1-800-858-7378, Monday – Friday, 8:00 am – 12:00 pm Pacific Time; email: npic@ace.orst.edu; or web site: www.npic.orst.edu. For emergencies, call the Poison Control Center 1-800-222-1222.

{For [{chemical} {and} {or} {medical} {and} {or} {environmental}] emergencies, call {insert number of emergency contact} {hours of operation} {24 hours a day} {7 days a week}}.

(Note to Reviewer: This referral statement may be organized in any order to be grammatically correct.)

- Refer to the {**insert applicator/sprayer name**} -and/or- user manual -or- safety data sheet {SDS} for [{more information} {any additional PPE}].
- {This product} will not harm most surfaces: including acrylic, sealed fiberglass and vinyl.
- **Do not use on unpainted wood.**
- Assembled in {the} [{USA} {America}]
- Clear formula. (Note to Reviewer: To be used only when no dyes are present.)

{DISINFECTION CLAIMS} {Hard Non-Porous Surfaces}

(Note to Reviewer: The following marketing claims may be used with the prefix “This product {is}”.)

- Efficacy Tests Have Demonstrated That {This Product} Is An Effective Bactericide And Virucide In The Presence Of [{Organic Soil} {5% Blood Serum}] {When Diluted In 200 ppm Hard Water.}
- Kills 99.9% of Viruses* {Bacteria} {and} {Fungi} {on hard, non-porous {household} surfaces}
- Kills 99.9% of Germs
- Disinfects {household}, {kitchen} and/or {bathroom} bacteria^
- Kills H1N1 Influenza A virus {formerly called swine flu}

- Kills Flu Virus**
- {2 in 1} {Antibacterial} {Disinfecting} and cleaning {in one-step[†]} {in one product}
- Antibacterial formula cleans and {disinfects} {sanitizes} in one step[†]
- {Clean} and {Sanitize} and {Disinfect} hard, non-porous surfaces {in any room in the house} {throughout the house}
- {Clean} and {Sanitize} and {Disinfect} any hard, non-porous surface in any room in the house
- Cleans, {sanitizes} {disinfects} and deodorizes
- Effective in {sanitizing} {disinfecting} your {kitchen} {bathroom} hard non-porous surfaces
- Effective in sanitizing your {kitchen} {bathroom} soft surfaces
- Ideal for cleaning and {sanitizing} {disinfecting} any hard, non-porous surface
- Kills common {household} {kitchen} {bathroom} bacteria[^]
- The smart way to clean and {sanitize} and/or {disinfect}
- {This product} is bactericidal in the presence of [{organic soil} {5% {blood} serum}] {and} {200 ppm hard water} against *Salmonella enterica* {(ATCC 10708)}, *Pseudomonas aeruginosa* {(ATCC 15442)}, *Staphylococcus aureus* {(Staph)} {(ATCC 6538)}, Methicillin Resistant *Staphylococcus aureus* {(MRSA)} {(ATCC 33591)} and Vancomycin Resistant *Enterococcus faecium* {(VRE)} {(ATCC 51559)} at a 1-minute contact time.
- The antibacterial formula cleans and disinfects in one step[†]. May be used in the kitchen on counters, sinks, appliances, and room-temperature stovetops. A rinse with potable water is required for surfaces in direct contact with food. In addition, this product deodorizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, basements, restrooms and other areas which are prone to odors caused by microorganisms.
- {This product} cleans and/or disinfects and/or deodorizes.
- Disinfects in {just} 1 minute.
- Leaves hard, non-porous surfaces disinfected.
- One step[†] {cleaning} and /or {disinfecting} and/or {deodorizing}.
- When used as directed, {this product} {contains 3,200 ppm of active germicide making it} {is} effective against {a} {broad-spectrum} {of} microorganisms {including bacteria, antibiotic resistant bacteria and viruses.}
- {This product} is a one-step[†] {hospital-use} germicidal {disinfectant} and [{deodorant} {odor-counteractant} {odor neutralizer}] designed for general cleaning, {and} disinfecting {deodorizing} {of} hard, non-porous inanimate surfaces.
- Quickly cleans dirt, grime, food residue, blood and other organic matter commonly found in hospitals {and} {health care facilities} {on medical surfaces}. It {also} eliminates odors leaving {restroom} surfaces smelling clean and fresh. Use where odors are a problem.
- Use in {public restrooms} {Laundromats} {camp sites} {pet areas} {hotels} {motels} {lodging establishments} {manufacturing facilities} {factories} {offices} {office buildings} wherever {sanitizing} {disinfecting} is important
- {This Product} {Kills} {is} {Effective against} {Eliminates 99.9%} {of} {has demonstrated effectiveness against} SARS-CoV-2, the virus that causes COVID-19[™] on hard non-porous surfaces {in} {just} [{1 minute} {60 seconds}] {!}
- [{Kills {99.9% of}} {is} Effective against} {Eliminates 99.9% of} {has demonstrated effectiveness against}] SARS-CoV-2 {Virus} [{the virus that causes} {which causes} {the causative agent of} [{COVID-19[™] Virus {illness}} {Coronavirus} {/} on hard, non-porous surfaces {in} {just} [{1 minute} {60 seconds}]
- Disinfects hard, non-porous surfaces by killing 99.9% of SARS-CoV-2 {Virus} {,} [{which causes} {causative agent of} {the virus that causes} [{COVID-19[™] Virus} {/} {in} {just} [{1 minute} {60 seconds} {One Step}]] {!}
- Kills {insert virus* name from approved organism listing for this product}.
- When used as directed, this product is a concentrated Hospital Use disinfectant that is an effective broad-spectrum bactericide and virucide*.
- For use as a hard, non-porous surface hospital disinfectant at 3,200 ppm active quaternary
- Use this product for Swine Premise Disinfection on hard, non-porous surfaces: Waterers and Feeders, Hauling Equipment, Dressing Plants, Loading Equipment, Farrowing Barns and Areas, Nursery, Blocks, Creep Area, Chutes.
- Cleans and disinfects hard, non-porous, non-medical {e.g. industrial and firefighting} respirators in industrial, commercial, and institutional premises.
- Cleans, sanitizes, and disinfects hard, non-porous ambulance equipment and surfaces.
- Is a multi-purpose cleaner, deodorizer, and disinfectant.
- Is a one-step {detergent} {hospital-use} disinfectant designed for disinfecting {and controlling mold and mildew on} {of} hard, non-porous non-food contact surfaces when used according to disinfection directions for use.
- Is a {hospital-use} disinfectant cleaner [{and} [{deodorant} {odor-counteractant} {odor neutralizer}]] designed for general cleaning, {and} disinfecting, {deodorizing} {and controlling mold and mildew on} {of} hard, non-porous non-food contact surfaces.
- Is a phosphate-free formulation designed to provide effective cleaning, deodorizing, and disinfection in areas where housekeeping is of prime importance in reducing cross-contamination between treated hard, non-porous surfaces.

