Maywood, IL 60153

Subject: PRIA Label Amendment – Add SARS-CoV-2 virus claims
Product Name: Champion Sprayon Spray Disinfectant Formula 3
EPA Registration Number: 498-179
Application Date: November 16, 2020
Action Case Number: 00217092

Dear Laura Radevski:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Jacqueline Hardy by phone at 703-308-6416, or via email at Hardy.jacqueline@epa.gov.

Sincerely,

A handwritten signature in cursive script that reads "Jacqueline Hardy".

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

Kills HIV-1 (AIDS VIRUS) on pre-cleaned environmental surfaces/objects previously soiled with blood and body fluids in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of HIV.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV OF SURFACES/OBJECTS SOILED WITH BLOOD AND BODY FLUIDS.

PERSONAL PROTECTION: When handling items soiled with blood or body fluids use appropriate barrier protection such as disposable latex gloves, gowns, masks and eye coverings.

CLEANING PROCEDURE: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids must be autoclaved and disposed of according to Federal, state and local regulations for infectious waste disposal.

CONTACT TIME: Treated surfaces must remain visibly wet for 10 minutes.

After surface is cleaned, HOLD CAN UPRIGHT and spray 6 to 8 inches from surface to be treated until surface becomes wet. Treated surfaces must remain visibly wet for 10 minutes. Then allow surface to air dry or wipe with a clean cloth or paper towel.

FOR DISINFECTION OF INANIMATE SURFACES

This disinfectant spray is a germicide that kills *Staphylococcus aureus*, *Salmonella enterica*, *Pseudomonas aeruginosa*, *Streptococcus pyogenes*, *Vancomycin-resistant Enterococcus faecalis (VRE)* and *Methicillin-resistant Staphylococcus aureus (MRSA)*. Use to disinfect metal or glazed porcelain urinals, plastic or glazed ceramic tile shower stalls, metal or plastic diaper pails, garbage cans, light switches and telephones, and non-wood surfaces of toilet seats, empty hampers, athletic equipment and lockers.

***Virucidal:** *Kills SARS-CoV-2 Virus (COVID-19 Virus) (2019 Novel Coronavirus). Kills Human Coronavirus, ATCC VR-740, strain 229E. Kills Rhinovirus Type 39 (the leading cause of the common cold). Kills Pandemic 2009 (H1N1) Influenza A Virus and it is also effective against flu virus on hard, nonporous inanimate surfaces.*

DIRECTIONS: Clean object to be sprayed using usual cleaning methods. HOLD DISPENSER UPRIGHT and spray 6 inches from surface until surface is wet. Treated surfaces must remain visibly wet for 10 minutes before wiping off.

It kills *Trichophyton interdigitale* (athlete's foot fungus) on hard, nonporous inanimate surfaces in appropriate areas such as shower room floors, locker room benches or bath mats.

FOR SANITIZING INANIMATE, NON-FOOD CONTACT SURFACES

****Sanitizes:** *Kills 99.9% Staphylococcus aureus (staph), Klebsiella pneumoniae (K. pneumoniae), Escherichia coli, Campylobacter jejuni and Salmonella enterica on hard, nonporous surfaces in 20 seconds.*

Use to sanitize inanimate, hard, non-porous, non-food contact surfaces

DIRECTIONS: Clean object to be sprayed using usual cleaning methods. HOLD DISPENSER UPRIGHT and spray 6 inches from surface until surface is wet. Treated surface must remain visibly wet for 20 seconds before wiping off.

FOR SANITIZING SOFT, NON-FOOD CONTACT SURFACES (FABRICS)

***** Sanitizes:** *Kills 99.9% Enterobacter aerogenes and Staphylococcus aureus on soft, non-food contact surfaces in 60 seconds.*

Use to sanitize soft surfaces like clothing, couches, sofas, mattresses, pet beds, etc.

DIRECTIONS: Spray until fabric is wet. DO NOT SATURATE. Fabric must remain visibly wet for 60 seconds. Let air dry. For difficult odors repeat application. Do not apply on silk, rayon acetate or satin fabrics. Always test on a hidden area of fabric first.

FOR CONTROL OF MOLD & MILDEW

Prevent mold and mildew on hard surfaces such as glazed ceramic, metal and glass, in basement closets, attic storage areas, summer cottages.

