Subject: FIFRA 24(c) Registration –SLN Amendment Acknowledgment Letter
SLN Registration Number: CO-160002
EPA Decision Number: 578335
SLN Expiration Date: 7/1/2022
Parent EPA Reg. No.: 100-1431
Product Name: Gramoxone SL 2.0

Dear Ms. Morris:

This letter acknowledges receipt of an amendment for the above-listed Special Local Need (SLN) registration pursuant to Section 24(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. The original SLN registration permits use of Gramoxone SL 2.0 (paraquat dichloride) as a harvest aid in alfalfa grown for seed in Colorado. You indicated an amendment to extend the expiration date to allow Colorado's alfalfa seed producers to use up any existing stocks until July 1, 2022. Information was also added to the Restricted Use Pesticide box, and some Spanish language precautionary statements were also changes made to the label. All other aspects remain the same.

The Agency has completed a review of the amendment of this use and acknowledges the State's Special Local Need registration, as amended. Please inform the registrant that we have placed a copy of the amended SLN label in our files. If you have any questions, please contact Maya Wheeler by phone at (202)-566-2957 or via email at wheeler.maya.b@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Eric Bohnenblust", is located below the "Sincerely," text.

Specific Crop Use Directions

Crop	Use Pattern	Rate Per Treated Acre	Minimum Spray Volume gal/acre	Preharvest Interval (Days)
Alfalfa Desiccation of alfalfa to facilitate harvest of alfalfa seed	Broadcast	2.5 – 4.0 pts.	Ground: 20-25 gals. Air: 5-10 gals.	See precautions below

ALWAYS ADD ONE OF THE FOLLOWING:

Add a nonionic surfactant containing 75% or more surface-active agent at 0.125% v/v (1 pint per 100 gallons), OR add a nonionic surfactant containing 50-74% surface-active agent at 0.25% v/v (2 pints per 100 gallons) of the finished spray volume for ground applications. For aerial applications, add a nonionic surfactant at 0.25% v/v (2 pints per 100 gallons) of the finished spray volume

Precautions, Restrictions, and Comments:

- DO NOT apply more than two applications per year
- DO NOT harvest until at least 4 days after application.
- DO NOT apply when weather conditions favor drift from treated areas.
- DO NOT apply by ground equipment within 25 ft. or by air within 75 ft. of lakes; reservoirs; rivers; permanent streams, marshes or natural ponds; estuaries; and commercial fish ponds.
- For use only on fields in production of alfalfa seed. Not for use on fields producing alfalfa for livestock feed. No portion of the treated field, including seed, seed screenings, hay forage, or stubble, may be used for human or animal feed. Screenings from alfalfa seed processing are prohibited from feed channels. All Gramoxone SL 2.0 treated alfalfa seed screenings must be removed from the feed market.
- DO NOT cut current year's alfalfa seed crop for hay or forage. DO NOT graze current year's treated alfalfa seed crops.
- Treated alfalfa seed is not to be used for sprouting. All alfalfa seed treated with Gramoxone SL 2.0 is to be tagged at processing plants, "NOT FOR HUMAN CONSUMPTION OR ANIMAL FEED". It shall be the grower's responsibility to notify the processing plants of any seed crop treated with Gramoxone SL 2.0.
- DO NOT apply this product through any type of irrigation system.
