Re: Certification of 2004 PM2.5 Data

Dear Ms. Katz:

This correspondence is to notify you that the final 2004 PM2.5 data has been uploaded to the Air Quality Subsystem (AQS). Pursuant to staff review of the AQS printouts of the West Virginia Department of Environmental Protection, Division of Air Quality's (DAQ) 2004 SLAMS AMP 450 "Quick Look Criteria Parameters" report for PM2.5, the contents of the report are accurate to the best of my knowledge. My Assistant Director of air monitoring has advised me that the 2004 PM2.5 data was collected in accordance with the applicable USEPA QA requirements, methodology and siting criteria of 40 CFR Part 50. The AMP450 report is attached for your review. The complete 2004 PM2.5 data set may be retrieved from the AQS.

Should you have any question or comments regarding this matter please feel free to contact me at 304-926-0499 extension 1238. Members of your staff are welcomed to contact Tim J. Carroll, Assistant Director Air Monitoring, at 304-926-0499 extension 1248.

Sincerely,

John A. Benedict
Director