- Is an effective {bactericide} {and} {virucide*} {disinfectant} in the presence of [{organic soil} {5% {blood} serum}].
- Is designed to provide both general cleaning and disinfection.
- Is for use as a disinfectant on hard, non-porous non-food contact surfaces {at 3,200 ppm active}.

^against the organisms listed on this label

‡follow disinfection use directions

{SANITIZATION CLAIMS} {Hard Non-Porous Surfaces}

(Note to Reviewer: The following marketing claims may be used with the prefix "This product {is}").

- Kills 99.9% of Bacteria in {just} 5 Seconds (!)
- 99.9% effective in 5 seconds against *Staphylococcus aureus* {Staph} {(ATCC 6538)}, *Klebsiella pneumoniae* {(ATCC 4352)}
- Kills 99.9% of *Staphylococcus aureus* {Staph} {(ATCC 6538)}, *Klebsiella pneumoniae* {the organism that may cause pneumonia} {(ATCC 4352)} {on (insert use site from table)} on hard non-porous surfaces in {just} 5 seconds{!}

SOFT SURFACE {SANITIZATION} {CLAIMS} {Composed of 100% cotton or 100% polyester or 50/50 cotton/polyester} {DEODORIZING} {CLEANING} {CLAIMS}

- A proven sanitizer on soft surfaces as a spot treatment
- An effective soft surface sanitizer as a spot treatment
- Cost effective solution to sanitizing -or- laundering -or- dry cleaning hospital curtains as a spot treatment
- Great for use on soft surfaces such as blinds, beddings, {blankets, chairs, couches, curtains, drapes, exercise mats, fabric{s}∞, gym bags, headrests, linens, mats {for day care}, mattresses, seat-and/or-soft cushions, shades, sheets, sofas, sports equipment {lining}, towels, armchairs, upholstered furniture, upholstery, washcloth, and window treatments as a spot treatment.
- Kills 99.9% of bacteria on {hospital} soft surfaces, fabric∞, blinds, beddings, {blankets, chairs, couches, curtains, drapes, exercise mats, fabric{s}∞, gym bags, headrests, linens, mats {for day care}, mattresses, seat-and/or-soft cushions, shades, sheets, sofas, sports equipment {lining}, towels, armchairs, upholstered furniture, upholstery, washcloth, and window treatments as a spot treatment.
- One-step cleaner sanitizer on soft surfaces.
- {Removes} {and} {or} {Eliminates} odors by killing odor-causing bacteria on {soft surfaces} {fabrics∞} {blinds} {bedding} {blankets} {chairs} {couches} {curtains} {drapes} {exercise mats} {fabric{s}∞} {gym bags} {headrests} {linens} {mats} {for day care} {mattresses} {seats} {and} {or} {soft cushions} {shades} {sheets} {sofas} {sports equipment} {lining} {towels} {armchairs} {upholstered furniture} {upholstery} {washcloth} and {window treatments} as a spot treatment.
- Sanitizes by killing *Klebsiella aerogenes* and *Staphylococcus aureus* on soft surfaces in 30 seconds as a spot treatment.
- Sanitizes fabric∞ {and} {or} {soft surfaces} {fabrics∞} {blinds} {bedding} {blankets} {chairs} {couches} {curtains} {drapes} {exercise mats} {fabric{s}∞} {gym bags} {headrests} {linens} {mats} {for day care} {mattresses} {seats} {and} {or} {soft cushions} {shades} {sheets} {sofas} {sports equipment} {lining} {towels} {armchairs} {upholstered furniture} {upholstery} {washcloth} and {window treatments} as a spot treatment.
- {This product} is formulated to clean, deodorize, and sanitize automobile interior such as {soft surfaces} {car seats} {headrests} {seat belts} {upholstery} {floor mats} {in 30 seconds}.
- Sanitizes soft surfaces in one step.
- Sanitizes soft surfaces as a spot treatment {in 30 seconds}.
- Sanitizes and freshens soft surfaces {fabrics∞}
- Effective antibacterial fabric∞ and soft surface spot treatment spray
- Sanitizer for use on soft surfaces as a spot treatment
- Multi-room sanitizer {proven} {tested} for everyday use as a spot treatment on {soft surfaces} {fabrics∞} {household fabrics∞}
- An effective {sanitizer} {deodorizer} for {spot treatment of soft surfaces}
- An effective {soft surface} sanitizer {for fabrics∞} as a spot treatment {for use on} {in} {fabrics∞} {soft surfaces} {household fabrics∞} {daily wear fabrics∞} {every day fabrics∞} {clothes} {shoes} {socks}
- Can be used as a spot treatment {on} {to} {sanitize} {sanitization} {of} {soft surfaces} {fabrics∞}
- Great for use as a {soft surfaces} {household fabrics∞} {daily wear fabrics∞} {everyday fabrics∞} {clothes} {shoes} {socks} {fabrics∞} spot treatment sanitizer
- {This product} sanitizes {soft surfaces} fabric∞ surfaces as a spot treatment
- Sanitizes {soft surfaces} {fabrics∞} in the {kitchen} {bathroom} {bedroom} {basement} {hallways} {restroom} {household} {away from home} {all around the house} {man cave} {30 seconds} for spot treatment {to eliminate odors caused by bacteria}

