

III. What Action is the Agency Taking?

This notice announces receipt by EPA of a request from registrants to amend registrations to alter the rate reductions outlined in the November 16, 2006 Final Decision for the Remaining Uses of AZM, and to extend the use of aerial application on blueberries in Michigan through the end of the AZM phase out. The registrants have requested that for apples/crabapples, blueberries, cherries, and pears that growers be allowed to use higher applications rates than originally required in the Final Decision document of November 16, 2006. Additionally, registrants have requested that the aerial use of AZM on blueberries, currently scheduled to be prohibited starting January 1, 2010, be allowed through the end of the phaseout (September 30, 2012). The request by the registrants would change some of the rate reductions and certain application practices that have been required through the end of the AZM phaseout; the registrants have not requested to extend use of AZM beyond the September 30, 2012 cancellation date for the remaining uses of AZM. The changes requested by the registrants are listed in the Table 2.

TABLE 2.—REQUESTED AZM LABEL CHANGES AS DESCRIBED IN THE JUNE 18, 2009 REGISTRANT SUBMISSION

The Agency is requesting comment on the registrant submission to amend registrations. The registrant request letter is in the docket for comment, along with an EPA-produced document with considerations for commenters on the registrant request. The Agency welcomes comments from all stakeholders, as well as any new information on human health or environmental risks not previously considered.

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).

ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.

iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Background on the Receipt of Requests to Cancel Registrations

This notice announces receipt by EPA of requests from registrants Bayer CropScience, Bayer Environmental Science, Bayer Advanced (these registrants are collectively referred to henceforth as "Bayer"), and Amvac Chemical to cancel six disulfoton Section-3 product registrations, five methamidophos Section-3 product registrations, thirteen disulfoton Special Local Need registrations, and seventeen methamidophos Special Local Need registrations. Disulfoton is an organophosphate insecticide registered for use on asparagus, beans, broccoli, Brussels sprouts, cabbage, cauliflower, cotton, coffee beans, lettuce, radish grown for seed, Christmas trees, Easter lilies, and residential ornamentals. Methamidophos is an organophosphate insecticide registered for the control of a broad spectrum of insects on cotton, potato, tomato, and alfalfa grown for seed. Bayer will amend its product

registrations by terminating the use of methamidophos on cotton as of September 30, 2009. Existing stocks labeled for use on cotton may be sold and distributed by persons other than the registrant until July 31, 2010. Existing stocks labeled for use on cotton may be used until September 30, 2010, provided that such use complies with the EPA-approved label and labeling of the product.

In letters dated June 16, 2009 and June 18, 2009, Bayer requested EPA cancel its remaining methamidophos and disulfoton pesticide product registrations identified in Table 1 of this notice. In a letter dated May 5, 2009, Amvac Chemical Corp. requested EPA cancel its disulfoton pesticide product registration identified in Table 1 of this notice. Cancelling these pesticide products will result in the termination of all remaining disulfoton and methamidophos products registered for use in the United States.

III. What Action is the Agency Taking?

This notice announces receipt by EPA of requests from registrants to cancel disulfoton and methamidophos product registrations. The affected products and the registrants making the requests are identified in Tables 1 and 2 of this unit.

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or

2. The Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The disulfoton and methamidophos registrants have requested that EPA

waive the 180-day comment period. EPA will provide a 30-day comment period on the proposed requests.

Unless a request is withdrawn by the registrant within 30-days of publication of this notice, or if the Agency

determines that there are substantive comments that warrant further review of this request, an order will be issued canceling the affected registrations.

IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or

amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

V. Procedures for Withdrawal of Request and Considerations for Reregistration of Disulfoton and Methamidophos

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before August 21, 2009. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action.

In any order issued in response to these requests for cancellation of disulfoton and methamidophos product

registrations, EPA proposes to include the following provisions for the treatment of any existing stocks of the products identified or referenced in Table 1 or 2 in Unit III:

Bayer may sell and distribute such existing stocks for registrations 264–725, 264–729, 264–734, 264–741, 264–744, 264–1020, 264–1021, and 432–1286 until December 31, 2010. Bayer may sell and distribute such existing stocks for registration 264–723 and 72155–49 until June 30, 2011. Amvac Chemical Corp. may sell and distribute such existing stocks for registration 5481–8989 until December 31, 2010.

If the request for voluntary cancellation is granted as discussed in this unit, the Agency intends to issue a cancellation order that will allow persons other than the registrant to continue to sell and/or use existing stocks of canceled products until such stocks are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled product. The order will specifically prohibit any use of existing stocks that is not consistent with such previously approved labeling. If, as the Agency currently intends, the final cancellation order contains the existing stocks provision just described, the order will be sent only to the affected registrants of the canceled products. If the Agency determines that the final cancellation order should contain existing stocks provisions different than the ones just described,

the Agency will publish the cancellation order in the **Federal Register**.
