Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 – Adding alternate brand name; bin number
Product Name: Pertinent Fly Solution IGR 10.5% Formulating Concentrate
EPA Registration Number: 97680-1
Application Date: 12/29/2021
OPP Submission Number: 1080112
OPP Case Number: 00337626

Dear Mr. Feinberg:

The U.S. Environmental Protection Agency (EPA) is in receipt of your application for notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Biopesticides and Pollution Prevention Division (BPPD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped “Notification” and will be placed in our records. The alternate brand name: Pertinent IGR 10.5% Feed-Thru has been added to the product’s records. You must submit one (1) copy of the final printed labeling with the modifications.

Should you wish to add/retain a reference to your company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance Assurance.

If you have any questions, please contact Nina Naimy via email at naimy.nina@epa.gov.

FORMULATING INSTRUCTIONS:

- ~~[PERTINENT FLY SOLUTION][PF-0038] IGR 10.5% Formulating Concentrate~~PRODUCT NAME is a light, fluffy product and therefore, the material must be added directly to the mixer. Do not add this product using elevators, long free-fall gravity chutes, etc., to minimize dust.
- It is critical in order to avoid loss of the low density premix that additions be made under conditions of low air turbulence or flow (shut-off exhaust systems during ~~[PERTINENT FLY SOLUTION][PF-0038] IGR 10.5% Formulating Concentrate~~PRODUCT NAME addition).
- Whenever possible, add the ~~[PERTINENT FLY SOLUTION][PF-0038] IGR 10.5% Formulating~~PRODUCT NAME~~Concentrate~~ after the addition of the liquid components and blend to homogeneity.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Protect from heat. Store ~~[PERTINENT FLY SOLUTION][PF-0038] IGR 10.5% Formulating Concentrate~~PRODUCT NAME in a cool, dry location.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable Container. Do not use or refill this container. Completely empty container, then offer for recycling if available or dispose of container in a sanitary landfill or by incineration.

WARRANTY AND CONDITIONS OF SALE: To the extent consistent with applicable law, Pertinent Animal Health makes no warranty expressed or implied concerning the use of this product other than indicated on the label. Buyer assumes all risk of use, storage, or handling of this material not in strict accordance with directions given on this label.
