

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Antimicrobials Division (7510P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

96165-1

Date of Issuance:

4/8/25

NOTICE OF PESTICIDE:

☒ Registration
☐ Reregistration
(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

305 Hydrogen Peroxide Disinfectant

Name and Address of Registrant (include ZIP Code):

Brian Hogan, KRK Consulting, LLC.; Agent for Sentinel Products Inc.
652 Wall Rd
Wadsworth, OH 44281
Electronic Transmittal: brian@eparegistration.com

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Steven Snyderman, Product Manager 33
Regulatory Management Branch II
Antimicrobials Division (7510M)
Office of Pesticide Programs

Date:

4/8/25

2. You are required to comply with the data requirements described in the DCI Order identified below:

- a. Hydrogen Peroxide: GDCI-000595-1127

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI Order listed above, you may contact the Reevaluation Team Leader (Team 36): <https://www.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobials-division>

3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No. 96165-1."
4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated, 08/07/2024

The following alternate brand names have been added to the product record:

- 305 Disinfectant
- 305HP Disinfectant
- 305HP Hydrogen Peroxide Disinfectant

305 Hydrogen Peroxide Disinfectant

{Alternate Brand Names:} [305 Disinfectant] [305HP Disinfectant] [305HP Hydrogen Peroxide Disinfectant]

Ready to Use (RTU) Disinfectant

Disinfectant – Cleaner – Virucide[†] - Bactericide – Fungicide – Deodorizer - Sanitizer – Germicide – [Odor
Neutralizer] – [Odor Counteractant]

for use in Hospitals, Household, Institutional, Commercial, Residential, and Industrial [Environments] [properties]
[buildings]

[for Restoration & Remediation of Property Damaged by Fire, Wildfire, Water, Flood, Storm, Microbial Pests, and
Biohazard (including trauma scene, health emergency)]

[For Water and Flood Damage Restoration]

[For Catastrophe Response and Recovery]

[For Use in Restoration of Damage and Contamination from Structural Fire and Wildfire]

[For Response to Biohazard (Trauma Scene Cleanup, Contagious Contamination, Infection Control & Surface
Hygiene, and OPIM (Other Potentially Infectious Materials))]

Active ingredient:

Hydrogen peroxide _____ 1.31%

Other Ingredients: _____ 98.69%

Total _____ 100.00%

[Citrus] [Lime] [Scent] [Fragrance] [Odor] [Lavender] [Fresh]

{Note to reviewer: Fragrance claims and images will only be used when the appropriate scent is included.}

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Pre-cleaning is required for all surfaces to be treated. Food must be removed or protected before using this product. Test product in an inconspicuous area before use. [Not for use on food contact surfaces.] [A potable water rinse is required when used on food contact surfaces.] [Note: This product is not to be mixed with other products] [Use as directed.]

PACKAGING RELATED STATEMENTS

Note to reviewer: Appropriate language will be chosen from this section depending on packaging.

{For Multi Panel Booklet Label:} [Peel] [Lift] [here] [for] [additional] [directions] [information]

{Transfer Directions}

To transfer [this product] [or product name] into smaller containers:

[This product] [or product name] may be transferred to smaller, dedicated, properly labeled containers for use in your facility.] The smaller containers and items (funnels or hand pumps) used for transfer must be clean and dry. Pour product directly into a smaller container. Use caution to not spill product. Keep containers sealed when not in use. Smaller containers must be properly labeled. Use of a sprayer or transfer equipment with metal components may speed the decomposition of the active ingredient in this product. Do not transfer more product than is needed for the immediate task.

{Directions for Use will be communicated either in numbered list format or in a paragraph format.}

Pre-Cleaning Directions:

1. Remove visible solids and gross filth before wet cleaning.
2. [Apply] [Spray] product [to] [on] hard, non-porous soiled surfaces [using a sprayer, sponge, brush, mop or rags/towels].
3. Wipe with a [clean,] rag, sponge, or towel.
- [4.] Rinse food contact surfaces with potable water.
- [4.] [5.] Allow to air dry or wipe with a clean, absorbent cloth or sponge.

Deodorizing Directions:

- 1: [Apply] [Spray] product directly [to] [on] pre-cleaned non-food contact surfaces.
- 2: Allow to air dry. No wiping or rinsing needed.