- Formulated to {remove} {kill} {get rid of} 99.9% of bacteria as a spot treatment on {fabrics[∞]} {soft surfaces} {household fabrics[∞]} {daily wear fabrics[∞]} {everyday fabrics[∞]} {clothes} {shoes} {socks} {Can be used} {Use} {on} {to} {kill} {sanitize} {99.9%} {of} bacteria as a spot treatment on {soft surfaces} {fabrics[∞]}
- Eliminates odor in your household fabrics[∞] {surface of rugs} {upholstery} {furniture} {drapes} {curtains} {soft surfaces} {mattress} {bedding} {clothing} {closets} {clothes hampers} {auto seats} {to leave your home smelling clean and fresh} {shoes} {socks} {gym bag} as a spot treatment by killing bacteria at their source
- Removes {get rid of} {reduces} 99.9% bacteria from a variety of sources on {soft surfaces} {fabrics[∞]} {household fabrics[∞]} as a spot treatment
- Kills 99.9% and controls the growth of common bacteria as a spot treatment {on} {soft surfaces} {fabrics[∞]} {household fabrics[∞]}
- Kills {99.9 % of} odor causing bacteria {on} {soft surfaces} {fabrics[∞]} {household fabrics[∞]} as a spot treatment
- Kills 99.9 % of bacteria that cause odors {on} {soft surfaces} {fabrics[∞]} {household fabrics[∞]} as a spot treatment
- Kills {destroys} {reduces} 99.9% of bacteria {household bacteria^} on {soft surfaces} {fabrics[∞]} {clothes} {household fabrics[∞]} as a spot treatment
- Kills 99.9% bacteria as a spot treatment on {surface of rugs} {upholstery} {furniture} {mattresses} {bedding} {pillows}
- Keep fabrics[∞] {soft surfaces} smelling fresher longer by killing 99.9% of bacteria that cause odors
- Eliminates odors on your bathmat and the bacteria that cause it as a spot treatment
- In 30 seconds, kills 99.9% of bacteria as a spot treatment on {soft surfaces} {fabrics[∞]} {household fabrics[∞]}
- Effective against *E. coli* and *Staphylococcus* {*Staphylococcus aureus*} as a spot treatment {on} {soft surfaces} {fabrics[∞]} {household fabrics[∞]}
- Kills 99.9% of Staph {*Staphylococcus aureus*} {*Staph aureus*} and {*Klebsiella aerogenes*} as a spot treatment on {soft surfaces} {fabrics[∞]} {everyday fabrics[∞]} in 30 seconds
- Kills 99.9% of Staph {*Staphylococcus aureus*} as a spot treatment on {fabrics[∞]} {soft surface} {household fabrics[∞]} {daily wear fabrics[∞]} {everyday fabrics[∞]} {clothes} {shoes} {socks}
- Use as a spot treatment on {soft surfaces} {fabrics[∞]} where bacteria can linger {dwell}, leaving behind a light fresh scent of clean}
- Helps reduce bacteria transfers between treated {sheets} {pillows} {towels} {mats} {couch} {curtains} {fabrics[∞]} {rugs} {blankets} to hands {feet} {face} {fingers} as a spot treatment
- An effective treatment solution that does not harm fabrics[∞] and kills bacteria.
- Use when you travel {on your suitcases, clothes} to kill 99.9% of bacteria as a spot treatment
- Use as a spot treatment on movie theater seats {hotel mattresses} {gym mats} {rental cars} to kill 99.9% of bacteria
- Spray on your fabrics[∞] as a spot treatment to get rid 99.9% of the bacteria and the smell.
- Sanitizes and freshens hard to wash fabrics[∞]
- Reduces odor-causing bacteria on {soft surfaces} as a spot treatment
- Kills {Removes} 99.9% of bacteria as a spot treatment {on} {curtains} {mats} {couches} {fabrics[∞]} {towels}
- Sanitize{s} {deodorize} {freshen} {Kills 99.9% of} {Eliminate 99.9% of} bacteria {body soils} on {mattresses} {bedding} {comforters} {futon}s {leaving behind a {light} {sunny} {sun dried} {Fresh} {clean} {new} {scent} {fragrance}}
- Kills bacteria as a spot treatment that cause odors leaving your home {business} smelling {fresh} {clean} {pleasant}
- {Kills} {eliminates} 99.9% of {household} {environmental} bacteria^ as a spot treatment
- Helps reduce bacteria transfers between shared items such as {insert Soft Surface from Use Site Table}
- Kills 99.9% of bacteria as a spot treatment on all your "unwashables" leaving behind the just washed scent of clean
- Kills 99.9% of bacteria and freshens fabrics[∞] and surfaces with every spray
- Effective on bacteria and gentle on your fabric[∞]

MILDEWSTAT CLAIMS

- Use this product on multi-touch, hard, non-porous surfaces responsible for cross-contamination. This product is effective at controlling mold and mildew odor on plastic shower curtains.

DEODORIZING & CLEANING CLAIMS

- Cleaning made easy for all your hard, non-porous surfaces
- Cleans and cuts grease
- Cleans tough stains
- Cleans without scratching your surfaces
- Cuts through tough grime
- Cuts grease {and} {&} tough grime
- Easy Cleaning {around the house}
- Easy to use
- Effective against odor-causing bacteria

- Effective daily use
- Eliminates odors
- Fast and easy way to clean
- Fast and effective cleaning
- For all non-porous household surfaces
- For all your {heavy} {light} duty cleaning jobs
- {Handles} {good for} {can be used for} up to X {clean-ups} {occurrences} {spills}
- Great for on-the-go cleaning
- Leaves a clean, fresh scent
- Leaves your {bathroom} {kitchen} fresh and clean
- One-step cleaning
- Quick and easy clean-ups
- Quick cleaning
- Eliminates odors and freshens
- Deodorizes
- Eliminates odor{s} at source
- Do away with {odors} {bad smells}
- {Refreshens} {Freshens} soft surfaces {by eliminating odors}
- Eliminates your toughest {household} {business} odors
- Eliminates more types of odors
- Fabric {soft surface} odor eliminator {works on soft surfaces}
- Hard surface odor eliminator {works on} {hard surfaces}
- Eliminates odors {trapped deep inside fibers, ensuring odors won't come back}
- Prevent odor build-up in carpets} {rugs} {upholstery} {furniture} {drapes} {curtains} {fabric} {kitchen} {bathroom} {garbage pails} {mattresses} {clothing} {pet beds} {sofas} {couches} {window treatments} {gym bags} {chairs}
- Eliminates {Removes} {the} {those} {tough{est}} {deep down} {locked in} {trapped} odors on {carpets} {rugs} {towels} {floors} {mats} that the vacuum leaves behind
- Eliminates {reduces} the need to re-wash {line dried} {sun dried} {hung up} {laundry} {clothing} {fabrics} by {killing} {eliminating} odor causing {mold} {and} {or} {mildew} {at the source} {trapped in fabrics}
- Eliminates body {foot} {sweat} {perspiration} {sports equipment} {pet} {dog} {bacon grease} {chicken wings} {popcorn} {smoke} {cigarette} {wood} {mold} {mildew} {musty} {stale} {fish} {garlic} {sour milk} {baby spit up} odors on fabrics
- Proven to eliminate pet, smoke, bathroom, kitchen, mold and mildew, and body odor while leaving behind a fresh scent
- Eliminates body {foot} {sweat} {perspiration} {sports equipment} {pet} {dog} {bacon grease} {chicken wings} {popcorn} {smoke} {cigarette} {wood}{mold} {mildew} {musty} {stale} {fish} {garlic} {bathroom} odors in air
- Eliminate{s} {stinky feet} {worn sock} {body} {stale} {outside} {embedded} {foul} {tough}{strong} {dangerous} odors from {carpets} {rugs} {mat} {throws} {pillows} {sheets} {soft surfaces} {with every spray}
- Eliminates smoke odors {even on clothing}
- Effective against smoke odors
- Designed to eliminate smoke odors
- Penetrates deep to eliminate odors at the source
- Penetrates {deeply} {into fabrics/carpets/rugs upholstery/furniture/drapes /pet beds/sofas/chairs} to eliminate odors {where they reside} {at their source}
- Eliminates the stale odors caused by bacteria

