

# OLIN MICROELECTRONICS

**731 Engler Road**  
**Nazareth, PA 18064**  
**Congressional District 15**  
**EPA ID #: PAD 002 389 104**  
**Site Property Area: 15.8 Acres**  
**Final Update**

## Status

---

The Olin Facility submitted a Notice of Intent to Remediate to PADEP under their Land Recycling (Act 2) Program and was granted a release from environmental liability under the Act 2 Program. EPA published a public notice in the local newspaper that described the proposed no further action for the Facility. EPA provided a 30-day comment period to welcome public review and input. No comments were received. EPA believes Olin Microelectronics Materials has attained Corrective Action Complete with Controls status at this time. Olin has recorded a deed restriction for the property.

## Facility Description

---

The site is located at 731 Enger Rd. in Nazareth within Plainfield Township in Northampton County, Pennsylvania. The facility was established in 1972 as Hi-Pure Chemicals, Inc. The site consists of tract # 1 and tract # 2. The tracts are non-contiguous properties, and industrial activity was limited to tract # 1. Tract # 1 is approximately 360 feet by 650 feet and consists of a large manufacturing building/warehouse and an office building. Industrial activities conducted by the Olin Corporation began in 1984. The facility repackaged and purified industrial, electronic, and food grade acids. Materials handled at the site included: ammonium hydroxide, hydrochloric acid, hydrofluoric acid, acetic acid, nitric acid, ammonia, hydrogen fluoride, phosphoric acid, sulfuric acid, and ammonium bifluoride.