Disinfection/Virucidal[†]/Bactericidal[/Fungicidal] Directions:

1. Pre-clean all surfaces prior to disinfection.
2. Evenly [apply] [to] [spray] [on] hard, non-porous surface to be cleaned. Make sure to wet surface thoroughly.
3. Ensure surface remains visibly wet for 3 minutes. [Use a 10 minute contact time for fungi.]
- [4.] Rinse food contact surfaces with potable water.
- [4.] [5.] After the completed contact time, wipe surface dry or allow to air dry.

{Whenever medical use sites are listed as applicable sites on the label, the following text will be included as required by PR 94-4}

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

{The statement below may also be used as an alternative to the text above, when medical settings appear on the label}

[This product is not for use on medical devices or medical equipment surfaces.]

{Required language for labels with HIV-1 efficacy claims}

*KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1)(associated with AIDS.)

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

Personal Protection: When handling items soiled with blood or body fluids, use disposable [latex] gloves, gowns, face masks and eye protection.

Cleaning Procedure: Blood & other body fluids must be thoroughly cleaned from surfaces & objects before application of [this product] [or product name].

Disposal of Infectious Material: Blood & other body fluids must be autoclaved & disposed of according to Federal, State and local regulations for infectious waste disposal.

Contact Time: Allow the surface to remain visibly wet for 3 minutes.

Fungicidal Directions:

1. Pre-clean all surfaces prior to treatment.
2. Evenly [apply] [to] [spray] [on] hard, non-porous surface to be cleaned. Make sure to wet surface thoroughly.
3. Ensure surface remains visibly wet for 10 minutes.
- [4.] Rinse food contact surfaces with potable water.
- [4.] [5.] After the completed contact time, wipe surface dry or allow to air dry.

Soft Surface Spot Sanitizing Directions:

1. Test in an inconspicuous area to ensure surface compatibility.
2. Preclean all surfaces prior to treatment.
3. Spray [this product] [or product name] onto surface until wet, but do not saturate.
4. Ensure surface remains visibly wet for 5 minutes.
5. Allow to air dry. [Rinsing not required.]

To Eliminate Stains and Odors from Mold & Mildew:

1. Spray 6-8 inches from the surface until visibly wet. Manual application (e.g., sponge) may be used instead of spray provided surface is evenly and completely wet.
2. Agitate to ensure product is evenly distributed across full surface.

3. Wipe surface with a clean, dry [cloth or] [microfiber cloth or] [paper towel]]. [If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]]. Wipe or rinse clean residue that may change the appearance of highly polished, reflective or transparent surfaces. Dry surfaces prone to rusting.

Indoor Cultivation (Greenhouse) [Horticulture] Directions for Antimicrobial Use [on Non-Food Contact Surfaces only]:

This product [or product name] is a ready-to-use [germicidal] [disinfectant] [cleaner] [and] [deodorant] [odor counteractant] [odor neutralizer] designed for [general] cleaning, [and] disinfecting, (deodorizing) [of] hard, non-porous [environmental] surfaces.

Remove all plants from the area prior to disinfection. Do not apply [this product] [or product name] directly to plants, seeds, mulch, or soil derivatives, and take measures to avoid indirect/inadvertent contact. For use on (inanimate) (environmental) surfaces.

For use to disinfect (and) (clean) hard, non-porous (inanimate) (environmental) surfaces† [such as:] [including]: (floors), (walls), (glasshouse structures), (ventilation) [and (other) (equipment), (utensils), (trays), and (other) (containers), (storage rooms), and (vehicles) in (greenhouses) and (other horticultural settings) (prior) (to) (introduction) or (reintroduction) of (plants), (seeds), or (soil)].