FRESHENING CLAIMS

- Freshens
- For a noticeably fresh {home} {business}, spray fabrics, carpets, and air all around your {home} {business}.
- For a noticeable freshness, spray in a sweeping motion over fabric items all around your {home} {business}.
- Brings fabrics back to fresh
- Freshens fabrics, carpets, and air
- Leaves a light pleasant fragrance {in your home} {in any room} {in your business} {away from home}
- Leaves your air smelling clean and fresh
- Makes your {home} {business} a fresher place {to be}
- Makes even hard to clean fabrics smell fresher longer
- Aroma therapy for your carpets and upholstery
- Revitalizing scents for your carpet and upholstery

- Makes your {home} {business} feel good
- Scent lingers to provide long lasting freshness
- Lined dried freshness
- Just washed freshness for your carpets and other soft surfaces
- Light fresh scent
- Longer lasting freshness over time
- Perfect for eliminating {your} {toughest} odors at the source!
- Prevents odors at the source.

Use [{on} {to clean and disinfect}] hard, non-porous athletic mats, wrestling mats, gymnastic mats, exercise equipment and training tables.

Use [{on} {to clean and disinfect}] hard, non-porous personal protective safety equipment, wrestling headgear, boxing headgear, protective headgear, athletic helmets, hard hats, half mask respirators, full face breathing apparatus, gas masks, goggles, spectacles, face shields, hearing protectors, and ear muffs. Rinse all equipment that comes in prolonged contact with skin with warm water and allow to air dry before reuse. {Precaution: Cleaning at 120°F. temperature will avoid overheating and distortion of the personal safety equipment that would necessitate replacement.}

Cross-contamination is of major {housekeeping} {food safety} concern. This product has been formulated to aid in the reduction of cross-contamination between treated hard, non-porous surfaces not only in hospitals, but in schools, institutions, and industry.

This product is a concentrated one-step {Hospital} disinfectant that is effective against a broad spectrum of bacteria, is virucidal*, and eliminates odor-causing bacteria when used according to disinfection directions for use.

ALLERGEN REMOVAL CLAIMS:

{Reduces dust mite matter – or – particles}, {cockroach matter – or – particles}, {and pet dander allergens}.

Reduces Allergens{!}

Removes Allergens

Removes allergen from your home

{Removes} {Reduces} cockroach matter – or – particles

{Removes} {Reduces} dust mite matter – or - particles

{Removes} {Reduces} Pet dander - or – dog and cat dander

Reduces allergy-causing particles, such as {pet dander}, {and} {dust mite matter}

No rinse Pet dander – or – dog and cat dander eliminator

Allergen remover

{Removes} {Reduces} allergen {from} {your} {the} {home}

{Removes} {Reduces} allergy-casing particles {such as} [{pert} {dog} {cat} dander} {dust mite matter}]

Great for people who suffer from allergies and asthma.

NON-FOOD CONTACT SURFACE SANITIZATION		
This product is an effective one-step non-food contact sanitizer in 5 seconds at 16 fl. oz. per gal of 200 ppm hard water {(3,200 ppm active)} and 5% soil on hard, non-porous surfaces:		
<i>Klebsiella aerogenes</i>	{ATCC 13048}	5 seconds
<i>Staphylococcus aureus</i>	{ATCC 6538}	5 seconds
SOFT SURFACE SANITIZATION		
This product is an effective one-step soft surface sanitizer in 30 seconds at 16 fl. oz. per gal of 200 ppm hard water {(3,200 ppm active)} and 5% soil on surfaces composed of 100% cotton or 100% polyester or 50/50 cotton/polyester:		
<i>Klebsiella aerogenes</i>	{ATCC13048}	30 seconds
<i>Staphylococcus aureus</i>	{ATCC 6538}	30 seconds
MILDEW-FUNGISTATIC TEST		
This product controls the following organism at 16 fl. oz. per gal. of 200 ppm hard water and 5% soil		
<i>Aspergillus niger</i>	{ATCC 6275}	For 7 days
FUNGICIDE		
This product controls the following organism at 16 fl. oz. per gal. of 200 ppm hard water and 5% soil:		
<i>Trichophyton interdigitale</i>	{ATCC 9533}	5 minutes

(Note to Reviewer: The list of organisms can be formatted into paragraph form using a comma to separate organisms.)

(Note to Reviewer {General Considerations): Numbered instructions will be used if label space permits, otherwise they may appear in paragraph format. The list of organisms can be formatted into paragraph form using a comma to separate organisms. Unit abbreviations can be spelled out. Note symbols such as asterisks (*) may be replaced with equivalent symbols based on printing needs. When choosing optional text, appropriate punctuation can be inserted or deleted. Equivalent use dilution ratios may be substituted within the directions.)

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

{Please read entire label and use strictly in accordance with precautionary statements and directions.}

{This product is not for use on medical device surfaces}

{A potable water rinse is required for surfaces in direct contact with food.}

(Note to Reviewer: For labels that list hospital use sites, the following statement must be used.)

This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or, (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. {This product can be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.}

(Note to Reviewer: The following statement is to be used if any food premise locations are listed on the final label.)

{Before using this product {in federally inspected meat and poultry food processing plants and dairies}, food products and packaging materials must be removed from the room or carefully protected.}

GENERAL CLEANING: Mix use solution of 8 - 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} Spray soiled area then wipe with a dry paper towel or lint-free cloth.

GENERAL DEODORIZATION: To deodorize, apply 8 - 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} to hard, non-porous surfaces. [{Rinse} {Wipe up excess liquid {with a paper towel}} {and} {or} {Allow to air dry}].

AIR FRESHENER: A solution of 8 - 16 fl. oz. of this product per gal. of water will effectively neutralize {damp} {musty} odors caused by mildew in storage areas, basements, closets, bathrooms, and A/C filters. Spray with a coarse spray device to eliminate odors from tobacco, food, beverage spills, and musty carpet. [{Wipe up excess liquid {with a paper towel}} {and} {or} {Allow surface to air dry}]. (Not a use registered by CA.)

