

Appendix I
Summary of Labels

Table I-1. Summary of Labels included in the LUIS Report for Currently Registered Bromadiolone Uses on Norway Rats, Roof Rats and House Mice¹

Product Name (EPA Reg. # And Date)	Type of Form- ulation	Max Application Rates of Formulated Product (Minimum Spacing Interval)	Use patterns Applicable to CA
BROMA- DIOLONE BAIT PELLETS (270-372, 03-21-11)	Pellets	Place three to ten 1.5 ounce packs per placement for rats at 15 to 30 foot intervals and place one pack at 8 to 12 foot spacing intervals for mice.	Do not apply further than 50 feet from agricultural buildings Tamper resistant bait stations mandatory for above ground, outdoor use. Do not use in sewers.
BROMA- DIOLONE BAIT BAR (270-373, 04-12-11)	Bait	Place 2 ounce pieces at 8 to 12 foot spacing intervals for mice and placed at 15 to 30 foot intervals for rats	For use in and around commercial buildings only Tamper resistant bait stations mandatory for above ground, outdoor use
MAKI PARAFFINIZE D PELLETS (7173-187, 07-15-10)	Pellets	For mice apply ¼ to ½ ounces at 8 to 12 feet apart and for rats apply 4 to 16 ounces usually spaced 15 to 30 feet apart.	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
MAKI RAT AND MOUSE BAIT PACKS (PELLETS) (7173-188, 08-17-10)	Pellets	Place from three to ten 1.5 ounce bait packs pellets at 8 to 12 foot spacing intervals for mice and place at 15 to 30 foot for spacing intervals rats.	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
MAKI PARAFFIN BLOCKS (7173-189, 08-17-10)	Bait Blocks	Place 2 ounce pieces at 8 to 12 foot spacing intervals for mice and place at 15 to 30 foot intervals for rats.	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
MAKI MINI BLOCKS (7173-202, 08-17-10)	Bait Blocks	Place 28 g blocks at 8 to 12 foot spacing intervals (two blocks may be needed at points of very high activity) for mice and place at 15 to 30 foot intervals for rats.	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
MAKI RODENT- ICIDE BAIT PACKS (PELLETS)	Pellets	Place 0.88 ounce packs at 8 to 12 foot spacing intervals for mice (4 packs may be needed at points of very high mouse	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in

(7173-208, 08-17-10)		activity) and place at 15 to 30 foot intervals for rats.	transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
MAKI RODENT- ICIDE PELLETS (7173-212, 08-17-10)	Pellets	Apply ¼ to ½ ounces per placement at 8 to 12 foot spacing intervals for mice (2 ounces may be needed at very high points of activity) and apply 4 to 16 ounces per placement at 15 to 30 foot spacing intervals for rats.	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
MAKI RODENT- ICIDE MINI BLOCKS (7173-215, 08-17-10)	Bait Blocks	Place 28 g blocks at 8 to 12 feet apart (two blocks may be needed at points of very high activity) for mice and place 3 to 16 blocks at 15 to 30 feet apart for rats.	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
CONTRAC WITH LUMITRACK (12455-133, 02-03-11)	Bait	Place 1 ounce blocks at 8 to 12 feet apart (two blocks may be needed at points of very high activity) for mice, Place 3 to 16 blocks at 15 to 30 foot spacing intervals for rats.	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
CONTRAC RAT & MOUSE BAIT (12455-36, 04-18-11)	Bait Station	Apply ¼ to ½ ounces per placement, 8 to 12 feet apart for mice (2 ounces may be needed at very high points of activity) and apply 3 to 16 ounces per placement at 15 to 30 feet spacing intervals for rats	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
CONTRAC MOUSE BAIT STATION (12455-68, 06-13-08)	Bait Station	Apply 1 ounce at 8 to 20 foot intervals. ²	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
CONTRAC RODENT- ICIDE (12455-69,	Bait Station	Apply ¼ to ½ ounces at 8 to 12 foot intervals for mice (2 ounces may be needed at very high points	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made

