

Safety-Kleen Corporation

**5784 Lincoln Highway, Route 30
Stoystown, PA 15563
EPA ID #: PAD000738831
Site Property Area: 1 acre
Last Updated: 04/23/2014**

Status

The United States Environmental Protection Agency (EPA) has prepared a Statement of Basis (SB) to solicit public comment on its proposed decision for the Safety-Kleen Systems, Inc. (SK) facility located at 5784 Lincoln Highway, Route 30 Stoystown, Shade Township, Somerset County, Pennsylvania, 15563 (Facility). EPA's review of available information indicates that there are no unaddressed releases of hazardous waste or hazardous constituents from the Facility. Based on that assessment, EPA's proposed decision is that no further investigation or cleanup is required. EPA has determined that its proposed decision is protective of human health and the environment and that no further corrective action or land use controls are necessary. The public notice is anticipated to be posted in the newspaper for a 30-day comment period that will begin within 30 days.

Facility Description

The Safety-Kleen Corporation (now Safety-Kleen Systems, Inc.) Facility was a treatment, storage, and disposal (TSD) facility (USEPA ID No. PAD000738831) located in Stoystown, Pennsylvania. Safety-Kleen Corporation leased 1-acre from a property owner and operated the former Safety-Kleen Service Center (service center or Facility) as a transfer facility for product and spent/waste solvent between a customer (waste generator) and Safety-Kleen's off site recycle center.

The Facility was located along the north side of U.S. Route 30, approximately 1.75 miles east of Stoystown. The Facility is in a rural setting, with both commercial and residential structures in the area.

According to the facility's Part A hazardous waste permit application, the Facility began operation on May 1, 1975. The Facility operated under interim status, issued July 27, 1981, for the storage of characteristic and listed hazardous wastes (waste mineral spirits, used immersion cleaner and dry cleaning waste) and was considered closed by the Pennsylvania Department of Environmental Protection (PADEP or its predecessor) on June 29, 1990.