FOR DEODORIZING GARBAGE CANS, INDUSTRIAL WASTE RECEPTACLES AND GARBAGE HANDLING EQUIPMENT: It is especially important to pre-clean for this product to perform properly. Apply a wetting concentration of 8 - 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)}

FOR ODORS CAUSED BY DOGS, CATS AND OTHER DOMESTIC ANIMALS: Use on rugs, floors, walls, tile, cages, litter boxes, mats, floor coverings, or any surface soiled by a pet. Test a small inconspicuous area first. Blot problem area. Then follow directions for "General Deodorization".

ALLERGEN REMOVER: To {clean and} reduce specific allergens, apply use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} to hard, non-porous non-food contact surfaces with a {refillable spray bottle} {mechanical spray device} {cord-less backpack sprayer} {cord-less handheld sprayer} {trigger spray} {handheld mechanical sprayer} {applicator/sprayer name}. Hold sprayer six to eight inches from the surface to be treated. Spray area until it is covered with the product. Allow surface to remain visibly wet for 1 minute. Allow treated surfaces to air dry or wipe off with a clean [{cloth} {mop} {sponge}].

{Paragraph format}

DISINFECTING, *VIRUCIDAL {, DEODORIZING}: Remove visible filth or soil prior to application of this product. Apply use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} to hard, non-porous non-food contact surfaces with a [{refillable spray bottle} {mechanical spray device} {cord-less backpack sprayer} {cord-less handheld sprayer} {trigger spray} {handheld mechanical sprayer} {applicator/sprayer name}]. Hold sprayer 6 – 8 inches from the surface to be treated. Spray area until it is covered with the product. Allow surface to remain visibly wet for 1 minute. No scrubbing necessary. Allow treated surfaces to air dry or wipe off with a clean {cloth} {mop} {sponge}. When using on food contact surfaces: counter tops, room-temperature stovetops, highchairs, kitchen appliances, thoroughly rinse all treated surfaces with potable {tap} water. This product must not be used to clean eating utensils, glassware and dishes. {This product is an effective disinfectant against: (Insert bacteria/*Virucide from Micro-Organisms table).}

{Alternate Numbered Format}

{A} {One-Step} {General} {Hospital} {Medical} Disinfectant {Virucide*} {Deodorizer} {Cleaner} when used as follows:

1. [{For visibly soiled areas, a preliminary cleaning is required.} {For visibly soiled areas, preclean first.}]
2. Apply use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} to disinfect hard, non-porous non-food contact surfaces with a [{mechanical spray device,} {or} {{{hand pump} {coarse}} trigger spray device}]. Spray 6 – 8 inches from surface. Do not breathe spray.
3. Treated surfaces must remain visibly wet for 1 minute.
4. [{Wipe dry} {with a clean cloth} {or} {allow to air dry}]. {Rinsing of floors is not necessary unless they are to be waxed or polished}
5. Prepare a fresh solution daily or when visibly dirty.
6. {This product is an effective disinfectant against: (Insert bacteria/*Virucide from Micro-Organisms table).}

(Required if making virucidal claims vs. blood borne pathogens: HIV-1, HCV, HBV)

{Bloodborne Pathogen Instructions:} (Note to reviewer: Heading is optional. If instructions used, all indented text must be included.)

***Kills HIV, HBV And HCV On Pre-Cleaned Hard, Non-Porous Surfaces/Objects Previously Soiled With Blood/Body Fluids** in health care settings or other settings in which there is an expected likelihood of soiling of hard, non-porous surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 {(HIV-1)} {(associated with AIDS)}, Hepatitis B Virus {(HBV)} and Hepatitis C Virus {(HCV)}.

Special Instructions For Cleaning And Decontamination Against HIV-1, HBV And HCV On Surfaces/Objects Soiled With Blood/Body Fluids.

Personal Protection: [{Wear protective latex gloves, gowns, masks, and eye protection} Specific barrier protection items to be worn when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks, and eye protection}].

Cleaning Procedure: Blood and other body fluids {containing HIV-1, HBV & HCV} must be thoroughly cleaned from hard, non-porous surfaces and objects before application of this product.

Disposal of Infectious Materials: Blood and other body fluids, cleaning materials and clothing must be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal.

Contact Time: Allow hard, non-porous surface to remain visibly wet for 1 minute.

MILDEWSTAT: To control mold and mildew {*Aspergillus niger*} on pre-cleaned, hard, non-porous surfaces apply use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)}. Spray surface to be treated making sure to wet completely. Let air dry. Repeat application at weekly intervals or when mildew growth appears.

FUNGICIDAL: Remove visible filth or soil prior to application of this product. Apply use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} to hard, non-porous non-food contact surfaces with a [{refillable spray bottle} {mechanical spray device} {cord-less backpack sprayer} {cord-less handheld sprayer} {trigger spray} {handheld mechanical sprayer} {applicator/sprayer name}]. Hold sprayer 6 – 8 inches from the surface to be treated. Spray area until it is covered with the product. Allow surface to remain visibly wet for 5 minutes. No scrubbing necessary. Allow treated surfaces to air dry or wipe off with a clean {cloth} {mop} {sponge}.

SANITIZE NON-FOOD CONTACT SURFACES {AND DEODORIZE}: To sanitize{/deodorize} hard, non-porous surfaces, apply use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} Spray surface to be treated by holding container six to eight inches from the surface. Spray area until it is covered with the product. Allow surface to remain visibly wet for 5 seconds. Let surface dry. For visibly soiled surfaces, a precleaning step is required. {This product is an effective sanitizer against *Staphylococcus aureus* {(Staph)} {(ATCC 6538)} and *Klebsiella aerogenes* {(ATCC 13048)}}.

SOFT SURFACE SANITIZATION: To Sanitize [{Soft Surfaces} {Fabrics[∞]}: Apply use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} Spray surface to be treated by holding bottle upright 6" – 8" from surface. Spray until fabric[∞] is wet. DO NOT SATURATE. Surface must remain visibly wet for 30 seconds. Allow to air dry. {For difficult odors or heavy fabrics[∞], repeat application.} {Reapply as necessary.} Visible soil must be removed prior to sanitizing. {This product is an effective sanitizer against *Klebsiella aerogenes* {(ATCC 13048)} and *Staphylococcus aureus* {(ATCC 6538)} in 5 seconds}.

For first time use on soft surfaces, spot test in a small, inconspicuous area {and check with manufacture care guide before use}.

