SALT LAKE HOLDING LLC

Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 - Minor label revisions and change in PBN  
Product Name: Cordon Technical By Teleos  
Admin Number: 95290-7  
EPA Receipt Date: 06/30/2025  
Action Case Number: 00660972

Dear Mardel Rose Belotinsky:

The U.S. Environmental Protection Agency is in receipt of your application for notification under Pesticide Registration Notice 98-10 for the above referenced product. The EPA has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped "Notification" and will be placed in our records.

The primary brand name of this product has been changed from Cordon™ Technical to CORDON™ Technical by Teleos, and our records have been updated accordingly.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have questions, please contact Raven Crosby via email at [crosby.raven@epa.gov](mailto:crosby.raven@epa.gov).

Sincerely,

Manjula Unnikrishnan  
Product Manager 21  
Fungicide Branch  
Registration Division  
Office of Pesticide Programs

# CORDON™ Technical by Teleos

## Soil Fumigant

### For Manufacturing Use Only

#### Not for Resale

Active Ingredient:	(by weight)
1,3-dichloropropene .....	97.5%
Other Ingredients: .....	2.5%
Total: .....	100.0%

1 gallon of CORDON™ Technical by Teleos weighs 10.15 lbs. at 70°F. Contains 9.85 lbs. of 1,3-dichloropropene per gallon.

## NOTIFICATION

95290-7

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

07/22/2025

## WARNING AVISO

### First Aid

**If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance; then give artificial respiration, preferably mouth-to-mouth if possible. If breathing is difficult, give oxygen. Call a poison control center or doctor for further treatment advice.

**If on skin or clothing:** Immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Call a poison control center or doctor for treatment advice. If water is not immediately available, remove excess chemical from skin with adsorbent material such as towel or dry soil; then proceed at once to a location where water is available and thoroughly wash contaminated skin with plenty of water. Call a poison control center or doctor for treatment advice.

**If in eyes:** Immediately flush eyes with plenty of water. Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes; then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

**If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-9300 for emergency medical treatment information.

**Note to physician:** Because rapid absorption may occur through lungs if product is aspirated and cause systemic effects, the decision to induce vomiting or not should be made by a physician. If lavage is performed, endotracheal and/or esophageal control is suggested. Danger from lung aspiration must be weighed against toxicity when considering emptying the stomach.

---

## Precautionary Statements

---

### Hazards to Humans and Domestic Animals

#### Hazardous Liquid and Vapor

- Do not breathe vapor. May be fatal if inhaled. May cause lung, liver, and kidney damage and respiratory system irritation upon prolonged contact.
- Do not swallow any of this product. May be fatal if swallowed.
- Do not get on skin or clothing. May be fatal if absorbed through the skin. Causes skin irritation and, if confined, skin burns.
- Do not get in eyes. Causes substantial but temporary eye injury.
- Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.
- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using

tobacco, or using the toilet.

- Remove contaminated clothing immediately and launder clothing before reuse. Dispose of items that cannot be decontaminated, such as shoes, belts, and watchbands.
- The use of this product may be hazardous to your health. This product contains 1,3-dichloropropene, which has been determined to cause tumors in laboratory animals. Risks can be reduced by exactly following [the Directions for Use](#) [and](#) [Precautionary Statements](#), [and](#) by wearing the personal protective equipment specified in this labeling.

## Personal Protective Equipment (PPE)

**Respiratory Protection:** Maintain atmospheric levels below the NIOSH recommended exposure limit (REL). When NIOSH REL is exceeded, wear a NIOSH-approved positive-pressure supplied-air respirator (NIOSH approval number prefix TC-19C). For emergency and other conditions where the NIOSH REL is exceeded by 200 times, use a NIOSH-approved positive-pressure self-contained breathing apparatus (NIOSH approval number prefix TC-13F) or positive-pressure airline with auxiliary self-contained air supply (NIOSH approval number prefix TC-13F). In confined or poorly ventilated areas, use a NIOSH-approved positive-pressure supplied-air respirator (NIOSH approval number prefix TC-19C).

**Skin Protection:** Use protective clothing impervious to this material. For short-term contact or splash protection against liquid in this product, select specific items such as gloves, boots, apron, or full-body suit constructed of Saranex, neoprene, and chlorinated polyethylene. For longer-term protection, select specific items such as gloves, boots, apron, or full-body suit constructed of Viton, Teflon, and EVAL barrier laminates (for example, responder suits manufactured by Life Guard or Silver Shield gloves manufactured by North). Where chemical-resistant materials are required, leather, canvas, or cotton materials offer no protection from this product and must not be worn when contact with this product is possible. Coveralls must be loose-fitting and constructed of woven fabrics (e.g., tight knit cotton or cotton/polyester), non-woven fabrics (e.g., Tyvek or Sontara), or fabrics containing microporous Teflon.

