Antimicrobials Division (7510P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg.
Number:
98433-1

Date of Issuance:
11/1/21

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Term of Issuance:
Unconditional

Name of Pesticide Product:
GermStryke 250

Name and Address of Registrant (include ZIP Code):

G2 Solutions, Inc.
6 Grandview Street
Coventry, RI 02816

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.
2. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.

Signature of Approving Official:

Demson Fuller
Product Manager 32
Regulatory Management Branch I
Antimicrobials Division (7510P)

Date:

11/1/21

3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, “EPA Reg. No. 98433-1.”
4. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Assurance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 05/11/2021

If you have any questions, please contact Melanie Bolden by phone at (703) 347-0165, or via email at Bolden.Melanie@epa.gov

Sincerely,

Demson Fuller, Product Manager 32

[FIRST AID]	
IF IN EYES:	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
For information on this pesticide product (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center (NPIC) at 1-800-858-7378.]	

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear safety glasses or goggles when handling product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

PHYSICAL AND CHEMICAL HAZARDS

This product is not compatible with other household or industrial products containing ammonia. Do not use this product with other household or industrial chemicals such as toilet bowl cleaners, rust removers, acids, or products containing ammonia. To do so will release hazardous, irritating gas. Prolonged contact with metal may cause pitting or discoloration. Wiping metal surfaces, after drying, with a clean water-dampened soft cloth helps ensure best protection from pitting or discoloration

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read the entire label and use strictly in accordance with Precautionary Statements and Directions for Use.

PRODUCT INFORMATION

GermStryke 250 is a broad use disinfectant with an active ingredient of hypochlorous acid. **GermStryke 250** is produced by using a bleach reagent or electrolytic method.

GermStryke 250 is designed for use on hard non-porous surfaces which include but are not limited to those found in the following: Industrial Spaces, Hospitals, Laboratories, Public Spaces, Public Transportation, Restaurants, Schools, Homes, Grocery Stores, Offices, Stadiums, Gyms.

GermStryke 250 is a ready-to-use product for general disinfecting when directions are followed.

RESTRICTION

- **DO NOT** use this product with other products containing ammonia.

To clean and disinfect hard non-porous surfaces

- Preclean surface if heavily soiled.
- Apply **GermStryke 250** only onto hard non-porous surfaces with a cloth, mop, wipe, sponge, or spray until thoroughly wet.
- Surfaces must stay wet with **GermStryke 250** for 10 minutes to fully disinfect.
- Allow surfaces to air dry.
- Rinsing or wiping not required.

GermStryke 250 is effective against:

PATHOGEN	ATCC	STRAIN	CONTACT TIME
Feline calicivirus	VR-782	F9	10 minutes
Staphylococcus aureus	6538		10 minutes
Pseudomonas aeruginosa	15442		10 minutes
Salmonella enterica	10708		10 minutes

Notice to User: This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the blood stream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

This product is not for use on medical device surfaces

EMERGING VIRAL PATHOGENS CLAIMS - Hard, non-porous surfaces

This product qualifies for off-label emerging viral pathogen claims as outlined in the EPA Emerging Viral Pathogen Guidance for Antimicrobial Pesticides when used in accordance with the appropriate use directions.

This product complies with the EPA Emerging Viral Pathogens Policy since the product is approved to inactivate Feline calicivirus (ATCC VR-782, Strain F9). Feline calicivirus is a small, non-enveloped RNA virus. According to the policy, this product is therefore qualified to make emerging virus claims against both enveloped and large non-enveloped viruses.

This product meets the criteria to make claims against certain emerging viral pathogens from the following category[ies].

Enveloped Viruses

Large, Non-enveloped Viruses

For an emerging viral pathogen that is a/an...	...follow the directions for use for the following organisms on the label:
Enveloped virus	• Norovirus / Feline Calicivirus (ATCC VR-782)
Large, non-enveloped virus	
Small, non-enveloped virus	

GermStryke 250 has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, [porous and/or non-porous surfaces]. Therefore, [product name] can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es)] on [hard, porous/non-porous surfaces]. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

[Name of illness/outbreak] is caused by [name of emerging virus]. [Product name] kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es)] on [hard, porous/non-porous surfaces]. Refer to the [CDC or OIE] website at [website address] for additional information.

STORAGE AND DISPOSAL

DO NOT contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Keep this product in a tightly sealed container. Store in original container in a cool, dry, dark, well-ventilated area away from light and heat sources.

[Note to reviewer: The following text is for residential/household containers.]

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Wrap container and put in trash or offer for recycling if available.

[Note to reviewer: The following text is for commercial/institutional containers.]

PESTICIDE DISPOSAL: Wastes from this use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available or reconditioning if appropriate or puncture and dispose of in a sanitary landfill or by incineration.

[Batch Code will be placed on the container.]
