Dear Mr. Bucy,

This letter acknowledges receipt of an amendment for the above-listed Special Local Need (SLN) registration pursuant to Section 24(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. The SLN registration permits use of the product Rovral Brand 4 Flowable Fungicide (iprodione) on Brassicaceae grown for seed, excluding canola/rapeseed to *Alternaria* leaf and pod blight and Sclerotinia white rot in Oregon. This amendment extends the expiration date to December 31, 2028, revises the SLN label to update the crop/site in the Directions for Use Table, adds the Mode of Action box, and incorporates format changes for clarification purposes.

The Agency has completed a review of the amendment for this use and acknowledges the State's Special Local Need registration, as amended. Please inform the registrant that we have placed a copy of the amended SLN label in our files. If you have any questions, please contact Stacey Groce via email at Groce.Stacey@epa.gov.

Sincerely,