Directions For Use in Greenhouse Processing and Production Facilities:

1. Work Area Set-up: Prior to disinfection, remove all plants, seeds, mulch or soil derivatives from the area of application; remove debris, soil, dust and dry wet areas as excess moisture could reduce the efficacy of disinfection. Dry clean (e.g., sweeping, dusting, wiping) before wet cleaning and disinfection.
2. Pre-clean all surfaces prior to disinfection. Stain removal is not necessary, but embedded [or] [stubborn] contaminants should be cleaned using combined wet agitation with detergent solutions and lifting methods, as necessary.
3. Thoroughly clean all surfaces with [this product] [or product name] [or detergent], and rinse with potable water.
4. To disinfect, apply [use] [ready-to-use] [this product] [or product name] [solution] [by] [trigger spray], [airless spray], [compression sprayer], [brush], [rag], [cloth], [disposable wipe], [or] [mop], [on] to hard, non-porous surfaces.
5. Saturate all surfaces and allow surfaces to remain visibly wet with [this product] [or product name] for a period of 3 minutes (Use a 10 minute contact time for fungi).
6. Allow to air dry. Only food contact surfaces or equipment that may come into contact with plants require rinsing with potable water.

For Use to Clean and Disinfect Greenhouse Processing and Production Instruments, Utensils and Tools by Immersion [Soaking]:

1. Pre-clean all surfaces prior to disinfection.
 2. Completely immerse pre-cleaned [tools], [implements], [trimmers], [utensils] [etc] in [the product][solution] for a period of 3 minutes (Use a 10 minute contact time for fungi).
 3. Rinse surfaces thoroughly and [let air] dry before reuse.
 4. Change [immersion] solution daily or when visibly dirty.
- [NOTE: Remove instruments after recommended contact time. Then rinse, dry and keep in a clean, uncontaminated receptacle until use. Prolonged soaking may cause damage to instruments. Do not attempt to use immersion on tools with electrical or motorized components]

{Note: the following paragraph is optional language}

[This product is designed for indoor cultivation facilities for use on hard, non-porous surfaces: stainless steel, aluminum, chrome, vinyl, floors, ceiling sealed concrete, plastic, painted surfaces, laminated surfaces, glazed ceramic, and glazed porcelain associated with racking, lighting, extraction, propagation, agricultural, trimming, drying equipment, scales, biosafety cabinets, trimmers, handheld tools, fans, lab benches, display cases, storage containers, the exterior of HVAC equipment (not for antimicrobial use inside ductwork), laboratory, footbaths, belly pans, water lines, processing, preparation, drying, growing, cultivation, and irrigation tables.]

Salon/Barber Instruments and tools disinfection: For cleaning and disinfecting hard, non-porous barber/beauty [shop] [salon] instruments and tools such as combs, brushes, razors, scissors, blades, and manicure instruments.

1. Pre-clean all instruments and tools prior to disinfection.
2. [Soak instruments and tools in [this product] [or product name] for 3 minutes.] [Spray instruments and tools with [this product] [or product name] and allow them to remain visibly wet for 3 minutes.] [Use a 10 minute contact time for fungi.]

3. Rinse thoroughly and dry before use.

[NOTE: Pre-check instrument and tool compatibility before first use. When possible, remove instruments and tools after [three] [3] minutes, [unless treating for fungi, then [10] [ten] minutes]. Then rinse, dry and keep in a clean, uncontaminated receptacle until use. Prolonged soaking may cause damage]. [Do not attempt to immerse, submerge or soak implements with electrical or motorized components].

Veterinary Practice/Animal Care/Animal Laboratory/zoos/pet shop/kennels [virucidal*] disinfection directions:

For cleaning and disinfecting hard, non-porous surfaces: equipment used for animal food or water, utensils, instruments, cages, kennels, stables, catteries.

1. Remove all animals and feeds from premise, animal transportation vehicles, crates, etc.
2. Remove all litter, droppings, manure and feces from floors, walls and surfaces of facilities occupied or traversed by animals.
3. Empty all feeding and watering appliances.
4. Thoroughly clean all surfaces with [this product] [or product name] [soap or detergent] and rinse with water.
5. Saturate all surfaces by spraying with [this product] [or product name] and allow them to remain visibly wet for 3 minutes.
6. Spray all halters, ropes and other types of equipment used in handling and restraining animals as well as forks, shovels and scrapers used for removing litter and manure.
7. Wipe or allow to air dry.
8. Rinse all surfaces that come in contact with food, including equipment used for feeding or watering, with potable water before reuse.
9. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried.

