Nicholas Sumner
Pesticide Program Manager
Georgia Department of Agriculture
EMAIL: nicholas.sumner@agr.georgia.gov

Subject: FIFRA 24(c) Registration – SLN Acknowledgment Letter
SLN Registration Number: GA240003
EPA Case Number: 00626086
SLN Expiration Date: 12/31/2029
Parent EPA Reg. No.: 5481-508
Product Name: Hinder
Active Ingredient: Soap Salts

Dear Mr. Sumner:

This letter acknowledges receipt of the above-listed Special Local Need (SLN) registration pursuant to Section 24(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. The SLN registration permits use of Hinder (soap salts) on cotton to repel deer. You indicated that providing additional tools like this product to your growers increases the overall availability of options to combat damage caused by white-tailed deer by increasing management possibilities.

The Agency has completed a review of this use and acknowledges the State's special local need registration. Please inform the registrant that we have placed a copy of the SLN label in our files. If you have any questions, please contact by James Parker at (202) 566-1594 or via email at parker.james@epa.gov.

Sincerely,

James Parker, Lead
Biochemical Pesticides Branch
Biopesticides and Pollution
Prevention Division (7511M)

HINDER™

A deer repellent for use on cotton

FIFRA Section 24(c) Special Local Need (SLN) Label

For distribution and use only within the state of Georgia

EPA REG. NO. 5481-508

EPA SLN NO. GA-240003

KEEP OUT OF REACH OF CHILDREN DANGER/PELIGRO

This label expires and must not be distributed or used in accordance with this SLN registration after December 31, 2029.

DIRECTIONS FOR USE

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label for EPA Reg. No. 5481-508.

APPLICATION DIRECTIONS

SHAKE CONTAINER WELL BEFORE MIXING OR APPLYING ITS CONTENTS. Hinder may be applied by conventional spraying equipment ranging from small hand-held sprayers to commercial sprayers.

Under reasonably dry conditions, Hinder should be reapplied every 10 - 14 days for as long as plant protection is needed and the treatments appear to be effective.

Rain may wash Hinder off treated vegetation. Treatment should be repeated after heavy rains. DO NOT apply Hinder when rain is expected within the next 24 hours.

DO NOT apply during bloom period as treatments may result in phytotoxicity.

Cotton: Mix 1 to 2 quarts of Hinder per 10 gallons of water. Apply by ground or aerial equipment at rates of 10 - 20 gallons of spray solution per acre.

Restrictions / Precautions

This product may be hazardous to aquatic invertebrates. Do not apply directly to water, areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.
