

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs  
Antimicrobials Division (7510P)  
1200 Pennsylvania Ave., N.W.  
Washington, D.C. 20460

EPA Reg. Number:

98271-3

Date of Issuance:

8/26/25

NOTICE OF PESTICIDE:

☒ Registration  
☐ Reregistration  
(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Evolving World's TCCA Swimming  
Pool Tablets

Name and Address of Registrant (include ZIP Code):

Olivia D. Laird  
Evolving World Ventures, LLC  
Electronic Transmittal: [laird1olivia@aol.com](mailto:laird1olivia@aol.com)

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Demson Fuller, Product Manager 32  
Risk Management Branch 1, Antimicrobials Division (7510M)

Date:

8/26/25

2. Make the following label changes before you release the product for shipment:
  - Revise the EPA Registration Number to read, "EPA Reg. No. 98271-3."
3. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 06/21/2024

If you have any questions, please contact Emily Saunders at 202-566-0624 or via email at [saunders.emily@epa.gov](mailto:saunders.emily@epa.gov)

Sincerely,

Demson Fuller, Product Manager 32

## EVOLVING WORLD'S TCCA SWIMMING POOL TABLETS

KILLS BACTERIA AND CONTROLS ALGAE

FOR ALL POOLS

STEP2

TABLETS

99% ACTIVE INGREDIENT

### ACTIVE INGREDIENT:

Trichloro-s-triazinetriene:.....99%  
OTHER INGREDIENTS:......1%  
Total:.....100%  
Available Chlorine.....90%

NET CONTENTS: 50LB (22.68KG)

**KEEP OUT OF REACH OF CHILDREN**

### DANGER

See back panels for additional precautionary statements and first aid

STEP1 BALANCE

STEP2 CHLORINATE

STEP3 SHOCK

STEP2 ALGAECIDE

## PRECAUTIONARY STATEMENTS HAZARD TO HUMANS AND DOMESTIC ANIMALS

**DANGER:** Corrosive. Causes irreversible eye damage and skin burns. May be fatal if absorbed through the skin. Harmful if swallowed. Do not get in eyes or on clothing. May be fatal if inhaled. Avoid breathing dust or fumes. Wear protective eyewear (goggles and face shield). Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear chemically resistant coveralls (or apron) over a long-sleeved shirt and long pants, socks, shoes, and chemical-resistant gloves (Butyl Rubber and Nitrile Rubber). Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or going to the toilet. Remove and wash contaminated clothing before reuse.

## FIRST AID

**IF SWALLOWED:** Call the poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**IF INHALED:** Move the person to fresh air, the person is not breathing, call 911 or an ambulance, then give! artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

**HOTLINE NUMBER:** Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency information on Evolving World's TCCA Swimming Pool Tablets, call the National! Pesticides Information Center at 1-800-858-7378, 6:30 AM to 4:30 PM Pacific time (PT), or (571) 528-4953 seven days a week. Other times, call the poison control center 1-800-222-1222.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

## ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

## PHYSICAL OR CHEMICAL HAZARD

**Strong oxidizing agent.** Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with the generation of heat, the liberation of hazardous gases, and possible generation of fire and explosion.

## SPECIAL PRECAUTIONS

**PLEASE READ BEFORE OPENING THE CONTAINER FOR THE PREVENTION OF PHYSICAL INJURY**

- 1. This product emits a powerful chlorine gas. Do not open containers indoors. Hold away from the face when opening to avoid breathing fumes.**
- 2. This product is dangerous when not used properly:**

**MISUSE MAY RESULT IN SERIOUS PERSONAL INJURY REQUIRING HOSPITALIZATION-RELATED COMPLICATIONS & MAY LEAD TO DEATH**

Do not mix with any other chemicals. Mixing with other chemicals may cause a violent and instantaneous chemical reaction.

Do not add water to this product.

Do not add this product to water in a pail.

Do not take advice from others.

Do not experiment.

Follow label instructions exactly.

## PREVENTION OF PROPERTY DAMAGE:

Contact between this product in its undissolved state and vinyl liners, painted surfaces or other property in or around the pool will result in permanent bleaching of color. These tablets are manufactured with the most concentrated form of dry chlorine available today. They are consistent in size and slow dissolving in nature to allow you to reliably dose your pool once a week. These tablets contain cyanuric acid - a stabilizer that prevents ultraviolet light from removing available chlorine from the pool. These tablets allow you to easily maintain proper chlorine residuals and help you effortlessly produce beautiful, clean sparkling water.

