Product Name: IMIDAN 70-W
Reg. Number: 10163-169-ZA
CALPEST ID: SLN-2600428
Reviewed by: John Inouye
Pesticide Registration Branch

The Department of Pesticide Regulation (DPR) accepted the above referenced product label. This registration action is based on compliance with provisions of California and, if applicable, federal laws and regulations pertaining to pesticide registration.

California Food and Agricultural Code (FAC) section 12992 states it is unlawful for any person to sell any adulterated or misbranded pesticide. Pursuant to FAC sections 12881-12882, a product may be considered misbranded under various cases, which include if the product package or label bears any false or misleading statement or if the label does not conform to the DPR-approved registered label. If the label contains a reference to the company's Web site, the Web site is considered part of the product labeling and may be subject to DPR review. Claims made on the Web site may not differ from claims accepted through the registration process. If DPR finds that a Web site contains false statements, misleading statements, or claims differing from the accepted label claims, the unlawful Web site claims may be subject to an enforcement action.

U.S. EPA requires the payment of an annual registration fee to maintain the registration of the SLN for the following year. Pursuant to Title 40 Code of Federal Regulations Sections 152.412 and 152.414, a waiver from the fee may be requested if certain criteria are met.

The accepted label follows this page.

Accessibility Statement: DPR is unable to modify the label because the original file was created by a third party. If you need assistance with the label, please contact the Pesticide Registration Branch at 916-445-4400.
