TO: Kristina Garber, Senior Science Advisor
Environmental Risk Branch II
Environmental Fate and Effects Division (7507P)

This attached spreadsheet contains characterizations and content summaries of the data and data sources most commonly used by the Office of Pesticide Programs in pesticide usage analyses. This information is intended to provide high-level overview of both the data collection methods employed and the data available from various sources. Also contained within the spreadsheet is a crosswalk for pesticide use site terminology, which can vary across data sources.