[∞]100% cotton, 100% polyester or 50/50 cotton/polyester

TO CONTROL -AND/OR- ELIMINATE ODOR-CAUSING BACTERIA ON {{Soft Surfaces} {Fabrics}} {composed of 100% cotton, 100% polyester or 50/50 cotton/polyester}: Apply use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} Spray surface to be treated by holding bottle upright 6" – 8" from surface. Spray until fabric is wet. DO NOT SATURATE. Surface must remain visibly wet for 30 seconds. Allow to air dry. {For difficult odors or heavy fabrics, repeat application.} {Reapply as necessary.} Visible soil must be removed prior to application.

SITE AND APPLICATION SPECIFIC CLAIMS, USES AND APPLICATIONS

{Additional Claims}:

ANIMAL HOUSING FACILITIES {AND POULTRY AND SWINE PREMISES}: This product removes dirt, grime, blood, urine, fecal matter and other common soils found in animal housing facilities, grooming facilities, kennels, pet stores, veterinary clinics, laboratories or other small animal facilities. It {also} eliminates odors leaving surfaces smelling clean and fresh. It cleans, disinfects and deodorizes hard, non-porous inanimate surfaces in one step. Its non-abrasive formula is designed for use on {Use daily on} {Use daily to clean and disinfect} hard, non-porous inanimate surfaces: plated or stainless steel, aluminum, chrome, glazed porcelain, glazed tile, laminated surfaces associated with floors, walls, countertops, cages, crates, kennels, and animal equipment found in animal housing facilities.

PUBLIC RESTROOMS: This product is a one-step[†] disinfectant cleaner and deodorant {odor-counteractant} {odor-neutralizer} designed for general cleaning, {and} {disinfecting} {deodorizing} on hard, non-porous inanimate surfaces. It cleans, disinfects and deodorizes surfaces by killing odor-causing microorganisms. Its non-abrasive formula is designed for use on {restroom surfaces}: glazed ceramic {restroom surfaces}, glazed porcelain, chrome, stainless steel and plastic surfaces associated with floors, walls, fixtures, toilets, urinals, sinks, shower rooms and locker rooms.

NON-ACID BOWL (& BATHROOM) DISINFECTANT CLEANER: This product is {also} a {ready-to-use} non-acid {bowl and} bathroom cleaner that cleans, disinfects and deodorizes in one easy step. It cleans, disinfects and deodorizes toilet bowls and urinals above the waterline, rims, sinks, sink basins, faucets, tubs, glazed tiles, glazed ceramic, glazed porcelain, chrome, stainless steel, and all non-porous inanimate surfaces found in the bathroom {restroom} {in the presence of organic soil}.

It eliminates odors, leaving bathrooms {restrooms} smelling clean and fresh. Use where odors are a problem. It cleans, disinfects, and deodorizes surfaces by killing odor-causing microorganisms. Its non-abrasive formula is designed for use {Use it daily} on {restroom surfaces}: glass, glazed ceramic {restroom surfaces}, glazed tile, glazed porcelain, chrome, stainless steel, and plastic surfaces associated with floors, walls, fixtures, toilets, urinals, sinks, shower rooms, and locker rooms.

(Additional Directions for Use)

ONE-STEP CLEANING AND DISINFECTING OF TOILET BOWL AND URINAL DRY SURFACES: Remove water from bowl by forcing water over the trap with swab mop applicator. Press swab mop against side of the bowl to remove excess water from applicator. Mix a use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)}. Spray 1 to 2 ounces of this use solution evenly across bowl surface, allowing sufficient time for the product to cover entire surface for maximum cleaning. Swab bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand for 1 minute and flush. Only apply this product above the waterline.

CLEANING AND DISINFECTING HARD, NON-POROUS SURFACES ON PERSONAL PROTECTIVE EQUIPMENT {(RESPIRATORS)}: Pre-clean equipment if visibly soiled to ensure proper surface contact. Prepare a use solution by adding 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} Gently mix for uniform use solution. Apply use solution to hard, non-porous surfaces of the respirator with a [{mechanical spray device,} {{{hand pump} {coarse}} trigger spray device}]. Spray 6 – 8 inches from surface. Do not breathe spray. Rub with brush, cloth, or sponge. Treated surfaces must remain wet for 1 minute. Remove excess solution from equipment prior to storage. The user must comply with all OSHA regulations for cleaning respiratory protection equipment {29 CFR § 1910.134}. Prepare a fresh solution daily or when visibly dirty.

FOR USE AS A DISINFECTANT, VIRUCIDE* OF HARD, NON-POROUS SURFACES IN FOOTBATHS: To remove body oils, dead tissue, soil and all other buildups or organic matter on surfaces after using the footbath, drain the water and thoroughly clean surfaces with soap or detergent, then rinse with water. Apply a use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} on surfaces with a {{{hand pump} {coarse}} trigger spray device}. Spray 6 – 8 inches from surface. Do not breathe spray}. Brush or swab thoroughly and allow solution to stand for 1 minute. After the unit has been thoroughly disinfected, rinse surfaces with fresh water. The unit is then ready for reuse.

TO DISINFECT FOOD PROCESSING PREMISES: floors, walls and storage areas. Apply use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} Spray surface to be treated by holding container six to eight inches from the surface to be treated and spray area until it is covered with the solution. Allow this product to penetrate and the surface to remain visibly wet for 1 minute. Wipe off with a clean cloth, mop or sponge and let air dry. Thoroughly rinse all food contact surfaces with potable water. Visibly soiled areas must be pre-cleaned before using this product. Food products and packaging materials must be removed or carefully protected prior to using this product.

TO DISINFECT FOOD SERVICE ESTABLISHMENT FOOD CONTACT SURFACES: countertops, appliances, tables. Apply use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} Spray surface to be treated by holding container six to eight inches from the surface to be treated and spray area until it is covered with the solution. Allow this product to penetrate and the surface to remain visibly wet for 1 minute. Wipe off with a clean cloth, mop or sponge and thoroughly rinse all food contact surfaces in the area with potable water. Visibly soiled areas must be pre-cleaned before using this product. Do not use on eating utensils, glassware and cookware.

DISINFECTION OF ANIMAL QUARTERS AND KENNELS: To disinfect pre-cleaned animal quarters and kennels. Remove all animals and feed from premises. Remove all litter and droppings from floors, walls and surfaces of facilities occupied or traversed by animals. Empty all troughs, racks, and other feeding and watering appliances.

Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate the surfaces with a disinfecting solution of 16 fl. oz. of this product per gal of water {(or equivalent use dilution)} for a period of 1 minute. Ventilate building and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried. All treated equipment that will contact feed or drinking water must be rinsed with potable water before reuse

{Alternate Numbered Format}

For cleaning and disinfecting hard, non-porous surfaces: equipment used for feeding or watering animals, utensils, instruments, cages, kennels, stables, catteries pens, stalls and etc.

