

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Antimicrobials Division (7510P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

98507-2

Date of Issuance:

12/8/25

NOTICE OF PESTICIDE:

☒ Registration
☐ Reregistration
(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

Dichlor Chlorinating Granules

Name and Address of Registrant (include ZIP Code):

Jacqueline Stewart
Agent for Swimables, Inc.
c/o Delta Analytical Corporation
Electronic Transmittal: mpriest@delta-ac.com

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Demson Fuller, Product Manager 32
Regulatory Management Branch 1
Antimicrobials Division (7510P)

Date:

12/8/25

2. You are required to comply with the data requirements described in the DCI identified below:

- a. Sodium dichloro-s-triazinetriene GDCI-081404-16290
- b. Sodium dichloro-s-triazinetriene GDCI-081404-16609
- c. Sodium dichloro-s-triazinetriene GDCI-081404-17032
- d. Sodium dichloro-s-triazinetriene GDCI-081404-1795

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI listed above, you may contact the Reevaluation Team Leader (Team 36): <https://www.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobials-division>

3. Make the following label changes before you release the product for shipment:

- Revise the EPA Registration Number to read, "EPA Reg. No. 98507-2."

4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 07/28/2024

If you have any questions, please contact Michael Varco via email at Varco.Michael@epa.gov.

Sincerely,

Demson Fuller, Product Manager 32
Regulatory Management Branch I
Antimicrobials Division (7510P)
Office of Pesticide Programs

ACCEPTED

12/08/2025

Under the Federal Insecticide, Fungicide
and Rodenticide Act as amended, for the
pesticide registered under
EPA Reg. No. 98507-2

Dichlor Chlorinating Granules

[For Clean Sparkling Water]
[Sanitizes and Shocks – Needs No Conditioner]

Active Ingredient:

Sodium Dichloro-s-triazinetriene.....99.0%

Other Ingredients.....1.0%

Total.....100.0%

Provides 62.0% Available Chlorine

**KEEP OUT OF REACH OF CHILDREN
DANGER**

[SEE BACK [OR SIDE] PANEL FOR OTHER PRECAUTIONS]

Read Entire Label Before Using This Product

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: CORROSIVE. Causes irreversible eye damage and skin burns. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Wear safety glasses, goggles, or face shield, protective clothing, and rubber gloves when handling this product. Avoid breathing dust. Wash thoroughly with--soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. Irritating to nose and throat.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms.

[NOTE: The following effluent discharge labeling statement shall appear on all product containers equal to or greater than 5 gallons (liquid) or 50 pounds (solid, dry weight), per USEPA PR Notice 95-1]

Do not discharge effluent containing this product directly into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

Strong oxidizing agent. Mix only with water according to label directions. Use clean dry utensils. Do not mix with other chemicals. Do not add this product to any dispensing device containing remnants of any other product. Such use or contamination with moisture, organic matter, or other chemicals may cause a violent reaction leading to the generation of heat, liberation of hazardous gases, or possible fire and/or explosion.

STORAGE AND DISPOSAL

STORAGE: Keep this product dry in a tightly closed container, when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area and flood with large volumes of water, if necessary. Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment.

PESTICIDE DISPOSAL: For product that cannot be used, call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

SWIMMING POOL WATER

GENERAL INSTRUCTIONS AND INFORMATION - When used as directed, this product is an effective swimming pool sanitizer. The amount and frequency of use is governed by the number of swimmers, outside temperature, and contamination from outside sources (e.g. windstorms, rain, suntan oils, perspiration, and other human wastes). To avoid damage to pool surface, use a pool brush to disperse any granules that may have settled to the bottom of the pool. Do not allow undissolved product to rest against bleachable pool surfaces.

NEW POOL OR SPRING START UP - Adjust total alkalinity to 80 - 150 ppm and pH to 7.2 -7.8. Add the appropriate amount (see dosage chart) of this product to obtain a chlorine residual of 5 to 10 ppm by broadcasting this product over surface of pool water while filter and pump are operating. Pool is ready for use when chlorine residual is between 1 and 4 ppm. Entry into treated pools is prohibited above levels of 4 ppm due to risk of bodily harm.