Farm premise use:

1. Remove all animals and feed from premises, vehicles and enclosures.
2. Remove all litter and manure from floors, walls and surfaces of barns, pens, stalls, chutes, and other facilities and fixtures occupied or traversed by animals.
3. Empty all troughs, racks, and other feeding and watering appliances.
4. Thoroughly clean all surfaces with soap or detergent and rinse with water.
5. Saturate all surfaces with [this product] [or product name] and allow them to remain visibly wet for a period of 3 minutes. Use a 10 minute contact time for fungi.
6. Immerse all halters, ropes, and other types of equipment used in handling and restraining animals, as well as forks, shovels, and scrapers used for removing litter and manure.

[Items in brackets [AAA] are optional and may/may not be included on the printed label]
{Items in braces {AAA} are for information purposes and will not appear on printed label}
(Items in parenthesis (AAA) are alternative text or text that will appear in parenthesis)

Page 6

Disinfectant
EPA REG. NO. 96165-
Version: 1.2

7. Ventilate buildings, vehicles, and other closed spaces. Do not house livestock or employ equipment until treatment has been absorbed, set, or dried.
8. Thoroughly scrub all treated feed racks, mangers, troughs, automatic feeders, fountains, and waterers with soap or detergent, and rinse with potable water before reuse.

Hatcheries: Use [this product] [or product name] to treat the following hard, non-porous surfaces: hatchers, setters, trays, racks, carts, sexing tables, delivery trucks and other hard, non-porous surfaces.

1. Saturate all surfaces by spraying with [this product] [or product name] and allow surfaces to remain visibly wet for 3 minutes. Use a 10 minute contact time for fungi.
2. Allow to air dry.

Vehicles: Wash all vehicle surfaces including mats, crates, cabs and wheels with water and soap or detergent.

1. Saturate all surfaces by spraying with [this product] [or product name] and allow surfaces to remain visibly wet for 3 minutes. Use a 10 minute contact time for fungi.
2. Allow to air dry.

Dressing plant disinfectant directions: Use to disinfect hard, non-porous equipment, utensils, walls and floors in poultry and animal dressing plants. Disinfect all rooms, exterior walls and loading platforms of dressing plants.

1. Remove or cover all food and packaging materials.
2. Remove all visible soils prior to application.
3. Scrub to loosen all soils.
4. Saturate all surfaces by spraying with [this product] [or product name] and allow surfaces to remain visibly wet for 3 minutes. Use a 10 minute contact time for fungi.
5. Thoroughly rinse with potable water before resuming operations.

Allergen Removal:

This product removes the following non-living allergens: cat dander, cockroach matter, cockroach debris, cockroach particles, dog dander, dust mite debris, pet dander, pollen particles

To reduce specified allergens: [Surfaces should be visibly clean. Clean as needed, then] Spray, wait 1 minute, and wipe excess. Allow to air dry. Wipe or rinse clean residue that may change the appearance of highly polished, reflective or transparent surfaces. Dry surfaces prone to rusting.

[Items in brackets [AAA] are optional and may/may not be included on the printed label]
{Items in braces {AAA} are for information purposes and will not appear on printed label}

Version: 1.2

{Note to Reviewer: Pages 7 through 26 are considered optional marketing language:}

GENERAL APPLICATION METHODS

Apply [use] [ready-to-use] [this product] [or product name] [solution] by several types of spray equipment [including] [trigger spray], [airless spray], [compression sprayer], [pump sprayer]

Apply [use] [ready-to-use] [this product] [or product name] [solution] by several types of manual methods [brush], [rag], [cloth], [disposable wipe], [or] [mop]

Apply [use] [ready-to-use] [this product] [or product name] [solution] by immersion (soaking) methods. Use a reservoir or tub of sufficient depth to submerge completely. Pre-check surface compatibility before first use. When possible, remove after [three] [3] minutes, [unless treating for fungi, then [10] [ten] minutes].

[NOTE: Prolonged soaking may cause damage]. [Do not attempt to immerse, submerge or soak implements with electrical or motorized components].

Spray Bottle: Ideal for quick and targeted applications on countertops, door handles, and other high-touch areas. It allows for direct application on surfaces needing disinfection.

Mop: Best suited for large floor areas in homes, hospitals, and commercial spaces. Apply the disinfectant solution to a mop and evenly distribute it over the floor surface.

