

**FIFRA 24(c) Special Local Need Label (SLN)
For Distribution and Use Only in the State of Hawaii**

FIFRA 24(c) Special Local Need Label (SLN)

For exclusive use to control ambrosia beetles and other select pests on ōhi'a, coffee and macadamia trees.

Dec 03, 2025

HI250002

EPA Reg. Number 80286-20

SLN No. HI-250002

This label is valid until October 21, 2030 or until amended, withdrawn, canceled, or suspended.

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This label must be in the possession of the user at the time of pesticide application.
- Read this SLN labeling and the label affixed to the container for SPLAT VERB before applying. All applicable use directions, precautions and restrictions on this SLN labeling and the label affixed to the product container must be followed.

ENDANGERED SPECIES PROTECTION REQUIREMENT

It is a violation of federal law to harm an endangered species. Use of this product may be in counties which have endangered and threatened species present; therefore, applicators should evaluate the areas to be treated and take necessary precautions to avoid harming endangered species or their habitat/environment. Growers who are uncertain of the presence of a protected species should contact the Hawaii Department of Agriculture and Biosecurity, Pesticides Branch at 808-973-9402.

DIRECTIONS FOR USE

SPLAT VERB is a ready-to-use, thick liquid formulation. Check product 24 hours before using. If the product has been stored in a refrigerated area and has hardened, allow at least 48 hours at room temperature to achieve a workable consistency.

MODE OF ACTION: SPLAT VERB repels using synthetic anti-aggregation pheromone applied as dollops to the tree.

APPLICATION RATE: For single tree protection, the recommended application rate is 2.6 to 4.0 oz (75 to 115 g) of SPLAT VERB per tree. For area protection, the recommended application rate is 1.6 to 11.0 lb (750 g to 5 Kg) of SPLAT VERB per acre. Do not exceed 22.0 lb (10 Kg) of SPLAT VERB per acre per year. For agricultural commodities, DO NOT exceed 150 g A.I. per acre per year. Consult a qualified pest control advisor or ISCA Technologies for the recommended rate of application, as it will vary depending on the pest population and field conditions.

**FIFRA 24(c) Special Local Need Label (SLN)
For Distribution and Use Only in the State of Hawaii**

APPLICATION METHOD: SPLAT VERB should NOT be diluted prior to use. SPLAT VERB can be applied manually through hand-held caulking gun-style dosing guns, or mechanically using pressurized backpack sprayers or similar systems loaded onto tractors, all-terrain vehicles, planes, or similar equipment. Always consult a qualified pest control advisor or ISCA Technologies to ensure optimum application of product is achieved.

PLACEMENT: SPLAT VERB functions best when applied directly to the tree bole or trunk at a height of 2 m (6.6 ft) from the ground. For alternative placement, consult a qualified pest control advisor or ISCA Technologies.

USE RESTRICTIONS: Do not apply this product through any type of irrigation system. Do not apply SPLAT VERB when the ambient temperature is below 55 °F (13 °C) or above 95 °F (35 °C). Do not apply if rain is expected within 4 to 6 hours of application.

Crop	Pest Disease Control	Application Rate Restrictions
ʻōhiʻa trees (<i>Metrosideros polymorpha</i>)	Ambrosia beetles include: <i>Xyleborinus saxesenii</i> <i>Xyleborus affinis</i> <i>Xyleborus perforans</i> <i>Xyleborus ferrugineus</i> <i>Xyleborus bispinatus</i>	Apply no more than 22.0 lb (10 kg) of SPLAT VERB per acre per year. Reapply as needed.
Macadamia (<i>Macadamia sp.</i>)	Bark beetles include: <i>Hypothenemus obscurus</i>	Apply to mature wood and with a caulking gun only.
Coffee (<i>Coffea arabica</i>)	Beetles include : <i>Hypothenemus hampei</i>	Do not apply more than 150 grams of active ingredient (3.3 lb or 1.5 Kg of SPLAT VERB) per acre per year. Reapply as needed.
