

Biological Opinions: Pesticides and Pacific Salmonids

Schedule of Remaining Biological Opinions (BiOps) Revised 07/09/13*

EPA is committed to providing opportunities for all interested stakeholders to participate in its decision-making via an open and transparent process. EPA acknowledges that court-ordered deadlines resulting from litigation make efforts to directly solicit stakeholder input more difficult. EPA is actively working to improve the situation. To help facilitate the public comment process, we have provided the schedule below which indicates when drafts of biological opinions may available.

Chemicals	Anticipated Draft BiOp Date	Final BiOp Court-ordered Date
7 th BiOp*		
Propargite	May 1, 2013	TBD
Fenbutatin oxide	May 1, 2013	TBD
Diflubenzuron	May 1, 2013	TBD
Remaining Chemicals*		
1,3-D	TBD	TBD
Racemic metolachlor	TBD	TBD
Bromoxynil	TBD	TBD
Prometryn	TBD	TBD

*Through a stipulation entered and approved by the Court in the case of Northwest Coalition for Alternatives to Pesticides, *et al.* v. NMFS, the dates for all remaining Biological Opinions are stayed (on hold) until December 15, 2013 to allow the parties to engage in ongoing discussions on appropriate deadlines.
