

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs  
Registration Division (7505T)  
1200 Pennsylvania Ave., N.W.  
Washington, D.C. 20460

EPA Reg. Number:

100894-1

Date of Issuance:

10/14/22

NOTICE OF PESTICIDE:

Registration  
 Reregistration  
(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Pruner Master Pruner Treatment

Name and Address of Registrant (include ZIP Code):

Bgreen, Inc.  
33435 Barcelona Drive  
Thousand Palms, CA 92276

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.
2. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. You have 18 months from the date of registration to provide these data.

Signature of Approving Official:

Marcel Howard, Product Manager, Team 34  
Regulatory Management Branch II  
Antimicrobials Division (7510M)

Date:

10/14/22

3. Make the following label changes before you release the product for shipment:
  - Revise the EPA Registration Number to read, “EPA Reg. No. 100894-1.”
4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

The record for this product currently contains the following CSF(s):

- Basic CSF dated 10/13/2022

## Cleans – Lubes Prevents Rust Kills Plant Disease

- Perennial Canker
- Mosaic Virus
- Scalybutt
- Fireblight
- Bacterial Spot
- Fusarium Wilt
- Oak Wilt
- Laurel Wilt
- Dutch Elm Disease

**Active Ingredient:** Thymol 0.051%  
**Other Ingredients:** ..... 99.949%  
**Total:** ..... 100.00%

Manufactured by Bgreen, Inc.  
 33435 Barcelona Drive  
 Thousand Palms, CA 92276

This product contains sodium nitrite  
**Keep Out of Reach of Children**  
 EPA Reg. No. XXXXXXXX

**NET WT. 1 qt.**  
**(32 FL. OZ.)**  
 EPA EST. No. XXXXX-XX-X

Prune Master pruner treatment is formulated to clean, lubricate, stop rust and kill plant disease in one-step without tool disassembly. Regular use of this product enables pruning shears and saws to cut better and last longer while preventing plant pathogens on tools from contaminating healthy plants. Prune Master removes sap, sticky slime and pitch on power or hand tools.

**ACCEPTED**  
 Oct 14, 2022  
 Under the Federal Insecticide, Fungicide and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 100894-1

**Kills 99.9% of these plant pathogens:**  
 Bretiziella fagacearum fungi  
 Eriwinia amylovora bacteria  
 Fusarium oxysporum fungi

It is a violation of federal law to use this product in a manner inconsistent with its labeling. This product cannot be used on plants and agricultural crops. This product may be used on farms, home landscaping, in greenhouses or plant nurseries to clean, lubricate, inhibit rust and decontaminate pruning tools.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.  
**Pesticide Storage:** Prune Master should be stored away from sunlight at room temperature (68° to 75°F).  
**Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.  
**Nonrefillable Container Handling:** Do not reuse or refill this container. Offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**DIRECTIONS FOR USE:** To clean, lube, prevent rust and decontaminate: Remove excess dirt from pruning tool blades/teeth with a cloth or plastic bristle brush. Shake bottle well. Spray Prune Master fluid to cover the entire pruning tool cutting surface. Leave on surface a minimum of 3 minutes to loosen dirt and kill pathogens. Wipe surface with a paper towel or cloth. For heavily soiled tools, repeat process. If plant disease is detected, spray on tool before pruning the next section of a plant or when pruning a new plant. During pruning, it is not necessary to wipe tools to lube, clean and decontaminate. Spray and wipe tools before they are stored.
