

## OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

WASHINGTON, D.C. 20460

February 20, 2026

Catherine Rice  
Country Manager, US GSS Portfolio  
Environmental Science U.S., LLC  
5000 CentreGreen Way, Suite 400  
Cary, NC 27513

Subject: PRIA Label and CSF Amendment – Addition of four cockroach species, control claims, amended Basic and Alternate #1 CSFs, and addition of Alternate #2 CSF  
Product Name: INDX-684P Insecticide  
EPA Registration Number: 101563-401  
Application Date: September 13, 2024  
Case Number: 631655

Dear Catherine Rice:

The amended label and Confidential Statement(s) of Formula (CSFs) referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, are acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Please note that the record for this product currently contains the following CSF(s):

- Basic CSF dated 05/13/2025
- Alternate CSF 1 dated 06/27/2025
- Alternate CSF 2 dated 06/27/2025

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact David Gardner at (202) 566-2677 or at [gardner.david@epa.gov](mailto:gardner.david@epa.gov).

Sincerely,

Tamica Cain, Product Manager 10  
Invertebrate & Vertebrate Branch 2  
Registration Division (7505T)

## **PRECAUTIONARY STATEMENTS**

### **Hazards to Humans and Domestic Animals**

#### **CAUTION**

Harmful if swallowed. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

### **PHYSICAL AND CHEMICAL HAZARDS**

Do not use this product in or on electrical equipment where possibility of shock hazard exists.

## **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

INDX-684P is for indoor control of cockroaches [including German, American, Smokybrown, Oriental, Turkestan, and Brown-banded cockroaches].

For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

## **USE RESTRICTIONS**

- **DO NOT TREAT AREAS THAT ARE EASILY ACCESSIBLE TO CHILDREN AND PETS.**
- Not for outdoor use.
- Do not apply to surfaces that food contacts.
- Do not allow open foods to contact gel material.
- Do not apply bait gel to areas which have been recently sprayed with a repellent insecticide.
- Do not spray insecticide over gel bait as it may cause the bait to become repellent.
- Do not apply in or on electrical equipment due to the possibility of shock.
- Do not apply bait to surfaces where the temperature exceeds 120-130°F since this could cause bait to liquify and lose effectiveness. Examples include parts of stoves, ovens, grills, fume hoods, sauna, heat lamps, coffee urns, steam tables, toasters, fryers, dishwashers, and hot water pipes.

- Do not apply gel to exposed surfaces. If gel contacts an exposed surface, remove gel and wash exposed surface.
- Do not apply in areas exposed to direct sunlight.
- **Use Restrictions for Food/Feed Establishments**  
Food/feed handling areas are defined as places other than private residences in which exposed food/feed is held, processed, prepared or served. This also includes areas for receiving, storing, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups) of food. Serving areas where food is exposed and the facility is in operation are also considered food areas.
  - For use only as a crack-and-crevice treatment.
  - Avoid applying INDX-684P Insecticide to exposed surfaces used for food preparation.
  - Do not apply to areas where food/feed, food utensils may come into contact with gel bait.
  - Do not allow open foods to contact gel bait.
  - Do not treat food preparation/processing surfaces.
  - If INDX-684P Insecticide contacts an exposed surface, first remove as much of the gel bait as possible, then wash with soap and water.
  - Do not apply gel bait to areas that are routinely washed such as cracks and crevices in tops of tables, food/feed preparation, and prepared food holding surfaces as bait may be removed by washing.
- **Use Restrictions for Nonfood areas of Food/Feed Establishments**  
Permitted non-food areas of food/feed establishment include living rooms, bathrooms, bedrooms, garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, garages, mop closets and storage (after canning or bottling).
  - For use only as a spot or crack-and-crevice treatment.

## **INSECT RESISTANCE MANAGEMENT**

For resistance management. INDX-684P contains a Group 22 insecticide. Any insect population may contain individuals naturally resistant to INDX-684P and other Group 22 insecticides. The resistant individuals may dominate the insect population if this group of insecticides are used repeatedly in the same treated areas. Appropriate resistance-management strategies should be followed.

To delay insect resistance, take the following steps:

- Rotate the use of INDX-684P or other Group 22 insecticides with different groups that control the same pests.
- Contact your local extension specialist or pest control advisors for any additional pesticide resistance-management and/or IPM recommendations for the specific site and pest problems in your area.

For further information or to report suspected resistance, contact your Environmental Science U.S., LLC at 1-800-331-2867.

### Product Information

Apply product to areas frequented by cockroaches such as between different elements of different constructions, between equipment and floors, opening leading into voids and hollow spaces in floors, walls, ceilings, equipment legs and bases, around plumbing pipes, doors and windows, and behind and under appliances and cabinets where cockroaches are typically known to hide. The applicator is designed with the intent of placing the syringe tip directly into the crack and crevice.

Inspect bait placements during follow-up inspections and apply fresh bait as needed.

If needed, gel bait deposits may be cleaned up with a damp paper towel or rag, or if dried, use a putty knife to scrape and discard in trash.

Product can also be used with a bait injector application device common to the pest control industry.

Application Information		
Infestation Level	Application Rate	Additional Information
Light-to-moderate	1 – 3 spots per 10 linear feet	Each spot of product should be approximately 0.5 grams (approximately ¼" diameter)
Heavy	3 – 5 spots per 10 linear feet	

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage:** Store in original container in a cool, dry place inaccessible to children and pets. Keep the container tightly closed and avoid excess heat.

**In case of spill, avoid contact, isolate area and keep out animals and unprotected persons.** You may contact the Environmental Science U.S., LLC Emergency Response Team for decontamination procedures or any other assistance that may be necessary. The Environmental Science U.S., LLC Emergency Response Telephone No. is 1-800-424-9300.

**Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Handling:** Non-refillable. Do not reuse or refill this container. Offer for recycling if available. Place empty bait dispensers in trash. **If partially filled:** Wrap in newspapers and discard in trash or call your local solid waste authority for disposal instructions.

### CONDITIONS OF SALE AND LIMITATIONS OF WARRANTY AND LIABILITY

Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this product. If terms are not acceptable, return the unopened product container at once.

By using this product, user or buyer accepts the following Conditions, Disclaimer of Warranties and Limitations of Liability.

**CONDITIONS:** The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Ineffectiveness, plant injury, or other property damage as well as unintended consequences may result because of factors as beyond the control of Environmental Science U.S. LLC. Those factors include, but are not limited to, weather conditions, presence of other materials or the manner of use or application. All such risks shall be assumed by the user or buyer.

**DISCLAIMER OF WARRANTIES:** TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, ENVIRONMENTAL SCIENCE U.S. LLC MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE, THAT EXTEND BEYOND THE STATEMENTS MADE ON THIS LABEL. No agent of Environmental Science U.S. LLC is authorized to make any warranties beyond those contained herein or to modify the warranties contained herein. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, Environmental Science U.S. LLC disclaims any liability whatsoever for special, incidental or consequential damages resulting from the use or handling of this product.

**LIMITATIONS OF LIABILITY:** TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER OR BUYER FOR ANY AND ALL LOSSES, INJURIES OR DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, WHETHER IN CONTRACT, WARRANTY, TORT, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE, SHALL NOT EXCEED THE PURCHASE PRICE PAID, OR AT ENVIRONMENTAL SCIENCE U.S. LLC'S ELECTION, THE REPLACEMENT OF PRODUCT.
