Ambient Monitoring Group  
Research Triangle Park, NC 27711

Dear Mr. Lutz:

I have attached the AMP 450 Quick Look Criteria Pollutant Annual Summary Report for all the 2003 PM2.5 FRM ambient air quality monitoring data. In addition, the AMP 240 P&A report for the same parameter has been included. These documents are being provided to update the previous certification. In the course of the continuing evaluation of the data, several changes were required.

I certify that, to the best of my knowledge, this report is accurate and complete.

If you should have any questions or comments, please let me know.

Sincerely,

A handwritten signature in cursive script that reads "Susan Zimmer-Dauphinee".
