

## **Appendix G. List of citations rejected by ECOTOX criteria**

The citations in this appendix were considered for inclusion in ECOTOX. Citations include the ECOTOX Reference number, as well as rejection codes (if relevant). The query was run in October, 1999 and revised March and June, 2000. References in this appendix not included in the ECOTOX database, because they did not meet some or all of the following minimum criteria:

- toxic effects were not related to single chemical exposure;
- toxic effects were not for an aquatic or terrestrial plant or animal species;
- biological effects were not on live, whole organisms;
- concurrent environmental chemical concentrations/doses or application rates were not reported; or
- duration of exposure was not explicit.

Aside from these criteria, other practical considerations also caused some papers to be excluded from the database, such as not being written in English.

1992. Air contaminants. *Fed. Regist.* 57: 26002-601, 12 Jun 1992.
