

TABLE 1.—METHYL BROMIDE PRODUCT REGISTRATIONS WITH PENDING REQUESTS FOR AMENDMENT—Continued

Registration Number	Product Name	Company
8622–16	Metabrom 100	ICL-IP America, Inc.
8622–55	Metabrom Q	ICL-IP America, Inc.

Table 2 of this unit includes the names and addresses of record for the registrants of the products listed in Table 1 of this unit.

TABLE 2.—REGISTRANTS REQUESTING AMENDMENTS

EPA Company Number	Company Name and Address
5785	Great Lakes Chemical Corporation P.O. Box 2200 West Lafayette, IN 47996–2200
8536	Soil Chemicals Corporation (doing business as Cardinal Professional Products) P.O. Box 782 Hollister, CA 95024–9487
8622	ICL-IP America, Inc. 95 MacCorkle Avenue, S.W. South Charleston, WV 25303–1411

IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

V. Procedures for Withdrawal of Request and Considerations for Reregistration of Methyl Bromide

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before October 30, 2009. This written withdrawal of the request for cancellation will apply only to the

applicable FIFRA section 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation order.

In any order issued in response to these requests for amendments to terminate uses, the Agency proposes to include the following provisions for the treatment of any existing stocks of the products identified or referenced in Table 1 in Unit III:

All sale or distribution by the registrant of existing stocks labeled for post-harvest alfalfa hay and post-harvest cottonseed uses is prohibited after October 31, 2009, unless that sale or distribution is solely for the purpose of facilitating disposal or export of the product. Existing stocks labeled for post-harvest alfalfa hay and post-harvest cottonseed uses may be sold and distributed by persons other than the registrant until October 31, 2010. Existing stocks labeled for post-harvest alfalfa hay and post-harvest cottonseed uses may be used until all such stocks are exhausted, provided that such use complies with the EPA-approved label of the product.

If the request for use termination is granted, the Agency intends to publish the cancellation order in the **Federal Register**.

List of Subjects

Environmental protection, Pesticides and pests.

Dated: September 22, 2009.

Pseudomonas syringae; Registration Review Final Decision; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's final registration review decision for the pesticide *Pseudomonas syringae*, case 6007. Registration review is EPA's periodic review of pesticide registrations to ensure that each pesticide continues to satisfy the statutory standard for registration, that is, that the pesticide can perform its intended function without causing unreasonable adverse effects on human health or the environment. Through this program, EPA is ensuring that each pesticide's registration is based on current scientific and other knowledge, including its effects on human health and the environment.

FOR FURTHER INFORMATION CONTACT: For pesticide specific information, contact: Susanne Cerrelli, Biopesticides and Pollution Prevention Division (7511P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460–0001; telephone number: (703) 308–8077; fax number: (703) 308–7026; e-mail address: cerrelli.susanne@epa.gov.

For general information on the registration review program, contact: Kevin Costello, Special Review and Reregistration Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460–0001; telephone number: (703) 305–5026; fax number: (703) 308–8090; e-mail address: costello.kevin@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, farm worker, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the pesticide specific contact person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established a docket for this action under docket identification (ID) number EPA–HQ–OPP–2007–0509. Publicly available

docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305-5805.

2. **Electronic access.** You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr>.

II. Background

A. What Action is the Agency Taking?

In accordance with 40 CFR 155.58(c), this notice announces the availability of EPA's final registration review decision for *Pseudomonas syringae*, case 6007. The Registration Review Case for *Pseudomonas syringae* was composed of the following Active Ingredients:

Pseudomonas syringae strains ESC-10 and ESC-11 (PC Codes 006441 and 006451) are microbial pesticides that are used to control various molds and rots on harvested apples, cherries, pears, lemons, oranges, grapefruit, potatoes, and sweet potatoes.

Pseudomonas syringae strain 742RS (PC Code 006411) is a microbial pesticide that is used to prevent or reduce the growth of frost-forming bacteria on leaves and blossoms of almonds, apples, peaches, pears, tomatoes, cherries, potatoes and strawberries:

EPA has deleted the *Pseudomonas syringae* strain 742RS from the registration case pursuant to 40 CFR 155.42(b)(5) because all registrations of all products containing that active ingredient are cancelled. The registrant submitted a voluntary cancellation request for all products containing strain 742RS on April 7, 2008. These proposed voluntary cancellations were published (73 FR 53007, September 12, 2008 FRL-8380-7. No comments were received to support *Pseudomonas syringae* strain 742RS products, and they were cancelled on March 12, 2009.

The exemption from the requirement of a tolerance for residues of *Pseudomonas syringae* strain 742RS in or on all raw agricultural commodities when applied as a frost protection agent or biological control agent to growing agricultural crops in accordance with good agricultural practices that is listed in 40 CFR 180.1114 was reassessed on June 3, 2002 and it was determined that

it meets the FQPA 1996 safety standard. The Agency will take separate action to propose revision of any affected exemptions from the requirement of a tolerance for *Pseudomonas syringae* strain 742RS that are not supported for import use only.

In accordance with 40 CFR 155.57, a registration review decision is the Agency's determination whether a pesticide meets, or does not meet, the standard for registration in FIFRA. EPA has considered *Pseudomonas syringae* in light of the FIFRA standard for registration. The *Pseudomonas syringae* Final Decision document in the docket describes the Agency's rationale for issuing a registration review final decision for this pesticide.

In addition to the final registration review decision document, the registration review docket for *Pseudomonas syringae* also includes other relevant documents related to the registration review of this case. The proposed registration review decision was posted to the docket and the public was invited to submit any comments or new information. During the 60-day comment period, no public comments were received.

In accordance with 40 CFR 155.58(c), the registration review case docket for *Pseudomonas syringae* will remain open until all actions required in the final decision have been completed.

Background on the registration review program is provided at: http://www.epa.gov/oppsrrd1/registration_review. Links to earlier documents related to the registration review of this pesticide are provided at: http://www.epa.gov/oppsrrd1/registration_review/pseudomonas_syringae/index.htm.

B. What is the Agency's Authority for Taking this Action?

Section 3(g) of FIFRA and 40 CFR part 155, subpart C, provide authority for this action.

List of Subjects

Environmental protection, Pesticides and pests, Registration review.

Dated: September 17, 2009.