Rag or Cloth: Useful for wiping down surfaces manually. Soak a clean rag or cloth in the disinfectant solution and thoroughly wipe the surface to ensure complete coverage.

Sponge: For delicate surfaces or equipment, a sponge soaked in disinfectant can be gently used to clean and sanitize without causing damage.

Industry Specific Supplementary Information:

Restoration & Remediation

Surfaces [and equipment] must be absent of visible soils and must be pre-cleaned prior to disinfection. *{Note to reviewer: The pre-cleaning statement will always be used when any of the following bullet points are put on the product label}*

Restoration & Remediation Standards

[This product] [or product name] [meets or surpasses] [satisfies] [is compliant with] the following industry standards for professional [restorations and] remediation] [, when used properly]:

STRUCTURAL FIRE: BSR-/IICRC S700 Standard for Professional Fire and Smoke Damage Restoration

WILDFIRE: BSR/IICRC S760 Standard for Professional Wildfire Investigations and Restoration of Impacts to Structures, Systems, and Contents

BIOHAZARD: ANSI/IICRC S540 Standard for Trauma and Crime Scene Cleanup

WATER/FLOOD DAMAGE: ANSI/IICRC S500 Standard for Professional Water Damage Restoration

- 3-minute acting disinfectant
- 3-minute hospital disinfectant

- [Antibacterial] [Antimicrobial] [Disinfectant] with Hydrogen Peroxide
- Disinfects (insert from pathogen list) in [3] [10] minutes
- [Kills] [Disinfects] [Eliminates] 99.9% of [household*] [bacteria] [germs] [viruses[†]] [in 2 minutes for SARS-CoV-2] [3 minutes] on hard, non-porous surfaces
- Hydrogen Peroxide Disinfectant
- Hard, non-porous surface disinfectant
- [Hospital Use] disinfectant, cleaner that is effective against a broad spectrum of bacteria and is virucidal
- Provides hospital disinfection in [just] 3 minutes contact time
- Virucidal[‡] [including: [xxx], [xxx], [xxx], [xxx], and [xxx]] {Insert virus from table}
- Antibacterial
- Broad spectrum disinfectant
- Contains Hydrogen Peroxide
- Deodorizes by disinfecting
- Deodorizes by killing odor causing bacteria
- Eliminates allergens
- Bactericide
- Bactericidal
- Disinfects flu viruses[†]
- Disinfects cold viruses[§]
- Disinfects cold[§] [and] [or] flu[†] viruses
- Disinfects hard, non-porous surfaces against SARS-CoV-2 [the cause of [or] the coronavirus that causes COVID-19] [in 2 min[utes]]
- Fungicide
- Hospital [cleaner] [disinfectant]
- Kills and cleans
- Kills cold[§] and flu viruses[†] in 3 min[utes]
- Kills [germs] [and] [or] Flu Viruses[†]
- cleans [and] [or] disinfects [and] [or] deodorizes [and] [or] kills [and] [or] removes germs
- disinfecting formula
- Fungicidal
- Kills 12 [or number less than 12] microorganisms [or] pathogens
- kills Trichophyton interdigitale, the organism that causes athlete's foot fungus on hard, non-porous surfaces
- kills cold[§] & flu[†] viruses [in 3 minutes]
- Kills Norovirus in 3 min[utes]
- oxidizing agent to provide disinfection on hard, non-porous surfaces
- [Hydrogen Peroxide] [The active ingredient] oxidizes microorganisms to disinfect
- Virucide[‡]
- Virucidal[‡]
- Bactericidal against Staphylococcus aureus [ATCC 6538] [in 3 min[utes]]
- Bactericidal against Pseudomonas aeruginosa [ATCC 15442] [in 3 min[utes]]
- Bactericidal against Salmonella enterica [ATCC 10708] [in 3 min[utes]]
- Bactericidal against Escherichia coli [ATCC 11229] [in 3 min[utes]]
- Bactericidal against Methicillin-Resistant Staphylococcus aureus (MRSA) [ATCC 33592] [in 3 min[utes]]
- Virucidal against Human coronavirus (22/9E strain) [ATCC VR-740] [in 3 min[utes]]
- Virucidal against Influenza A (H3N2, A/Hong Kong/8/68 strain) [ATCC VR-1679] [in 3 min[utes]]
- Virucidal against Rhinovirus 37 (151-1 strain) [ATCC VR-1607] [in 3 min[utes]]

