Final Update

Current Progress at the Site

This facility is one of EPA Region III's high priority RCRA corrective action sites and EPA has determined that both the Human Exposure and Groundwater Environmental Indicators have been met.

On May 6, 1999, EPA determined that both the Human Exposures and Groundwater Environmental Indicators have been met. EPA is currently evaluating the information to determine if all of the corrective action requirements have been met. EPA has determined that no further corrective action is necessary at the Koppel Steel Corp. facility at this time.

Site Responsibility

RCRA Corrective Action activities at this facility are being conducted under the direction of EPA Region III with assistance from the State.
