Dear Mr. Peterson:

This letter acknowledges receipt of an amendment for the above-listed Special Local Need (SLN) registration pursuant to Section 24(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. This amended SLN registration permits use Treflan TR-10 (trifluralin) on established Bermudagrass grown for seed to control weeds. This amendment will extend the expiration date to December 31, 2026. All other aspects remain the same.

The Agency has completed a review of the amendment of this use and acknowledges the State's SLN registration, as amended. Please inform the registrant that we have placed a copy of the amended SLN label in our files. If you have any questions, please contact Maya Wheeler by phone at (703) 347-8902 or via email at wheeler.maya.b@epa.gov.

Sincerely,

A handwritten signature in blue ink that reads "Ruthanne Loudon".

Directions for Use

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read this SLN labeling and the label affixed to the container for Treflan® TR-10 herbicide before applying. All applicable use directions, precautions and restrictions on this SLN labeling and the label affixed to the container must be followed.

Refer to product label for General Information, General Use Precautions, and Rotation Crop Restrictions. Treflan TR-10 is registered for weed control in established bermudagrass grown for seed stands prior to weed emergence at a broadcast rate of 20 pounds per acre for all soil textures. Use properly calibrated ground or aerial application equipment. A single rainfall or overhead irrigation of 1/2 inch or more, or flood irrigation after application is required to activate.