1. Remove all animals and feeds from premises, animal transportation vehicles, crates, pens, stalls and etc.
2. Remove all litter, droppings and manure from floors, walls and surfaces of facilities occupied or traversed by animals.
3. Empty all {troughs, racks and} feeding and watering appliances.
4. Thoroughly clean all surfaces with soap or detergent and rinse with water.
5. Saturate surfaces with a use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} and allow to remain visibly wet for a period of 1 minute. Wipe or allow to air dry.
6. Spray all animal handling and restraining equipment as well as forks, shovels, and scrapers used to remove litter and manure.
7. Thoroughly scrub all treated surfaces, then rinse all surfaces that come in contact with food, including equipment used for feeding or watering, with potable water before reuse. {For "Veterinary Practice..." Thoroughly scrub all treated feeding and watering appliances with soap or detergent, and rinse with potable water before reuse.}
8. Ventilate buildings, animal enclosures, {vehicles} and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried.

REPTILE TANK CLEANING AND DISINFECTION DIRECTIONS: Remove all reptiles from the [{enclosure} {tank}] prior to cleaning and disinfecting. Remove all litter or droppings from surfaces. Empty all equipment used for feeding or watering reptiles. Thoroughly clean surfaces with soap or detergent and rinse with water. Apply disinfecting and virucidal* solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} to hard, non-porous surfaces of the [{enclosure} {tank}]. Apply by [{mechanical spray device,} {or} [{hand pump} {coarse}] trigger spray device]]. Spray 6-8 inches from surface. Do not breathe spray. Allow surfaces to remain visibly wet for 1 minute. Wipe dry {with a paper towel}. Rinse surfaces that come in contact with food with potable water before reuse. Allow the [{enclosure} {tank}] to ventilate for a minimum of 10-15 minutes before replacing the reptiles. Prepare a fresh solution daily or when visibly dirty.

Note: Do not apply this product directly onto the reptile. If this product comes into contact with the reptile's skin, then immediately wash the material off of the animal with lukewarm water. If the reptile ingests this product, contact your veterinarian immediately.

TERRARIUM AND SMALL ANIMAL CAGE AND CAGE FURNITURE DISINFECTION: {Animals frequently defecate on rocks and other hard, non-porous cage furniture items inside your terrarium. This can result in high bacteria and ammonia levels that can lead to possible infection/disease in your animals. When used regularly, this product can eliminate these high bacteria/ammonia levels in your cage and on your cage furniture items.} {Do not use on porous rocks, hot rocks, and driftwood.}

1. Remove all animals.
2. Thoroughly clean surfaces and objects {caves, cage furniture, feeding and watering dishes, and appliances} including the substrate in the terrarium or cage with soap or detergent and rinse with water.
3. Saturate all hard, non-porous surfaces {such as floors, walls, and cages} with the disinfecting and virucidal* solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} so as to wet thoroughly.
4. Apply by {[mechanical spray device,} {or} {[hand pump} {coarse}] trigger spray device]. Spray 6 – 8 inches from surface. Do not breathe spray. Rub with brush, cloth, or sponge. For smaller surfaces, use a trigger spray bottle to spray surfaces with solution.
5. Allow surfaces to remain visibly wet for a period of 1 minute.
6. Saturate gravel as above and let stand for 10 minutes. Place in bucket of clean water and swirl for 15 – 30 seconds. Thoroughly air dry before returning to terrarium.
7. Thoroughly scrub all treated surfaces {except gravel} with soap or detergent and rinse with potable water before reuse.
8. Do not return animals to the habitat until it is dry and ventilated.
9. Clean terrarium at least once weekly or more as needed. Change cloth, sponge, or towels frequently to avoid redeposition of soil.
10. Prepare a fresh solution daily or more often if use solution becomes visibly soiled or dirty.

Note: Substrates for desert terrariums (i.e. gravel) must be completely dry before returning to terrarium to avoid high humidity levels. Always replace substrate if a foul odor persists. Do not apply this product directly onto the animal. If this product comes into contact with animal's skin, immediately wash the material off of the animal with lukewarm water. If the animal ingests this product, contact your veterinarian immediately.

FOR ULTRASOUND TRANSDUCERS AND PROBES: Use only on external surfaces of ultrasound transducers and probes. With a clean washcloth, clean gel from external surface of the ultrasound transducer or probe to be disinfected. Apply use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} Spray probe by holding container six to eight inches from the surface to be treated and spray area until it is covered with the solution. Then thoroughly wet probe with spray. Treated surface must remain visibly wet for 1 minute. Let air dry.

VEHICLE DISINFECTION: {This product} is a one-step disinfectant cleaner and deodorant {odor-counteractant} {odor-neutralizer} designed for general cleaning, {and} {disinfecting} {deodorizing} on hard, non-porous inanimate surfaces. It cleans, disinfects and deodorizes surfaces by killing odor-causing microorganisms. Its non-abrasive formula is designed for use on {vehicle surfaces}: {steering wheels} {seat belt buckles and housings} {non-porous surfaces of child restraint seats} {door handles} {non-porous surfaces of visors} {mirrors} {dashboards} {gear shift levers} {accessory control knobs} {vinyl car seats and head restraints} {wheelchair lifts}. Remove visible soil prior to treatment. Apply use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)}. Spray {this product} 6-8 inches from hard, non-porous surfaces until thoroughly wet to treat all vehicles. Leave all treated surfaces exposed to disinfectant solution wet for 1 minute.

VEHICLE SANITIZATION: {This product} sanitizes {soft surfaces} {car seats} {headrests} {seat belts} {upholstery} {floor mats} on the interior of vehicles in 30 seconds. For first time use on soft surfaces, spot test in a small, inconspicuous area {and check with manufacture care guide before use}. Visible soil must be removed prior to application. Apply use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)}. Hold bottle upright 6" – 8" from surface. Spray until fabric[∞] is wet. DO NOT SATURATE. Surface must remain visibly wet for 30 seconds contact time. Allow to air dry. {For difficult odors or heavy fabrics[∞], repeat application.} {Reapply as necessary.}

[∞]100% cotton, 100% polyester or 50/50 cotton/polyester

To Deodorize Automobile Air Conditioner/Heater Vents: Apply use solution of 16 fl. oz. of this product per gal. of water {(or equivalent use dilution)} Hold container six to eight inches from vent. Spray product directly into vent. Spray until vent interior is completely wet and allow to air dry.

Optional Directions for Product Supplied in Refill Bottles:

Refill only with this product.

Alternate for Non-Refillable Bottles with use in conjunction with applicator/sprayer name:

To Connect with insert applicator/sprayer name

{Remove}

Remove cap {and induction seal} {from bottle}.