- Virucidal against Feline calicivirus (Norovirus surrogate F-9 strain) [ATCC VR-782] [in 3 min[utes]]
- Virucidal against Human Immunodeficiency Virus Type 1) (Strain IIIB) [in 3 min[utes]]
- Virucidal against SARS-CoV-2 [USA-WA1/2020 Strain] [in 2 min[utes]]
- Fungicidal against Trichophyton interdigitale [ATCC 9533] [in 10 min[utes]]

Sanitizer Claims:

[This product] [or product name] [is] [a] [an] [has] [a] [an]...[for] [as a] spot treatment [on] [of] cotton and polyester materials.

- 5-minute soft-surface sanitizer
- No-rinse soft-surface sanitizing formula
- [5-minute] soft-surface sanitizer
- Soft-surface sanitizer with Hydrogen Peroxide
- Provides soft-surface sanitizing in 5 minutes
- Soft-surface sanitizer [against] [Staphylococcus aureus] [and] [Klebsiella pneumoniae] in 5 minutes
- Sanitizes cotton and polyester substrates
- Sanitizes natural and synthetic fabrics
- Sanitizer for soft surfaces and materials
- Ideal for use on [insert use surfaces(s) from list]

Free From Claims:

[This product] [or product name] [is] [a] [an] [needs]

- Dye Free
- Contains no dyes
- This product does not contain any materials known to the state of California to cause cancer or reproductive harm.
- No chemicals in this [product] [material] are subject to the reporting requirements of Proposition 65 in the state of California.
- Non-corrosive
- Non-flammable
- Non-abrasive
- No dilution

Scent Claims:

[This product] [or product name] [is] [has] [a] [an]

- Pleasant [smell] [odor]
- No harsh chemical [smell] [odor] [fumes]
- [Light] [Fresh] [citrus] [herbal] [fragrant] [fragrance] [smell] [odor]

Cleaning Claims:

[This product] [or product name] [is] [a] [an]

- Clean[s]
- For daily [cleaning] use
- Cleans [and][or] deodorizes
- [Easily] Cleans
- [Effectively] Cleans
- All purpose Cleaner
- Cleaner Spray

[Items in brackets [AAA] are optional and may/may not be included on the printed label]
{Items in braces {AAA} are for information purposes and will not appear on printed label}
(Items in parenthesis (AAA) are alternative text or text that will appear in parenthesis)

Page 11
305 Hydrogen Peroxide
Disinfectant
EPA REG. NO. 96165-
Version: 1.2

- Cleans up sweat and body oils
- Cleans dirt and grime
- Cleans food stains
- Cleaner
- Cleans
- Broad spectrum cleaner
- [Cleans] [and deodorizes]
- Cleans blood stains
- Cleans everyday messes
- Cleans bathroom soils
- [Cleans] [and] [or] [removes] stains from [mold] [and] [or] [mildew]
- Makes cleaning easier
- Removes dirt and grime

Odor Elimination Claims:

[This product] [or product name] [is] [a] [an]

- Deodorizer [Deodorizing] [Deodorizes]
- Deodorizes by disinfecting on hard, non-porous, non-food contact surfaces
- This product [also] eliminates odors
- Deodorizer for institutional use
- Deodorizes by killing odor-causing bacteria
- Use where odors are [a problem] [an issue]
- Deodorizes food odors
- Deodorizes pet odors
- Deodorizes biological odors
- Deodorizes odors commonly found on Restoration projects
- Deodorizes odors found in soft-goods
- Removes odors

General and Miscellaneous Claims:

[This product] [or product name] [is] [a] [an] [has] [can be used [to] [for]

