

ATTACHMENT G

Atrazine Ecological Watershed Monitoring Data, 2004-06

1508-03 Atrazine Ecological Study - Analytical Data

The following worksheets contain atrazine and TSS data for all monitored Eco sites from 2004, 2005, and 2006

This file contains 112 worksheets - 1 worksheet per watershed per year per sample type (grab or autosampler) (e.g., IA-02 2004 grab, IA-02 autosamples 2004)

The following data codes are used throughout the worksheets (as seen in the report tables)

na - samples not analyzed

ns - not sampled or not sampled due to low or dry stream bed conditions.

General Data Notes

1 All residue values were determined by IA (LOQ=0.05) or GC/MS or LC/MS/MS (LOQ=0.10 ppb). In the case where result is '<LOQ', one-half the LOQ (0.03 or 0.05 ppb) was used for plots and rolling averages.

2 LOQ for TSS is 10.0 mg/L. In the case where result is '<LOQ', one-half the LOQ (5.0) was used for plots.

3 Autosamples - Median Sample Date and Time are the medians of up to eight "sips" (military time) and represent the approximate mid-point of the sample collection event.

IA-01 2004
