David L. Priebe
State Registration Specialist
Oregon Department of Agriculture – Pesticides Program
635 Capitol St. NE
Salem, OR 97301-2532

Subject: FIFRA 24(c) Registration – EPA SLN Acknowledgment Letter
SLN Registration Number: OR160007
Action Case Number: 00321928

Dear Mr. Priebe:

This letter acknowledges receipt of the above Special Local Need (SLN) registration pursuant to Section 24(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. This SLN registration permits use of *Bacillus thuringiensis* subsp. *kurstaki* strain ABTS-351 fermentation solids, spores, and insecticidal toxins on trees and other vegetation near water to control Asian gypsy moth and light brown apple moth. You indicated currently registered products were unclear with regard to treatment for Asian gypsy moth and light brown apple moth on trees and other vegetation near water, thereby necessitating this SLN registration.

SLN Reg. No.: OR160007
SLN Registration Date: May 19, 2021
SLN Expiration Date: December 31, 2025
SLN Registrant Name & Address: Valent BioSciences LLC, 1910 Innovation Way, Suite 100,
Libertyville, IL 60048

Parent EPA Reg. No.: 73049-427
Product Name: Foray 48B
Active Ingredient(s): *Bacillus thuringiensis* subsp. *kurstaki* strain ABTS-351 fermentation
solids, spores, and insecticidal toxins
Site: Trees and other vegetation near water
Pest: Asian gypsy moth and light brown apple moth

The Agency has completed a review of this use and acknowledges the State's special local need registration. Please inform the registrant that we have placed a copy of the SLN label in our files. If you have any questions, please contact me by phone at (202) 566-1533 or via email at kausch.jeannine@epa.gov.

Sincerely,

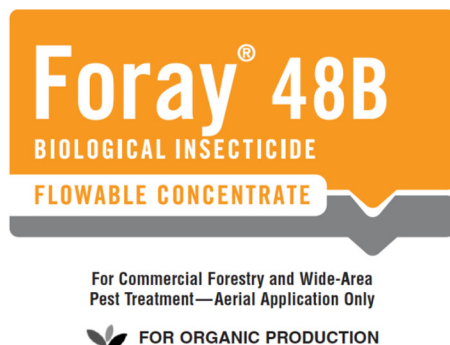

Jeannine Kausch, Product Manager 92

FIFRA Section 24(c) Special Local Need

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF OREGON

For Wide-Area Public Pest Control Program

EPA Reg. No. 73049-427

EPA SLN No. OR-160007

This label valid until December 31, 2025 or until otherwise amended, withdrawn, cancelled or suspended.

Active Ingredient:

Bacillus thuringiensis, subsp. kurstaki, strain ABTS-351, fermentation solids, spores, and insecticidal toxins	12.65%
Other Ingredients	87.35%
Total	100.00%

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Follow the application directions for use on the main Section 3 label. This state-specific Section 24(c) labeling must be in the possession of the user at the time of pesticide application.

This Section 24(c) label provides clarification regarding government sponsored Asian Gypsy Moth, Light Brown Apple Moth and other eradication programs conducted when a NPDES permit has been granted.

Aerial Application: While treating trees and other vegetation along the perimeters of water bodies, incidental deposition into water bodies may occur. A NPDES permit which allows such use, must be in place.

Applications should be done such that deposition into adjacent water is minimized.

Registrant: Valent BioSciences LLC