{Connect}

Connect adaptor cap {from **insert applicator/sprayer name**} {to bottle} and twist until tight{ened}. {Refer to user manual for specific operating instructions before use.}

(Note To Reviewer: Not for use on final in-commerce product label)

EMERGING VIRAL PATHOGEN CLAIMS

This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below:

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped viruses
- Large non-enveloped viruses

<i>For an emerging viral pathogen that is a/an...</i>	<i>...follow the directions for use for the following organisms on the label:</i>
Enveloped virus	Feline Calicivirus, Strain F-9, ATCC VR-782, surrogate for Norovirus
Large, non-enveloped virus	Feline Calicivirus, Strain F-9, ATCC VR-782, surrogate for Norovirus

Acceptable Claim Language:

(Product Name) has demonstrated effectiveness against viruses similar to **(name of emerging virus)** on **hard, non-porous surfaces**. Therefore, **(product name)** can be used against **(name of emerging virus)** when used in accordance with the directions for use against Feline Calicivirus, Strain F-9, ATCC VR-782, surrogate for Norovirus on **hard, non-porous surfaces**. Refer to the **(CDC or OIE)** website at **(pathogen-specific website address)** for additional information.

(Name of illness/outbreak) is caused by **(name of emerging virus)**. **(Product name)** kills similar viruses and therefore can be used against **(name of emerging virus)** when used in accordance with the directions for use against Feline Calicivirus, Strain F-9, ATCC VR-782, surrogate for Norovirus, on **hard, non-porous surfaces**. Refer to the **(CDC or OIE)** website at **(website address)** for additional information.

{DELIVERY SYSTEMS}

{Coarse} Trigger Sprayers: Fill bottle from dispenser. {Apply to surfaces according to directions above.}

Spray Use Instructions:

How to Assemble Extendable Trigger

1. Remove [{cap} {sprayer}] from bottle.
2. Insert end of tube into bottle until new cap meets bottle.
3. Twist cap onto bottle until secure.

How to Spray

1. Adjust nozzle to ON **(Note to Reviewer: There will be an ON symbol here)** position as indicated on nozzle.
2. [{To prime sprayer, direct nozzle toward surface to be treated and squeeze trigger several times until liquid is seen through the length of the tube. **Note:** Keeping sprayer head below the level of liquid in bottle will make priming easier.} {When priming, hold sprayer level to the ground. If held at an angle, sprayer will not prime.}]

After Use

1. Turn nozzle to OFF **(Note to Reviewer: There will be an OFF symbol here)** position.

{Spray Cap container language}

Shake Well. Remove sticker. Open flip cap. Firmly insert red hose tip.

Stock Solutions Instructions:

{For Spray Bottles:}

1. Fill stock [{solution bottle} {mixing container} {insert bottle number}] to indicated line with (X) [{fl. oz.} {gal.}] of water.
2. Pour contents of (X) pack{s} [{of this product} {insert packet number}] into stock [{solution bottle} {mixing container}].
3. Fill {quart} [{hand pump} {coarse}] trigger spray bottle {insert bottle number} with (X) fl. oz. to water line.
4. Add (X) pump stroke {(X) fl. oz.} from stock [{solution bottle} {mixing container}] to create a (X) ppm active solution.

Note: Empty and rinse bottles before refilling.

Refills

To Refill Concentrate from Large Containers into Smaller Containers: This product may be used to fill and refill clean, properly labeled containers for dilution elsewhere within your facility. Make sure the small container has been cleaned, dried, and properly labeled according to state and local regulations. Also make sure other items (funnels or hand pumps) are properly cleaned and dried. To refill, [{simply pour} {pump product}] from the larger container directly into the smaller one being careful not to spill any product. Keep both containers sealed when not in use.

DILUTION SYSTEM SPECIFIC DIRECTIONS FOR USE {Automatic Dilution} {Dilution System Name} {(Closed) (Open)} {Loop}: {Concentrated product – dilute before using} ATTACH this product TO THE AUTOMATIC DILUTION CENTER: Remove cap from product bottle and attach the automatic dilution center. This dispensing system delivers 16 oz. per gallon of water.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

{Pesticide} Storage: Store only in original container. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Handling:

(Note to Reviewer: One or more of the following paragraphs for Container Handling will be selected, depending on packaging use/type.)

{For residential/household use ONLY}

Non-refillable container. Do not reuse or refill this container. Offer for recycling if available or place in trash.

{For products with industrial, institutional, commercial use – May choose appropriate non-refillable/refillable statement.}

{For non-refillable containers equal to or less than 5 gal.}

Non-Refillable Container. Do not reuse or refill this container. Triple rinse container {(or equivalent)} promptly after emptying. Triple rinse as follows: Fill the container ¼ full with water and recap. Shake for 10 seconds. Drain for 10 seconds after the flow begins to drip. Follow Pesticide Disposal instructions for rinsate disposal. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration.

{For non-refillable containers greater than 5 gal.}

Non-Refillable Container. Do not reuse or refill this container. Triple rinse container {(or equivalent)} promptly after emptying. Triple rinse as follows: Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip back and forth several times. Turn the container over onto its other end and tip back and forth several times. Follow Pesticide Disposal instructions for rinsate disposal. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration.

{For non-refillable packets, Bag-In-Box, and other sealed containers}

(Note to Reviewer: sealed containers are designed to reduce worker exposure to the concentrate. None of these types of containers can be triple rinsed because they are closed, welded, sealed containers.)

Non-Refillable Container. Do not reuse or refill this container. {Wrap empty container and} Put in trash or offer for recycling.

{Refillable containers}

Refillable Container. Refill this container with this product only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, empty the remaining contents from this container into application equipment or a mix tank. Fill container about 10 percent full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat this rinsing procedure two more times.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled. Harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin, or on clothing. Do not breathe spray mist. Wear appropriate protective eyewear such as goggles, face shield, or safety glasses. Wear coveralls over long-sleeved shirt and long pants, socks, chemical-resistant footwear, and waterproof gloves. Wear chemical-resistant apron when mixing and loading. Wear a minimum of a NIOSH-approved particulate filtering facepiece respirator with any N1, R, or P filter; OR a NIOSH-approved elastomeric particulate respirator with any N1, R, or P filter; OR a NIOSH-approved powered air purifying respirator with HE filters. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS

(If container is equal to or greater than 5 gal., the following statement must appear on the label.)

This product is toxic to fish, aquatic invertebrates, oysters, and shrimp. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

(If container is less than 5 gal., use the following as an alternate to the above statement.)

This product is toxic to fish, aquatic invertebrates, oysters, and shrimp.
