

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Antimicrobials Division (7510P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

101261-1

Date of Issuance:

9/28/25

NOTICE OF PESTICIDE:

☒ Registration
☐ Reregistration
(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

Chlorimar Granular

Name and Address of Registrant (include ZIP Code):

Dalia Feliciano Prado,
Authorized Agent
Industrias Químicas Tamar, S.L
inpatc.pr@gmail.com

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Product Manager Name, Product Manager XX
Branch Name, Antimicrobials Division (7510P)

Date:

9/28/25

2. You are required to comply with the data requirements described in the DCI Order identified below:

- a. Trichloro-s-triazinetriene: GDCI-081407-16293, GDCI-081407-1769

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI listed above, you may contact the Reevaluation Team Leader (Team 36): <https://www.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobials-division>

3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No. 101261-1."
4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 07/29/2025

If you have any questions, please contact Fuller.Demson@epa.gov or Oiguenblik.Emilia@epa.gov.

Sincerely,

Demson Fuller, Product Manager 32
Regulatory Management Branch I
Antimicrobials Division (7510P)

CHLORIMAR GRANULAR

ACTIVE INGREDIENT:

Trichloro-s-triazinetriene 86.0%

OTHER INGREDIENTS 14.0%

TOTAL INGREDIENTS 100.0%

(Available Chlorine: 77.4%)

ACCEPTED

09/28/2025

Under the Federal Insecticide, Fungicide
and Rodenticide Act as amended, for the
pesticide registered under
EPA Reg. No. 101261-1

KEEP OUT OF REACH OF CHILDREN
DANGER

[See [front] [side] panel for First Aid]

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice.

IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

HOTLINE NUMBER

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For general information on product use, etc., call the National Pesticide Information Center (NPIC) at 1-800-858-7378, 8:00 am – 12:00 pm Pacific Time, Monday – Friday; email: npic@ace.orst.edu; or website: www.npic.orst.edu. You may also contact the Poison Control Center at 1-800-222-1222 for emergency medical treatment information.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled. Do not breathe in dust or fumes. Irritating to nose and throat. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Wear protective eyewear, respirator and gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS:

STRONG OXIDIZING AGENT: Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. When using automatic feeding devices, always follow manufacturer's directions as to the proper addition of sanitizer product to chlorinators. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals will start a chemical reaction and generate heat, hazardous gas, and possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood area with large volumes of water.

{Environmental hazards statement for end-use products in containers of less than 50 pounds (solid, dry weight).}

[ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.]

{Environmental hazards statement for end-use products in containers of equal to or greater than 50 pounds (solid, dry weight).}

[ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.]

[NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.]

{All text in braces {xxx} is administrative and will not appear on a final label.}

{Directions to be used for swimming pool sanitization.}

SWIMMING POOL [SANITIZER] [ALGAECIDE][ALGICIDE]

This product is for use in WHITE PLASTER POOLS ONLY. When used as directed this product is effective as a pool water disinfectant. DO NOT use this product in painted, vinyl-lined, fiberglass or colored plaster surface pools. The dosage necessary for your pool will change considerably depending on those factors that burden the disinfection system. Some of the factors that will vary the required dosages are water temperature, bather load, exposure to windblown debris, thunder or rainstorms and length of filtration cycle.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Ensure all pool equipment works properly. Clean or backwash filter following manufacturer's directions. Adjust pH of the pool to between 7.2-7.6. Add [brand name stabilizer] to establish a stabilizer level of 40-100 ppm to minimize the degradative effects of sunlight upon the chlorine. Follow manufacturer's Directions for Use.

With pump running, broadcast 4 ounces of this product per 10,000 gallons directly into the water in the deep end of the pool as an initial treatment. Repeat additions until a residual of 2-4 ppm of available chlorine is established as determined by the use of a test kit or test strips.

Regular use of a test kit or test strips is necessary to determine when it is necessary to add another dose of this product to maintain a residual of 2-4 ppm available chlorine in the pool water. An average daily dose requirement is 2-3 oz. of this product per 10,000 gallons of water. Do not let this product come in direct contact with vinyl liners or other bleachable surfaces as damage may occur.

Reentry into treated swimming pools is prohibited above levels of 4 ppm chlorine due to risk of bodily injury.

{when used as an algaecide include the following Directions for Use}

[Before using this product, turn off pump and use a brush to remove surface clinging algae. Wait four hours for the water to become still before applying the product. In the evening or when the pool is not in use, broadcast this product directly into the water in areas where there is heavy algae growth. Use 2 pounds of product per 10,000 gallons for medium to heavy algae growth, and 1 pound per 10,000 gallons for light algae growth. Approximately 12 to 24 hours after chemical treatment, turn on the pump and vacuum the dead algae through the filter. Brush away any remaining algae and clean/backwash the filter. If algae is still visible, repeat treatment as needed. To restore filter performance, chemically clean the filter following the manufacturer's directions using [an appropriate filter cleaner].]

{All text in brackets [xxx] is optional and may or may not be included on a final label}

{All text in braces {xxx} is administrative and will not appear on a final label.}

{The following is optional text to be used at our discretion with swimming pool use directions. This information is non-essential and will be provided only as a courtesy. Will not appear on all swimming pool products.}

HOW TO CALCULATE POOL CAPACITY

Shape of Pool	Gallons of water
Rectangular	Average depth x average length x average width x 7.5
Circular	Diameter x diameter x average depth x 5.9
Oval	Full width x full length x average depth x 6.7
Irregular	Consult pool builder

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Keep this product dry in original tightly closed container when not in use. Store in a cool, dry and well-ventilated area away from heat or open flame. Avoid moisture getting into container. Keep off wet floors. In case of spillage, wash with large amounts of water. **OXIDIZING MATERIAL.** Avoid contact with organic material.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. Do not put spilled product, filled or partially filled containers in the trash. Dispose of waste materials according to the label use directions, otherwise call 1-800-CLEANUP for guidance from your local solid waste agency.

SPILLS: When handling or dealing with spills, use goggles with side-shields, or face shield; protective clothing, including chemical resistant gloves and boots; use a dust respirator if dusting occurs. Sweep up dry spills and dispose of as described for pesticide disposal. If contents are contaminated or decomposing, do not reseal container; isolate unsealed container in the open or in a well-ventilated area; flood with large volumes of water if necessary.

{Nonrefillable container – household/residential use; size: 50 pounds or less.}

[CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying to dissolve all material prior to disposal. Offer for recycling, if available.]

{Nonrefillable container- non-household/residential use; size: 50 pounds or more.}

[CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying to dissolve all material prior to disposal. Offer for recycling, if available.]