05-26-11)		of activity) and apply 4 to 16 ounces per at 15 to 30 foot intervals for rats	structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
CONTRAC RAT AND MOUSE BAIT READY TO USE PLACE PACS (12455-75, 04-18-11)	Bait	Apply 2 to 10 Place Pacs (each Place Pac weighs 1.5 oz) at intervals of 15 to 30 feet per placement. Maintain an uninterrupted supply of fresh bait for at least 10 days or until signs of rat activity cease to appear.	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
CONTRAC RODENT- ICIDE READY TO USE PLACE PAC (12455-76, 05-25-11)	Bait	Place 2 to 10 place pack pacs Place 2 to 10 place packs at intervals of 15 to 30 feet for rats, Place 1 place pack at 8 to 12 foot intervals.	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
CONTRAC ALL- WEATHER BLOX (12455-79, 05-25-11)	Block Bait	Apply 3 to 16 blocks (1 oz bait block) at intervals of 15 to 30 feet per placement. Maintain an uninterrupted supply of fresh bait for at least 10 days or until signs of rat activity cease to appear.	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
CONTRAC SUPER SIZE BLOCKS (12455-82, 04-18-11)	Bait Blocks	Place 8 ounce 15 to 30 feet apart. ³	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
CONTRAC RODENTICID E PLACE PAC (12455-86, 01-13-11)	Bait Station	Apply 1 place pack at 8 to 12 foot intervals for mice and apply 4 to 16 places packs usually at intervals of 15 to 30 feet for rats.	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
CONTRACT MOUSE BAIT STATION (12455-104, 6-13-2008)	Bait Station	Place 1 ounce place bait stations at 8 to 10 foot intervals. ²	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and

			aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
(67517-35, 06-29-11)	Pellets	Apply ¼ to ½ ounces at 8 to 12 foot intervals for mice (2 ounces may be needed at very high points of activity)	For use in and around agricultural buildings. Do not apply further than 50 feet.
RAT/MOUSE- A-REST PLACE PACK (67517-37, 06-29-11)	Place Packs	Apply ¼ to ½ ounces at 8 to 12 foot intervals for mice (2 ounces may be needed at very high points of activity) for mice and 3 to ten 1.5 ounce at 15 to 30 feet apart.	For use in and around agricultural buildings and residential structures. Do not apply further than 50 feet.
SMACKER BAIT (72500-19, 08-02-10)	Bait Blocks	Place 1 ounce blocks at 8 to 12 foot intervals for mice (in areas of extremely high mouse activity place two) and for rats place 4 to 16 one blocks at intervals of 15 to 30 feet.	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
RATIMOR WAX BLOCK (82744-1, 09-16-10)	Bait Blocks	Place 3.5 ounce blocks 6 to 16 feet apart for mice and for rats apply 1 to 4 blocks at 15 to 30 feet apart for rats.	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
RATIMOR SOFT BAIT (82744-2, 06-06-10)	Bait	Place 3.5 ounce bait blocks at 6 to 16 feet apart for mice and 1 to 4 blocks at 15 to 30 foot intervals.	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
BRIGAND SB (87235-1, 07-19-10)	Bait	Place 1 bait bag per placement (0.38 ounces) at 8 to 12 feet apart for mice and 10 to 42 bait bags per placement at 15 to 30 foot intervals for rats	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in transport vehicles (ships, trains and aircraft). Tamper resistant bait stations mandatory for above ground, outdoor use.
BRIGAND WB (87235-2, 08-16-10)	Bait	Place 1 (1 ounce) bait block per placement at 8 to 12 feet apart for mice and apply 4 to 16 blocks per placement 15 to 30	For use in and around residential, food processing facilities, industrial, commercial, agricultural, and public buildings and similar man-made structures. It may also be used in