TESTING - Use a reliable test kit with fresh solutions to determine pH, available chlorine residual, and alkalinity levels. Ideal swimming conditions are pH between 7.2 and 7.8, available chlorine residual between 1 and 4 ppm and a total alkalinity between 80 to 150 ppm.

MAINTENANCE - Use appropriate amount (See dosage chart) of this product to maintain available chlorine residual between 1 to 4 ppm. Check pH and chlorine residual daily, or as needed to maintain necessary chlorine residual.

SUPER-CHLORINATION - Every 7 - 10 days during the swimming season, after heavy pool usage, windstorms, rain, or whenever pool water has lost its sparkle, super-chlorination or shock treatment is required. Add the appropriate amount (See dosage chart) of this product to obtain a chlorine residual of 5 to 10 ppm by broadcasting this product over surface of pool water while filter and pump are operating. Pool is ready for use when chlorine residual is between 1 and 4 ppm. Re-entry into treated pools is prohibited above levels of 4 ppm due to risk of bodily harm.

HELPFUL HINTS - Do not adjust pH and chlorinate at the same time. Always adjust pH first. Stabilizing or "conditioning" pool water with cyanuric acid will reduce the degradative effects of sunlight upon the chlorine residual. If possible, add this product either in the morning or at night. Whenever pH or chlorine residual are adjusted, allow filter and pump to run at least two hours after addition of product.

ESTIMATING POOL SIZE - To estimate the number of gallons in your pool, use the appropriate formula below (Use measurements in feet only):

Rectangular Pools: Length x Width x Average Depth x 7.5

Round: Diameter x Diameter x Average Depth x 5.9

Oval: Maximum Length x Maximum Width x Average Depth x 5.9

Free Form: Surface Area (Sq. feet) x Average Depth x 7.5

DOSAGE CHART - To obtain an approximate level of available chlorine (ppm - parts per million) in the pool, add the indicated amount of this product corresponding to the capacity of the pool. Always check the level of available chlorine with a test kit to ensure efficacy.

[The following chart is applicable to all sizes 7lbs or greater. For sizes of 4 lbs or greater but less than 7lbs, the dosage recommendations for 50,000 gallon pools will not appear on the label, since sizes less than 7lbs would not be sufficient for super-chlorination of these larger pools. Similarly, for sizes of 2 lbs to less than 4 lbs, the label will only carry the dosage recommendations up to 10,000 gallons, and for 1 lb to less than 2 lb sizes, the label will only carry dosage recommendations up to 5,000 gallons.]

| Ounces of Product to Achieve Desired Available Chlorine Level | | | | | | | | |
|---|---|-----|-------|-------|-------|--------|--------|--------|
| Desired available Chlorine Level (ppm) | Number of Gallons of Pool Water (Gallons) | | | | | | | |
| | 100 | 500 | 1,000 | 2,500 | 5,000 | 10,000 | 20,000 | 50,000 |
| 1.0 | 0.02 | 0.1 | 0.2 | 0.5 | 1.1 | 2.2 | 4.5 | 11.0 |
| 2.0 | 0.04 | 0.2 | 0.4 | 1.0 | 2.2 | 4.4 | 9.0 | 22.0 |
| 3.0 | 0.06 | 0.3 | 0.7 | 1.6 | 3.3 | 6.6 | 13.2 | 33.0 |
| 5.0 | 0.11 | 0.5 | 1.1 | 2.7 | 5.5 | 11.0 | 22.0 | 55.0 |
| 10.0 | 0.22 | 1.1 | 2.2 | 5.5 | 11.0 | 22.0 | 44.0 | 110.0 |

Table of Dry Measures:

4 oz. = 0.25 lb.

8 oz. = 0.5 lb.

16 oz. = 1 lb.

32 oz. = 2 lb.

48 oz. = 3 lb.

64 oz. = 4 lb.

80 oz. = 5 lb.

160 oz. = 10 lb.