A safety shower should be located in [the](#) immediate work area.

**Eye/Face Protection:** Use chemical goggles. If vapor exposure causes eye discomfort, use a NIOSH certified full-face respirator equipped with an organic vapor cartridge (OV, NIOSH approval number prefix TC-23C) and a particulate pre-filter (Type N, R, P, or HE, NIOSH approval number prefix TC-84A), or a gas mask with a canister approved for organic vapor (NIOSH approval number prefix TC-14G).

## Environmental Hazards

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

## Physical or Chemical Hazards

Combustible. Do not use or store near heat or open flame.

---

## Directions for Use

---

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product may only be formulated into end-use products that contain the following language on their labeling when they are released for shipment:

“ENDANGERED SPECIES PROTECTION REQUIREMENTS (to be placed at the beginning of the *Directions for Use* section of all end-use product labels):

It is a Federal offense to use any pesticide in a manner that results in an unauthorized “take” (e.g., kill or otherwise harm) of an endangered species, and certain threatened species, under the Endangered Species Act section 9. When using this product, you must follow the measures contained in the Endangered Species Protection Bulletin for the area in which you are applying the product. You must obtain a Bulletin no earlier than six months before using this product. To obtain Bulletins, consult

<http://www.epa.gov/espp/>, call 1-844-447-3813, or email [ESPP@epa.gov](mailto:ESPP@epa.gov). You must use the Bulletin valid for the month in which you will apply the product.”

This product may only be formulated into end-use products that contain the following language on their labeling when they are released for shipment:

**“Reporting Ecological Incidents** (to be placed in the *Environmental Hazards* section of all end-use product labels): To report ecological incidents, including mortality, injury, or harm to plants and animals, call 1-989-636-4400 [910-410-2783](tel:910-410-2783).”

This product may only be formulated into a liquid soil fumigant for the following uses: vineyards. This product may be used to formulate products for specific use(s) not listed on this label if the formulator, user group or grower has complied with U.S. EPA submission requirements regarding the support of such use(s). Consult a company [\[or Teleos Ag Solutions, Inc.\]](#) representative for instructions for formulation and other information.

### **Storage and Disposal**

Do not ship or store with food, feeds, drugs, or clothing [contaminate water, food, or feed by storage or disposal](#).

**Pesticide Storage:** Store in tightly closed original container [in a cool place](#) away from dwellings. Prolonged exposure of the container to direct sunlight must be avoided. Do not allow contamination of seeds, plants, fertilizers, or other pesticide chemicals.

**Pesticide Disposal:** Pesticide wastes are toxic. Improper disposal of excess pesticide and rinsates is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA regional office for guidance.

Because CORDON™ Technical [by Teleos Soil Fumigant](#) is corrosive under certain conditions, flush all equipment with fuel oil, kerosene or a similar type of petroleum solvent immediately after use. Fill pumps and meters with new motor oil or a 50% motor oil/fuel oil mixture before storing. **Do not use water.** Dispose of rinsate by applicable Federal, state and local regulations. Never introduce rinsate or unused CORDON™ Technical [by Teleos](#) into surface or underground water supplies.

### **Storage and Disposal for refillable rigid containers ~~larger than 5 gal~~ [and larger](#)**

**Container Handling:** Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose.

Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, empty the remaining contents from this container into application equipment or a mix tank. Fill the container about 10% full with water and, if possible, spray all sides while adding water. If practical, agitate vigorously or recirculate water with the pump for two minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat this rinsing procedure two more times. Then offer for recycling if available, or puncture and dispose of in a sanitary landfill, or by incineration, or by other procedures allowed by state and local authorities.

### **Storage and Disposal for non-refillable rigid containers ~~larger than 5 gal~~ [and larger](#)**

**Container Handling:** Non-refillable container. Do not reuse or refill this container.

Triple rinse or pressure rinse container (or equivalent) promptly after emptying. **Triple rinse** as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. **Pressure rinse** as follows: Empty the remaining contents into application equipment or a mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or mix tank or collect rinsate for later use or disposal. Insert pressure rinsing nozzle in the side of the container, and rinse at about 40 psi for at least 30 seconds. Drain for 10 seconds after the flow begins to drip. Then offer for recycling if available, or puncture and dispose of in a sanitary landfill, or by incineration, or by other procedures allowed by state and local authorities.