- [Commercial] [Residential] [Institutional] [Soft Surface Spot Sanitizer] [Soft Surface Spot Sanitizing]
- [Commercial] [Residential] [Institutional] [Disinfecting Cleaner] [Disinfectant] [Disinfecting] on hard, non-porous surfaces
- [Commercial] [Residential] [Institutional] [Sanitizer] [Sanitizing] [Cleaner]
- [Clean] [Remove] [Disinfect] [Eliminate] [household] [kitchen] [bathroom] [surface] [germs] [and][or] [bacteria] on hard, non-porous surfaces [of] [in] [insert selected use sites from list] [insert selected materials from list].
- New[!] {can be present on label for 6 months from date of first sale}
- Multi-Purpose
- For homes, Institutional and Industrial use on hard, non-porous surfaces
- Ready-to-Use [Formula] [Cleaner] [Sanitizer]
- Ready-to-Use [Formula] [Cleaner] [Disinfectant]
- Ready to use cleaner [or] disinfectant
- Use on hard, non-porous surfaces in areas where you are concerned about [bacteria] [germs] [and] [or] viruses[†]
- Compatible with a wide variety of hard, non-porous surfaces
- Designed for healthcare

[Items in brackets [AAA] are optional and may/may not be included on the printed label]
{Items in braces {AAA} are for information purposes and will not appear on printed label}
(Items in parenthesis (AAA) are alternative text or text that will appear in parenthesis)

- For direct application
- For healthcare use
- For use on hard, non-porous surfaces in a hospital setting
- For non-critical, hard, non-porous [medical] [and] [or] [hospital] [and] [or] [clinical] equipment
- for use on hard, non-porous hospital surfaces [in] [insert sites from list]
- Ideal for use in [insert use site(s) from list]
- Ideal for use on high-touch surfaces
- no mixing or measuring required
- No rinse required on non-food contact surfaces
- non-abrasive
- ready-to-use [hospital] [cleaner] [or] [disinfectant]
- tested against SARS-CoV-2 on a hard, non-porous surface
- Use on hard, non-porous surfaces in [places] [locations] where you are concerned about [bacteria] [germs] [and] [or] viruses[†]
- For residential [home], Institutional and Industrial use
- [Commercial Size] [Professional Size]
- Contains hydrogen peroxide
- Disinfecting technology
- Formulated with hydrogen peroxide
- Is effective and economical
- Disinfection technology
- Supports sustainable practices
- [the active ingredient] [hydrogen peroxide] decomposes to water and oxygen
- Hydrogen Peroxide is naturally occurring
- [whitens] [brightens] [lightens] surfaces
- [the active ingredient] [hydrogen peroxide] degrades to organic compounds
- Removes organic impurities
- Alternative to botanical disinfectants
- Surface [brightening] [brightener]
- Minimal residue
- Low allergenicity
- No PPE required
- Category 4 rating in 5 toxicity categories
- Not a dermal sensitizer
- Compatible with green building standards
- Effective on [fire] [water] damage contaminants [such as soot, char and organic matter] as a non-public health application
- Can be used on coils and drip pans
- Safe for use on aluminum
- Biohazard/hoarding clean up[s]
- Fire/water/flood damaged structures and contents
- Gives peace of mind that surfaces are clean

[Items in brackets [AAA] are optional and may/may not be included on the printed label]
 {Items in braces {AAA} are for information purposes and will not appear on printed label}
 (Items in parenthesis (AAA) are alternative text or text that will appear in parenthesis)

[This product] [or product name] is effective as a disinfectant against (INSERT MICROORGANISM(S) FROM TABLE BELOW) [in (INSERT CONTACT TIME FROM TABLE BELOW)].

Microorganism Table for Disinfection Applications

Bacteria	ATCC and/or Strain	Contact Time
Methicillin-Resistant Staphylococcus aureus (MRSA)	ATCC 33592	3 minutes
Staphylococcus aureus	ATCC 6538	3 minutes
Pseudomonas aeruginosa	ATCC 15442	3 minutes
Salmonella enterica	ATCC 10708	3 minutes
Escherichia coli	ATCC 11229	3 minutes
Fungi	ATCC and/or Strain	Contact Time
Trichophyton interdigitale	ATCC 9533	10 minutes
Viruses [†] {If viruses are not listed under the Virucidal [†] or Virus [†] heading, then each individual virus will be qualified with [†] }	ATCC and/or Strain	Contact Time
[†] Influenza A/Hong Kong (H3N2, A/Hong Kong/8/68)	ATCC VR-1679	3 minutes
Human Coronavirus (22/9E)	ATCC VR-740	3 minutes
SARS-CoV-2	(USA-WA1/2020)	2 minutes
Human Immunodeficiency Virus Type 1	IIIB	3 minutes
Feline calicivirus (Human Norovirus Surrogate F-9)	ATCC VR-782	3 minutes
§ Rhinovirus 37 (151-1)	ATCC VR-1607	3 minutes

[This product] [or product name] is a sanitizer against (insert microorganism/surface from table below) [in (INSERT CONTACT TIME FROM TABLE BELOW)].