DIRECTIONS: Clean object by usual cleaning methods. HOLD DISPENSER UPRIGHT and spray 6 inches from surface until surface is visibly wet. Repeat application every seven days or when new growth appears.

FOR SPACE DEODORIZER & AIR FRESHENER

Use to deodorize meeting room, classroom, kitchen, bathroom, sickroom, living room and churches.

DIRECTIONS: HOLD CAN UPRIGHT and point valve opening away from face. Spray upward for 3

seconds into corners as well as center of room, filling room with mist.

STORAGE & DISPOSAL

STORAGE: Store in a cool, dry area away from heat or open flame.

DISPOSAL: Do not reuse empty container. This container may be recycled in one of the limited number of aerosol recycling centers in the country. Before recycling, empty the can by using the product according to the label. **DO NOT PUNCTURE!** If recycling is not available, wrap the container and discard in the trash.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

May cause eye irritation. Avoid contact with the eyes and skin. Avoid breathing of spray mist. Avoid contamination of foodstuff.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

PHYSICAL OR CHEMICAL HAZARDS

FLAMMABLE. Contents under pressure. **DO NOT PUNCTURE.** Do not use or store near heat or open flame. Exposure to temperatures above 120°F may cause bursting. Never throw container into fire or incinerator. Do not spray on varnished, painted or plastic surfaces.

THE USER OF THIS PRODUCT ASSUMES ALL RISKS OF USE, STORAGE AND HANDLING NOT IN ACCORDANCE WITH ITS DIRECTIONS AND CAUTIONS.

KEEP OUT OF REACH OF CHILDREN

A. 10-min Disinfection against Bacteria on hard nonporous surfaces:

Staphylococcus aureus (ATTC 6538)
Salmonella enterica (ATTC 10708)
Pseudomonas aeruginosa (ATTC 15442)
Streptococcus pyogenes (ATCC 9342)
Vancomycin-resistant Enterococcus faecalis (VRE) (ATCC 51299)
Methicillin-resistant Staphylococcus aureus (MRSA) (ATCC 33591)

B. 10-min Disinfection against Virus on hard nonporous surfaces:

Human Immunodeficiency Virus Type 1
(HIV-1) (AIDS Virus) (HTLV-III_{RF} strain of HIV-1)
Swine Influenza A Virus (ATCC VR-333)** – Influenza A/Swine/Iowa/15/30 (H1N1)
Rhinovirus type 39 (ATCC VR-340)
Human Coronavirus (ATCC VR-740, Strain 229E)
SARS-CoV-2 Virus (COVID-19 Virus, Strain USA-WA 1/2020)

C. 10-min Disinfection against Fungi on hard nonporous surfaces:

Trichophyton interdigitale (Athlete's Foot Fungus) (ATCC 9533)

D. 20-sec Sanitization against Bacteria on hard nonporous surfaces:

Staphylococcus aureus (ATCC 6538)
Klebsiella pneumoniae (ATCC 4352)
Escherichia coli (ATCC 11229)
Campylobacter jejuni (ATCC 33560)
Salmonella enterica (ATCC 10708)

E. 60-sec Sanitization against Bacteria on soft, non-food contact surfaces.

Enterobacter aerogenes (ATCC 13048)
Staphylococcus aureus (ATCC 6538)

APPENDIX A

[EMERGING PATHOGEN CLAIM LANGUAGE]

This product qualifies for emerging viral pathogen claims per the EPA’s “Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels” when used in accordance with the appropriate use directions indicated below

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral category:

Enveloped Viruses

For an emerging viral pathogen that is an	follow the directions for use for the following organisms on the label:
Enveloped virus	Rhinovirus Type 39, (ATCC VR-340), Strain 209

Champion SprayOn Spray Disinfectant Formula 3 has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, non-porous surfaces. Therefore, Champion SprayOn Spray Disinfectant Formula 3 can be used against [name of illness/outbreak virus] when used in accordance with the directions for use against Rhinovirus Type 39 on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

Or

[Name of illness/outbreak] is caused by [name of emerging virus]. Champion SprayOn Spray Disinfectant Formula 3 kills similar viruses and therefore can be used against [name of emerging virus].when used in accordance with directions for use against Rhinovirus Type 39 on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [website address] for additional information

(NOTE: Per the Emerging Viral Pathogen (EVP) guidance and terms of registration, these claims should only be communicated **off-label** in the event of an outbreak, for the duration permitted.)