## DIRECTIONS FOR USE

**It is a violation of Federal law to use this product in a manner inconsistent with its labeling.**

1. Adjust water pH to 7.2-7.6 as determined by a test kit. For pools with copper plumbing, best pH factor is 7.6-7.8.
2. If the pool has not been previously stabilized, add Conditioner and Stabilizer (cyanuric acid). Follow the directions for use on the label for that product.

**UNSTABILIZED POOLS:** Follow step 1 and 2 and then add two (2) tablets per 6,500 gallons of pool water to establish a chlorine residual of 1.0-1.5 ppm as determined by test kit.

Repeat dosages as needed to maintain a residual of 1.0-1.5 ppm at all times. Thereafter, add 1 tablet per 6,500 gallons per week or as needed to maintain chlorine residual of 1.0-1.5 ppm at all times as determined by test kit.

**STABILIZED POOLS:** Follow step 1 and then add 1 tablet per 6,500 gallons per week or as needed to maintain a chlorine residual of 1.0-1.5 ppm at all times as determined by a test kit. Maintain some flexibility in dosing your pool as chlorine demand will vary depending upon factors such as air and water temperature, bather load, frequency and intensity of rain or thunder storms and pool exposure. Shock your pool weekly during hot weather and less frequently in cooler periods according to instructions provided with the chosen product. Pool should not be entered until the chlorine residual is below 3.0 ppm. Application should be made using one of the following methods:

**FLOATING CHLORINATOR:** Load the floating chlorinator with the prescribed dosage as per instructions on that chlorinator. Allow chlorinator to float freely in the pool. Increase chlorination by increasing dosage or by securing chlorinator in an area of less agitation.

**SKIMMER METHOD:** Empty the skimmer of all chemicals and/or debris. Place the prescribed dosage into the skimmer basket. The length of the filtration cycle will influence the rate at which the tablets dissolve.

**IN-LINE EROSION CHLORINATOR:** Load prescribed dosage into chlorinator according to instructions supplied with the chlorinator. Adjust the chlorinator control valves to always maintain the desired chlorine residual.

**Please Note:** The pH of these tablets is on the acid side and will tend to reduce the pH and alkalinity of pool water. Proper pH should be maintained at 7.2-7.6, through periodic additions of sodium carbonate or sodium hydrogen carbonate.

Each tablet weighs 200.0 grams (7.0 ounces)

**POOL GALLON CALCULATOR**

(all dimensions in feet)

Square or Rectangular:

Length x Width x Average Depth x 7.5 = Gallons

Round or Oval:

Length x Width x Average Depth x 5.9 = Gallons

**STORAGE & DISPOSAL:**

{Nonrefillable container - household/residential use}

[Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING.]

{Nonrefillable container - non-household/residential use}

[Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING. Nonrefillable container. Do not reuse this container. Offer for recycling if available. Rinse empty container thoroughly with water to dissolve all material prior to disposal.]

{Refillable container – household/residential use}

[Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING. Refillable container. Refill this container with Trichloro-s-triazinetriene only. Do not use this container for any other purpose. Rinse empty container thoroughly with water to dissolve all material prior to disposal.]

{Refillable container – non-household/residential use}

[Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING. Refillable container. Refill this container with calcium hypochlorite only. Do not use this container for any other purpose. Cleaning of this container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. Rinse empty container thoroughly with water to dissolve all material prior to disposal.]

Do not contaminate food or feed by storage or disposal or cleaning of equipment.]

For disposal of a contaminated or decomposing product, see Emergency Handling.

**EMERGENCY HANDLING:** In case of contamination or decomposition – Do not reseal the

**container. Immediately remove the container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.**

**[IMPORTANT: DO NOT USE THIS PRODUCT IN ANY FEEDER, FLOATER, SKIMMER, OR OTHER CHLORINATING DEVICE IN WHICH ANY OTHER CHLORINATING COMPOUND HAS BEEN USED**

**DO NOT** use this product with any other chlorinating compound.

**DO NOT** place in skimmer baskets that contain undissolved material from previously used tablets or sticks.

**DO NOT** use this product in any chlorinating device which has previously contained other [pool] chemicals.]