Microorganism Table for Non-Food Contact Soft-Surface Sanitizing Applications

Bacteria	ATCC and/or Strain	Contact Time
Staphylococcus aureus (polyester)	ATCC 6538	5 minutes
Staphylococcus aureus (cotton)	ATCC 6538	5 minutes
Klebsiella pneumoniae (polyester)	ATCC 4352	5 minutes
Klebsiella pneumoniae (cotton)	ATCC 4352	5 minutes

Emerging Viral Pathogens

This product qualifies for emerging viral pathogen claims per the EPA’s ‘Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels’ when used in accordance with the appropriate use directions below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped Viruses
- Large, Non-Enveloped Viruses
- Small, Non-Enveloped Viruses

For an Emerging Viral Pathogen that is a/an...	...follow the directions for use for the following organisms on the label:
Enveloped Virus	Feline Calicivirus
Large, Non-Enveloped Virus	Feline Calicivirus
Small, Non-Enveloped Virus	Feline Calicivirus and Rhinovirus Type 37

The statements shall be made only through the following communication outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, “1-800” consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.

{Acceptable Claim Language}

(This Product) (Product Name) has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, non-porous surfaces. Therefore, (this product) (product name) can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es)] on [hard, non-porous surfaces.] Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

{OR}

[Name of illness/outbreak] is caused by [name of emerging virus]. [Product name] kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es)] on [hard, non-porous surfaces]. Refer to the [CDC or OIE] website at [website address] for additional information.

Use Sites

Use [this product] [or product name] on hard, non-porous, non-food contact surfaces [in]:

- Above ceilings
- Airplanes
- Airports
- Ambulances
- Amusement Parks
- Animal Hospitals
- Animal Housing Facilities
- [Animal] [Pet] Grooming Facilities
- Apartments
- Arenas
- Assisted Living Facilities
- Athletic Facilities
- Attics
- Auto Repair [Centers] [Shops] [Garages]

[Items in brackets [AAA] are optional and may/may not be included on the printed label]
{Items in braces {AAA} are for information purposes and will not appear on printed label}
(Items in parenthesis (AAA) are alternative text or text that will appear in parenthesis)

Storage and disposal [nonrefillable containers, household/residential users]

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage:

Store in original container in areas inaccessible to children.

Store this product in a cool [dry] area, [away from direct sunlight and heat] to avoid deterioration.

Store this product in non-freezing conditions [product performance is best at room temperature.

Pesticide Disposal: Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place any unused product down any indoor or outdoor drain.

Container Handling: (Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.) {OR} (Nonrefillable container. Do not reuse or refill this container. Wrap [container] and put in trash or offer for recycling if available.)

Environmental Hazards: {for labels with veterinary use patterns} This product is toxic to birds, fish and aquatic invertebrates. Caution should be used when applying indoors because pets may be at risk.

Storage and Disposal [nonrefillable containers, for Commercial/Institutional/Industrial users]

Do not contaminate water, food or feed by storage or disposal. [Note:] [This product is not to be mixed with other products]

Pesticide Storage: Store in original container in areas inaccessible to children. Store this product in a cool [dry] area, [away from direct sunlight and heat] to avoid deterioration.

Pesticide Disposal: (Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.) {OR} (To avoid waste, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry).)

Container Handling: Nonrefillable container. Do not reuse or refill this container. Then offer for recycling if available or puncture and dispose of in a sanitary landfill or by incineration.

Environmental Hazards: {for labels with veterinary use patterns} This product is toxic to birds, fish and aquatic invertebrates. Caution should be used when applying indoors because pets may be at risk. {For containers of 5 gallons or 50 lbs. or more} Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
