

*Brad Henry*  
Governor

November 9, 2007

Mr. Richard E. Greene, 6RA  
Regional Administrator  
1445 Ross Avenue  
Dallas, Texas 75202-2733

Dear Mr. Greene:

In accordance with section 107 (d) (1) (A) of the Clean Air Act and Guidance provided to Regional Administrators from Robert J. Meyers, Acting Assistant EPA Administrator, on June 8, 2007, and based on quality assured data collected in 2004 – 2006, it is my recommendation that the entire state of Oklahoma be designated as “attainment” for the  $35\mu\text{g}/\text{m}^3$   $\text{PM}_{2.5}$  24-hour Ambient Air Quality Standard. Enclosed is a list of all the  $\text{PM}_{2.5}$  Federal Reference Method monitors in the state of Oklahoma, and their respective average of annual 98<sup>th</sup> percentiles for years 2004 through 2006.

It is my understanding that EPA will make final designations based on data from years 2005, 2006, and 2007, and if any changes need to be made to our recommendation, we will be consulted by EPA no later than August 20, 2008.

Sincerely

A handwritten signature in black ink that reads "Brad Henry".

Brad Henry  
Governor

Enclosure

CC: Miles Tolbert, Secretary of the Environment
